THE REGENCY AUCTION 45

MAY 26th & May 27th • THE BELLAGIO • LAS VEGAS

Dear Friends,

Welcome to our 45th Regency Auction, a two-day sale, taking place at the Bellagio hotel in Las Vegas, Nevada on Wednesday, May 26th and Thursday, May 27th starting at 4 pm PT. On the heels of last month's record-breaking auction, we are proud to present yet another extraordinary sale.

Featured are three incredible collections. First, Part II of the Boylston Collection, which includes more than 100 proof and mint state Seated Liberty Half Dollars and a smattering of Seated Liberty Quarters, just as fresh and eye appealing as the group offered in our last Regency Auction. Pay close attention to Lot 23, the 1863 25c in PCGS PR65 DCAM with CAC approval which is tied for finest DCAM, Lot 112, the 1840 50c Small Letters in NGC PF65, the finest known of only 6 minted, and Lot 113, the 1841 50c in NGC PF65+, the sole finest graded example. Second, the Larry Shapiro Collection of Three Cent Silvers, almost all of which are PCGS and CAC approved, begins Day Two. You will not want to miss the 1862 in PCGS MS67+ CAC, Lot 390, tied for finest known, Lot 392, the 1868 in PCGS MS66+ CAC, and Lot 401, the 1873 in PR66+ CAM CAC. Third is the Sommelier Collection of US Coins, a fantastic type collection of over 175 coins, virtually all PCGS graded and CAC approved. Keep an eye on Lot 419, the 1839 Silly Head variety Large cent in PCGS MS65 RB CAC, a delight for any copper collector, Lot 524, the 1795 3 Leaves \$1 in PCGS AU53 CAC, simply perfect for the grade, Lot 567, and the 1796 \$10 in PCGS AU55 CAC, a flashy piece of early gold from the last year of Washington's presidency.

Other highlights include:

Lot 182- 1788 Cent Massachusetts PCGS MS65 BN CAC

Lot 196 – 1872 2c PCGS MS66+RD

Lot 223 – 1798 10c JR-3 Small 8 PCGS MS65

Lot 269 – 1870-S 50c PCGS MS64 CAC

Lot 288 – 1958 50c PCGS MS67+ FBL CAC

Lot 328 – 1921 Peace \$1 High Relief PCGS MS66+ CAC

Lot 350 – 1863 \$3 PCGS PR66 DCAM

Lot 364 – 1852 \$20 S.S.C.A. PCGS MS63+ CAC

As you have come to expect from Legend Rare Coin Auctions, there are hundreds of other very high-end, hand selected, quality rare coins in all series. We advise that you make your watchlist now and prepare to bid.

Please know that the LRCA team is here to work with you. If you are interested in phone bidding, need terms or have any questions at all, now is the time to let us know. You will not want to miss out on this auction!

Warm regards,

Julie Abrams

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-CHECK PAYMENTS

E-check payments now available. Please email form to info@legendauctions.com

INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the

Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey, and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Matt Bell
CEO

Matthew Bell graduated Magna Cum Laude from Ithaca College with Business Administration degrees in Finance and Marketing and Accounting. He is a member of five collegiate honor societies, the Oracle Society, Phi Kappa Phi, Beta Gamma Sigma honor society for Business, Sigma Iota Epsilon, and Beta Alpha Psi.

Prior to joining the Legend team, he was Senior Accountant for Global Essence, Inc, an international flavor and fragrance company.

Originally hired as a Staff Accountant, he was quickly promoted to be the number two person in the Finance Department for the company.

Matthew was brought onto LRCA in September 2017 as Controller for both LRCA and Legend Numismatics. He was promoted initially to Executive Vice President in May of 2018, and again to CEO in January of 2020. Since he has been with the company, Legend Rare Coin Auctions has seen its business expand to seven Regency Auctions per year, and enjoyed three consecutive years of revenue growth.

Julie Abrams
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company, as well as continuing her role as CEO for Teletrade.

In 2004 she joined Stacks-Bowers, she worked to develop an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

DAY 1

WEDNESDAY MAY 26

THE BOYLSTON COLLECTION PART II

Legend Rare Coin Auctions, in conjunction with Elizabeth Coggin Numismatics, is elated to offer The Boylston Collection Part II. First and foremost, we would like to thank the scores of bidders who participated in Part I featured in Regency Auction 44.

Following on the heels of the highly successful sale of Part I of this impressive collection, which set 6 world record auction prices! To say bidding was ferocious on the following highlights would be an understatement; Lot 31, the 50C 1856-S PCGS MS64 CAC, more than doubled the previous auction record, bringing \$32,900, closely followed by Lot 33, the 50C 1857-S PCGS MS66 CAC, which realized \$91,062.50, nearly \$30,000 more than the previous auction record! Additional record setting lots include Lot 53, 50C 1870 PCGS MS67 \$29,375, Lot 54, the 50C 1870-S PCGS MS65 CAC \$67,562.50, Lot 65, the 50C 1875-CC PCGS MS66+ \$44,650, and Lot 70, the finest known 50C 1877/6 PCGS MS64+ CAC \$22,325. In addition to these highlights many of the more moderately graded and priced proofs sold for very strong prices adding to some already great collections. There was something for everyone and collectors made their presence known while setting the pace for Boylston Part II.

In Part II you will find a slight deviation from halves for a few lots into Seated quarters. For a brief period of time, the Boylston Collector ventured into the smaller denomination and the result is a nice offering of blazing white Mint State pieces along with black and white cameo Proofs. Take note of the incredible 1887 in PR67DCAM CAC. There aren't enough adjectives to describe how

truly sublime this piece is. All we can say is have your wallet full of cash ready when you place your bid on this beauty!

Part II of the Seated half dollar portion is replete with another fantastic run of Proofs anchored by two classic rarities. An 1841 in NGC PR65+, the sole finest graded and one of only 8 known and the 1840 NGC PR65 ex. Pittman example of which just a handful exist! Opportunities like this do not come around often, you positively do not want to miss out on the dozens of gem cameo pieces in a variety of dates

Additionally you will find a plethora of scarce and rare mint state dates featuring many top pops and pieces tied for second or third finest graded. Among them are an 1841 NGC MS65; 1842-O Med Date Rev of 42 PCGS MS64 CAC; 1845-O in PCGS MS66 CAC; 1855/54 Arrows NGC MS65; 1866-S With Motto NGC MS65; 1867-S NGC MS65; 1869 PCGS MS65; and too many more to list!

To further your collecting appetite, is a terrific grouping of Seated Liberty pattern halves struck in various metals. Including an 1861 J-280 NGC PR66+ RB CAM, an 1863 J-343 PCGS PR66RB, an 1864 J-391 PCGS PR65 CAC, an 1870 J-933 PCGS PR65DCAM as well as a stunning 1871 J-1116 in PCGS PR67CAM CAC.

We know that the quality and visual allure of these classic numismatic rarities will captivate even the most discriminating of collectors. Prime your paddles and let the bidding commence!

LOT 1

25C 1858 NGC MS65

A bold, shimmering, satiny luster has a billowing brilliance on both sides. Sharply struck, this GEM grade example has only some minor weakness on the feathers left leg. Scattered ticks and giggles are noted as are some interesting die cracks on the reverse. The untuned lustrous surfaces give this coin a neat look.

PCGS 40, NGC 26. The most recent example to sell in auction realized \$2,760 in July 2018. The current Collectors Universe value is listed at \$2,000. A neat GEM No Motto quarter. Good luck.

PCGS# 5445 | EST: \$1,500+

LOT 2

25C 1858 PCGS MS65

PRETTY IN WHITE! Rolling cartwheel luster ripples over clean fields. Some light die striations are seen on the reverse with a powerful loop, there is one well concealed contact mark on the shield on the reverse and a couple breaks in frost on Liberty's leg. A great piece for a high grade type set.

PCGS 39, NGC 26. PCGS Price Guide value is \$2,000. The last example to trade at auction sold for \$1,440 in April 2020, although it was dirty looking and not appealing. We expect this coin to sell for more and suggest you bid aggressively if you would like to own it!

PCGS# 5445 | EST: \$1,500+

LOT 3

25C 1858 PCGS MS65

IVORY TOWERS of mint bloom and frost accent blazing fields. Extremely well struck with sharp definition in all of the design details. A couple of random contact marks are seen in the left obverse field and underneath the first S in STATES on the reverse.

PCGS 39, NGC 26. PCGS Price Guide value is \$2,000. The last example to trade at auction sold for \$1,440 in April 2020, and it was not attractive. This coin is sure to fetch a stronger price on eye appeal alone!

PCGS# 5445 | EST: \$1,500+

LOT 4

25C 1862 NGC MS64

A wonderfully frosty CHOICE Mint State example of this popular Civil War date. The surfaces are a delicate pearly-silver with just some hints of pale gold. Generally well struck the details are bold overall. Planchet striations are seen in the fields, as are some minor traces of contact, which do not harm the visual allure.

PCGS 47, NGC 41. The last one sold in November 2017 for \$978 and the current Collectors Universe value is listed at \$1,250. Quite scarce any finer, this is a neat collector coin.

PCGS# 5456 | EST: \$800+

LOT 5
25C 1876 PCGS MS65

CREAMY luster accents fields that have the appearance of satin sheets. A dusting of faint champagne gold toning adds to the overall appeal. No contact marks of any consequence, just a couple of breaks in luster can be seen with magnification.

PCGS 47, NGC 45. An example sold in November 2020 for \$1,260. PCGS Price Guide value is \$1,350. If you are chasing the perfect type coin, this the piece for you!

PCGS# 5501 | EST: \$900+

LOT 6
25C 1876-CC NGC MS65

A PERENNIAL FAVORITE and a piece that won't disappoint! Wave upon wave of blazing white, frosty cartwheel luster graces well preserved surfaces. Under strong magnification, one can pick up a few die striation lines and interesting peripheral diecracks (as made). Contact marks are minimal with a couple hidden in the drapery and one under Liberty's eye noted for accuracy.

Small Wide CC Mintmark.

Carson City Mint coinage in any denomination is ALWAYS in high demand, mostly because of the allure of the Wild West and the relative low mintage of many of the dates in the dimes through gold series.

PCGS 13, NGC 18. The last time an NGC piece traded was April 2015 for \$3,055, a long 6 years ago in a much weaker market. PCGS Price Guide is \$4,000. Sure to create a stir when it crosses the block. Bid generously or go home disappointed!

PCGS# 5502 | EST: \$2,600+

LOT 7
25C 1876-S NGC MS64

BLAST WHITE luster accents super clean surfaces. Other than a few light striation lines (as made) and a little dimple or two in the right obverse field, this coin is remarkably free of distractions for the grade. Boldly struck motifs.

PCGS 79, NGC 73. In May 2019 an example traded for \$528. PCGS Price Guide value is \$600. Inexpensive but nice for the grade. Worthy of careful consideration.

PCGS# 5503 | EST: \$450+

LOT 8
25C 1877 PCGS MS65

GLITTERING, blast white mint bloom accents flashy fields. The motifs are struck to full advantage and are accentuated by a thick layer of frost. Under a loupe one can see a couple of light abrasions in the left obverse field and a few breaks in frost on Miss Liberty.

PCGS 61, NGC 42. A piece sold recently in April 2020 for \$1,080. PCGS Price Guide is \$1,350. A pleasing high grade example for a type or date collection. The eye appeal alone is deserving of a strong bid!

PCGS# 5504 | EST: \$800+

LOT 9

25C 1877 PCGS MS66 CAC

HOLY SMOKES! What a gorgeous piece! Blanketed in snowy white luster and frost this coin has an eye appeal of 10 on a scale of 10! If not for a teensy frost break on the obverse near star 13, this coin would be in a + holder (just our opinion). Not a hint of weakness in design detail can be seen anywhere. Razor sharp even on the star radials.

PCGS 54, NGC 52, CAC 16. The last CAC sale at auction was January 2018 where it sold for \$2,280. PCGS Price Guide is \$2,000. With the eye appeal, overall premium quality and difficulty in finding a piece worthy of a CAC designation, we suggest you keep your finger on the bid button!

PCGS# 5504 | EST: \$2,000+

LOT 10

25C 1877 PCGS MS67 CAC

Vivid satiny luster and bold frosty texture come together on this **SUPERB GEM!** WOW. Impressive blast white, mint fresh brilliance. Well struck and without much contact, the eye appeal is excellent.

PCGS 44, NGC 33, CAC 24. This beautiful coin last sold in auction back in 2009, realizing \$5,175. More recently one sold in February 2021 for \$4,440. The PCGS Price Guide value is listed at \$4,750 and the CAC CPG value is listed at \$5,310. A baker's dozen are graded finer, including the PCGS MS68 CAC that we sold for a record \$27,025 in June 2019. A great type coin for the collector. Good luck.

25C 1877-S NGC MS65

Satiny and brilliant! A glowing radiating cartwheel luster rolls smoothly over generally untuned GEM surfaces. The devices are well struck up, with nice definition throughout the obverse and reverse details. The eye appeal is nice.

PCGS 40, NGC 34. The most recent example sold for \$960 in April 2019 and the current Collectors Universe value is listed at \$1,100. Despite a mintage of nearly 9 million, these are **VERY RARE** any finer.

Exceptionally brilliant and Premium Quality, this GEM has a sparkling vibrance. An intensely lustrous, blast white appearance. The fields have flashes of semi-PL reflection which accentuate the bold frostiness of the razor sharp devices. Nary a mark can be found, even under close scrutiny. The eye appeal is very bold.

PCGS 11, NGC 6. The last one sold two and a half years ago, realizing \$1,440 in December 2018, and prior to that, we sold one in June 2015 for \$2,585. The current PCGS Price Guide value is \$2,000. A nice coin, we are not really sure why CAC did not bean this beautifully lustrous coin.

25C 1879 NGC MS66

DYNAMITE MINT BLOOM and luster bounce off of the surfaces when twirled in the light. White as a brides gown and so pristine! The aesthetic appeal is a knockout! Just two miniscule ticks are seen under strong magnification in the obverse fields. They are only noted for accuracy. The strike is crisp and exhibits full delineation of the design elements, which pop off the fields due to the accent of heavy mint frost. Did someone say potential MS66+, I couldn't agree more!

PCGS 36, NGC 28. Low mintage with just 13,600 business strikes coined this year. The last non-CAC example to sell was seven long years ago in January 2014 where it fetched \$2,115. PCGS Price Guide value is \$2,500. We anticipate frenzied bidding for this gorgeous piece, especially with the nice spread in price to \$4,250 for an MS66+.

LOT 15
25C 1879 PCGS MS66 CAC

The terms of the 1878 Bland-Allison Act required the mint to purchase huge sums of silver from western mines. This act brought back the silver dollar as the largest silver coin of the realm and introduced the Morgan dollar. While hundreds of millions of silver dollars flowed out of the mints in Philadelphia, Carson City, New Orleans, and San Francisco, smaller denomination silver coin mintages fell dramatically.

Only 13,600 quarters were coined in 1879. Luckily for modern collectors, a number of contemporary collectors took note of lower outputs, and there are a few dozen Gems available for collectors today.

This is a BLAZING and BRILLIANT GEM. Intense, semi-Prooflike reflective luster booms boldly on both the obverse and reverse, surrounding thickly frosted, razor sharp design types. The surfaces are nearly without flaw, nothing that deserves individual mention. The eye appeal is magnificent; untuned and mint fresh!

PCGS 36, NGC 28, CAC 12. The most recent MS66 with CAC approval was richly toned, and sold in October 2019 for \$3,000. We sold a very similar looking coin in a PCGS MS66+ CAC holder for \$3,760 our July 2020 Regency Auction. The current CAC CPG value is \$3,250. A gorgeous, blast white SUPERB GEM! The brilliance of the radiating luster is intense--so intense you can see it swirl in bold cartwheel bands from across the room! From a naked eye standpoint, the surfaces appear flawless; it is only with the aid of a strong glass that the tiniest contact can be located. The devices are frosty and well struck, the surfaces are untuned and mint fresh. Like all dates in the 1880s, the mintage was tiny, limited to 12,000 examples produced for commerce.

PCGS 23, NGC 26. The most recent PCGS examples were CAC approved and sold in the \$4,113 to \$4,800; this coin has been in the Boylston Collection for over a decade, selling for over \$7,000 back in 2008! As the 1880s rolled into the 1890s, the mintages began to rise, and the 1891-S, the final issue of the Seated Liberty series, had a large mintage of over 2.2 million pieces. That said, commercial demand was very strong, and today, the lower mintage dates from the previous decade have higher pops in GEM grades than the 91-S! Brilliant, with a soft iridescent silver-white-pearlescent golden hue that is enlivened by a whirling cartwheel luster. Well struck and very pleasing overall.

PCGS 22, NGC 9. The last one sold for \$870 in the 2020 FUN auction. The current Collectors Universe value is listed at \$1,400 and this coin brought \$1,725 back in April 2009. VERY RARE finer, with just 9 graded higher at PCGS.

50C 1840-(O). REVERSE OF 1838. PCGS MS62 CAC

Ex Dick Osburn Collection, as noted on the insert.

A CHOICE example of this popular variety that boasts a great pedigree!

An impressive, frosty Mint State specimen. A bold luster glows throughout the fields enlivening the delicate golden tones that is dusted over the satiny pearly silver sheen. Accents of richer pewter silver-gray are seen at areas. The devices are sharply rendered with sharp definition throughout. The reverse shattered with numerous cracks that radiate to the center (a feature that is seen on all known examples of this variety).

WB-101. This reverse die was shipped to the New Orleans mint in 1838, when the Christian Gobrecht rendering of the Capped Bust design had the "O" mintmark on the obverse. It was discovered by Wiley and Bugert that this reverse was paired with an 1840 die that was paired with a reverse with the "O" mintmark, thus it was confirmed that this half dollar, despite the lack of a mintmark, was struck in New Orleans.

This piece is Ex Doug Noblet Collection, Bowers and Merena, January 1999, lot 67 and Dick Osburn Collection, Stack's Bowers, August 2011, lot 7004.

PCGS 4, NGC 12, CAC 2. While the most recent example sold in April 2020 for \$5,520, this piece sold in the Dick Osburn Collection sale for \$8,050. The current Collectors Universe value is listed at \$7,000 and the CAC CPG value is \$7,500. PCGS has graded just a half dozen finer, including the MS64 piece that we sold in Part I of the Boylston Collection in our April 2021 Regency Auction. BOLDLY STRUCK, which is unusual for this issue. The hair strand on Liberty and feather definition on the eagle is full and crisp with nice delineation of all of the design elements. Far above average luster and frost throughout. Though there are a few breaks in luster, there are no significant contact marks of note. A wash of light golden toning adds to the originality as does the little trace of dirt stuck in the drapery folds above the base of the rock.

PCGS 28, NGC 6. The last piece to trade at auction sold in January 2019 for \$900. PCGS Price Guide value is \$900. We expect this coin to hammer for a strong price! Bid accordingly.

WHAT A BEAUTY! Rolling frosty, cartwheel luster accents satiny smooth surfaces which are enhanced by a halo of electric blue and fiery orange toning. A faint scratch is noted in the right obverse field noted under magnification. Well struck, for this notoriously weak issue.

Although the obverse follows the Mint tradition of uniformity of design for the silver coins with the Gobrecht Seated Liberty design (after Thomas Sully), the reverse is similar to previous types from 1836-1837, until it was changed to a Large Letter reverse design in 1842.

PCGS 23, NGC 3. The last piece to trade at auction sold in November 2019 for \$1,560. PCGS Price Guide value is \$1,750. This piece is sure to garner spirited bidding.

TIED FOR FINEST GRADED! A dusting of golden and dove gray toning accent, semi-reflective surfaces. Booming mint bloom and luster. Other than a trace of weakness in strike on the eagle's left (facing) claw, the coin displays keenly defined motifs. Under a loupe there are a few contact marks noted, the most visible a bag mark on Liberty's hip. A couple of little marks are seen near the final 1 of the date and a few lines are noted in the right obverse field.

WB-102. Repunched Date with the 18 repunched at the bottom.

PCGS 1, NGC 6. It is highly likely that the real population for GEM examples is less than 7, as one would assume that any MS65 graded coins have been tried for a + or higher grade, thus falsely inflating the actual number of coins that exist in MS65. Not only are gem examples rare, mint state specimens are extremely tough to find with just 52 coins grading MS60 to MS65! The last NGC piece to trade at auction was in June 2020 where it brought \$5,040. This exact coin was last sold at auction in October 2015, for \$5,523. PCGS Price Guide value is \$12,500.  CONDITION CENSUS level grade! Tied for third highest graded at PCGS There are just two coins graded finer, a single MS64+ and a 65 at PCGS.

This is a totally original borderline GEM with a classic, old time cabinet visual effect. Rich slate and golden tones have tinges of subtle iridescent hues mixed in, all coming out thanks to a vivid satiny luster below the layer of toning. The devices are well struck and have great crispness of

definition. The surfaces are devoid of all but the most minute, superficial scattered traces of contact.

PCGS 5, NGC 3, CAC 3. There is just a single MS64+ and a MS65 graded finer. This coin is very appealing and has a great look. The current Collectors Universe value is \$11,500 and we think a coin like this should easily bring that level when the hammer falls. The MS64+ was recently sold in our April 2021 offering of the Boylston Collection, and the MS65, ex Gene Gardner, is now impounded in an important collection. Good luck.

Flashy, brilliant, semi-reflective luster clings to the lightly worn surfaces that show just a faint trace of friction (which really is all that keeps this sharply struck example from a Mint State grade). Kissed by the most subtle golden hue, this very high end AU58 has a great look, and we are not sure why CAC did not bean it.

PCGS 24, NGC 10. Quite rare any finer, surprising in light of the fairly generous mintage of more than 2.25 million. The most recent example to sell brought \$840 in January 2019 and the Collectors Universe value is \$1,100. Mint State pieces are few and far between, PCGS has graded fewer than three dozen in all Mint State grades combined.

EXQUISITE STRIKE for this notoriously weak issue. All of the design details are struck to full advantage and are enhanced by generous amounts of mint frost. The surfaces are semi prooflike and mostly white with just a hint of amber and gold toning. A few light, stray tick marks are noted under magnification, which are commensurate with the grade. In fact, this coin looks like it has claims to a higher grade (no guarantees).

A small incuse centering dot (void) is seen on Liberty's thigh as left by the master hub when struck. Additionally, some random die lines are seen in the vertical lines of the shield.

50C 1845-O PCGS MS66 CAC

This is the SINGLE FINEST 1845-O half dollar that survives, it came out of the woodwork in the Dr. Rev. McClure Collection in 2016.

Thick, rich, pearlescent toning gleams thanks the underlying semi-reflective lustrous surfaces. Richer slate, tan, and russet patina is seen, giving this Premium Quality GEM a spectacular, totally original look. The devices are sharply struck up, with full complete definition. Even a strong glass fails to reveal anything more than a trivial tick or two.

This GEM is the WB-108, FS-303, which shows the fully re-cut date with all digits in the date re-punched.

PCGS 1, NGC 0, CAC 1. This coin last sold in April 2017 for just shy of \$20,000 and the current Collectors Universe value is listed at \$25,500. There are NONE FINER. What a great looking coin for the advanced type or specialist collector. Worthy of a SUPERB collection and of an all time record bid. Good luck.

LOT 48

50C 1849 PCGS MS62 CAC

A glossy-lustrous example, nearly of CHOICE quality, and PQ for the assigned grade as noted by CAC's green bean of approval. Flashy, nearly untoned lustrous surfaces have just the lightest tinge of pale gold. The eye appeal is nice for the grade.

PCGS 13, NGC 5, CAC 3. The only CAC-approved example to sell was the Gold stickered coin in the Gene Gardner Collection. The CAC CPG value is \$1,380 and the Collectors Universe value is listed at \$1,500. Worthy of a wonderful Mint State date run.

PCGS# 6262 | EST: \$1,250+

LOT 49

50C 1849-O PCGS AU55

GREAT STRIKE for a New Orleans Mint issue. Deep satiny luster graces blast white surfaces with just a couple of splashes of gold and dove gray toning noted. The devices are well defined with just the faintest hint of weakness at the top of Liberty's head and across her chest, which is from slight circulation, not strike. No contact marks, only some light breaks in luster are noted. Tough date.

PCGS 12, NGC 10. In April 2018 an example traded at auction for \$840. PCGS Price Guide is \$850. We expect this coin to see enthusiastic bidding.

PCGS# 6263 | EST: \$750+

50C 1851 NGC MS62

A nearly Choice BU example. Satiny brilliant surfaces with just a touch of wispy tone at the rims. Well struck and pleasing overall, this date is RARE in Mint State.

PCGS 9, NGC 3. This coin realized \$3,840 in in September 2019. The current Collectors Universe value is listed at \$4,500 and NGC has graded fewer than twenty higher.

PCGS# 6266 | EST: \$3,200+

LOT 51

50C 1853 ARROWS AND RAYS. PCGS AU58

BEAUTIFUL satiny luster rolls in waves over well preserved surfaces and keenly struck motifs. A myriad of obverse die cracks are seen on both sides and add to the character and charm of the piece. A popular one year only type coin and always in high demand. No bag marks are seen, even with a strong loupe. Just a couple of breaks in luster keep this coin from mint state status.

PCGS 108, NGC 178. An example traded in October 2020 for \$1,200. PCGS Price Guide value is \$1,450. This coin would make a perfect addition to an Everyman Registry Set. A generous bid is anticipated to win this beauty!

LOT 52

50C 1853-O ARROWS AND RAYS. NGC MS61

Ex Richmond Collection, as noted on the insert.

SCARCE in all grades, the New Orleans Arrows and Rays half dollar is a rarity in Mint State. This pedigreed example is well struck and delicately dusted with iridescent pastel gold and soft rose that blends with the pearly hue.

PCGS 2, NGC 4. This is the ONLY NGC-graded example, selling for \$2,530 back in the March 2005 sale of the Richmond Collection, Part 3. Since then there have been three records for PCGS MS61 pieces, selling between \$2,820 and \$3,450. The current Collectors Universe value is \$3,750. A neat one-year only type.

PCGS# 6276 | EST: \$2,400+

LOT 54

50C 1854-O ARROWS. PCGS MS64

OUTSTANDING STRIKE for the issue. Each of the design elements of the motifs are struck to full advantage. In fact, there is some interesting shelf doubling on the date, rock base and stars as well as the left arrow head. Creamy mint bloom and luster graces satiny smooth surfaces. If not for the power of strong magnification, the tiny scratch on Miss Liberty's left arm would be totally concealed. The obverse is mostly white with just a tinge of gold, while the reverse is awash in light golden amber toning.

The Arrows at date are used to symbolize the change in the weight of the planchet from 206.25 to 192 grs. This change was made to discourage the practice of melting the coins for profit.

PCGS 76, NGC 63. The last piece to trade was in January 2019 where it sold for \$1,560. PCGS Price Guide value is \$2,250. This coin should sell for a strong price on eye appeal alone!

PCGS 27, NGC 33. The most recent example sold for \$1,351 in our April 2021 Regency Auction's offering of the Boylston Collection, Part 1. The current PCGS Price Guide value is \$1,450. Despite a generous mintage, these are conditionally difficult to find finer.

LOT 55

50C 1855/1854. ARROWS. FS-301. NGC MS64

A high grade example of this popular overdate variety. The re-punching on the 8 and 5 are bold, and with a glass you can make out the crossbar of the underlying 4 in the loop of the last 5.

Frosty surfaces have a soft, glossy brilliance. The devices are sharp overall with just some minor weakness at the arrow feathers and Liberty's thigh. Some minor, scattered contact marks are noted with the aid of a strong glass. The coin shows signs of a gentle dipping, but the eye appeal remains decent. A very challenging issue in any Mint State grade, and is especially RARE so fine.

PCGS 2, NGC 2. Its been nearly a decade since the last NGC-graded example sold, realizing \$4,888 in the 2012 FUN auction. The current Collectors Universe value is listed at \$6,250. Just four are graded MS65 finer at NGC. An important variety, missing from many sets. If you are looking for a high grade piece for your collection, don't let this opportunity pass you by!

TIED FOR SECOND FINEST GRADED! TADA! Look at me this coin screams! Blinding cartwheel luster and brilliance highlight semi-reflective surfaces, although in our opinion it was dipped at one time.

The coin is fully defined, other than a touch of weakness on the corresponding spots on the coin at the top of Miss Liberty's head and the eagle's left leg and claw feathers. A stray tick or two are all that keep this piece from a + designation, in our opinion (you decide).

WB-102. A nice early die state of the variety with a clearly visible doubled upright on the 5 and cross bar of the 4 noted beneath the final 5. An extreme rarity in GEM condition.

PCGS 2, NGC 4. Just one piece grades higher, a PCGS MS66. PCGS Price Guide value is \$14,500. We sold an example in April 2021 at our Regency 44 sale for \$8,519. This coin would make a stellar addition to any Gem Seated half dollar collection! Good luck!

So **FRESH** and **CHOICE!** Just one contact mark is noted with strong magnification on the front of Liberty's head.

PCGS 21, NGC 20. The last NGC to trade at auction was 6 long years ago in December 2015 where it brought \$5875. PCGS Price Guide is \$7,500.

50C 1856-S PCGS MS63

Most of the 211,000 half dollars produced at the San Francisco mint in 1856 must have disappeared into circulation or were exported and melted in the Far East trade. Regardless, Mint State survivors of this date are VERY RARE. This is the ONLY MS63 graded by PCGS and just two are graded finer, including the Eliasberg-Boylston Collection Part 1 coin we just sold.

The present CHOICE example possesses a satiny luster. Twirling the coin in a light, a radial cartwheel luster blooms all over. Sharply struck up, the devices have a frosty texture. The surfaces are choice, not at all choppy or hacked up and the eye appeal is nice.

PCGS 1, NGC 2. The most recent coin to sell was the Gene Gardner coin, (not this coin) and realized \$12,925 in May 2015, nor does it appear to be the NGC-graded Richmond-Dick Osburn coin that sold for \$10,925 in the 2011 ANA auction. The current Collectors Universe value is listed at \$14,000 and we think this one will see very strong bidding from the specialist collector. Good luck.

50C 1875-CC NGC AU58

Popular CC slider! Barely any perceptible wear can be found anywhere on the frosty surfaces. Generally well struck and decent in terms of eye appeal.

PCGS 25, NGC 17. No non-CAC NGC coin has sold since July 2011. More recently PCGS-graded coins have sold in the \$1,440-\$1,740 range and the current Collectors Universe value is listed at \$1,750.

50C 1875-CC NGC MS61

A BU Carson City half dollar. Satiny lustrous surfaces have a thick frost in the fields and on the devices. Likely dipped ages ago, the surfaces are generally untoned, and the surfaces show minor contact marks accounting for the NGC assigned grade.

PCGS 4, NGC 9. The last one sold in January 2019 for \$1,800 and before that, you would have to go back to September 2013. The current Collectors Universe value is listed at \$2,500. A popular collector date and grade.

VERY CHOICE and untoned, this is a lovely example of this S-mint Seated dollar. Frosty, satiny brilliance compliments the sharply struck devices. The eye appeal is decent for sure.

PCGS 74, NGC 54. The most recent example sold for \$1,680 in September 2019. The current PCGS Price Guide value is \$1,300. A neat collector coin that will see a good amount of bidding action.

GEMMY, GEM, GEM! Flashy cartwheel luster sports pretty honey gold overtones and graces fields that look like sheets of satin. A couple of light marks in the right obverse field and an old light dip are noted for the sake of accuracy.

PCGS 56, NGC 27. An example sold in June 2019 for \$1,860, but it had ugly, mottled toning.. PCGS Price Guide value is \$2,950. We anticipate that this coin will fetch a much stronger price with it's claims to a higher grade (no promises) and it's terrific eye appeal!

LOT 91

50C 1876-CC PCGS MS62

There is something special about the 1876-CC coinage. Clearly, care was taken in polishing the dies before striking, as many examples are known with surfaces that retain traces of reflection, or are full on Prooflikes. Brilliant and flashy, this one retains ample reflection in the fields, despite evidence of a careful old dipping. Well struck overall, both sides display crisply defined design elements. The eye appeal is very nice for the assigned grade.

PCGS 24, NGC 15. Two sold in 2020 realizing \$2,520 and \$2,640. Those were the first to sell since 2013. The current Collectors Universe value is listed at \$2,250. Popular as a centennial year issue, as well as being from Carson City, this coin has a lot to attract serious bidding attention.

50C 1877-CC PCGS MS63

Very pleasing and original overall. A rich, satiny mint frost blooms brilliantly over this CHOICE CC mint Seated half dollar. Frosty luster and sharply struck devices combine with a blush of the clearest gold at the peripheries for a really fresh eye appeal.

PCGS 58, NGC 39. The last non-CAC PCGS-graded coin sold for \$2,400 in April 2019 and the current PCGS Price Guide value is listed at \$2,750. VERY SCARCE any finer this is a very popular CC mint half.

50C 1877-CC PCGS MS64 CAC

A totally original, near-GEM Carson City Seated half dollar. A frosty satin sheen radiates on pale silver-gray surfaces. A blush of golden russet toning can be seen, a deeper patch near stars 2 and 3, which readily identify this piece. For the grade, the surfaces are generally clean and attractive.

PCGS 55, NGC 41, CAC 11. The last PCGS CAC example sold back in July 2014--that was nearly seven years ago, don't let the Pops fool you, these are not commonly seen. Collectors Universe lists a value of \$4,000 and jumps to \$6,000 in 65. Good luck.

PCGS 88, NGC 64. The current Collectors Universe value is listed at \$1,300 and there has not been any MS64s sold in auction since 2018. The value more than doubles to \$2,950 in MS65. A lovely coin bound for a nice set.

LOW MINTAGE and desirable as such. Dazzling brilliance in the fields contrasts beautifully with needle sharp motifs. Generous amounts of mint frost accent the devices. Splashes of obverse amber toning and soft wisps of lilac reverse toning do nothing to diminish the flash. A date that is always in demand with collectors.

PCGS 42, NGC 32. A piece just sold in January of this year for \$5,405. Just 4,800 pieces were struck for circulation. PCGS Price Guide is \$5,000. Worthy of a premium bid.

Fully CHOICE and fully Prooflike! WOW! Take a look at the highly reflective mirrored fields, at first glance you might confuse the highly reflective watery fields for a Proof. The 1880 has a low mintage of 8,400 pieces, and this must have been a very early striking fresh from polished dies. Sharply struck devices have a thick frosted finish. The eye appeal is excellent, we are not sure why CAC did not bean this really attractive PL example.

PCGS 28, NGC 14. The most recent sold for \$2,050 in March 2021, well in excess of the current PCGS Price Guide value of \$1,500. Housed in an older blue tag holder, this CHOICE coin is fresh to the market and will see strong bidding.

PCGS 29, NGC 14. The most recent sold for \$2,050 in March 2021 and the current Collectors Universe value is listed at \$1,500. Very scarce any finer, this is a great coin for the collector.

This lustrous example has surfaces that range from satiny with a creamy white frost to flashy and semi-reflective. The devices are wonderfully frosted and sharply struck up. Brilliant, and essentially untoned, the eye appeal is quite nice. We are not sure why CAC didn't bean this LOVELY GEM!

RARE prooflike designation! Breathtaking brilliance. Exquisite, crisp striking detail. A few random tick marks in the obverse fields, and a bag mark in the field under the eagle's beak and one on the shield, are seen with strong magnification.

PCGS 1, NGC 3. Exceedingly rare with the Prooflike designation. In fact, only 16 total Mint State examples have been graded by PCGS and NGC combined. The finest grade is an NGC MS-66. However, there are ONLY two PCGS graded pieces. This coin example and an MS-64+! PCGS Price Guide value is \$2,250. There are no auction records for an MS-63 PL at either service. This example is fully choice, totally brilliant and untuned with wonderful mirrored fields. Frosty devices are well struck up. The surfaces are nicely preserved with limited traces of contact and the eye appeal is nice. CAC is very tough, NONE have stickered in MS63.

PCGS 24, NGC 6. The last one appeared in the 2018 FUN auction, realizing \$1,800 and the current Collectors Universe value is listed at \$1,750. This one is fresh to the market and housed in an older generation blue tag holder.

A fully Prooflike, borderline GEM quality specimen of this low mintage date. Only 4,400 circulation strike half dollars were struck, as the mint's output focused on churning out millions of Morgan dollars. On first glance, this coin would look like a Proof. The devices are crisp and frosty standing out with a near Cameo-like contrast. There is a blush of pale silver-white iridescent toning in the fields. The reflective fields exaggerate the microscopic lines in the fields, but these do not detract from the nice eye appeal.

PCGS 23, NGC 13, CAC 7. The most recent example sold back in the 2015 FUN auction. The current CAC CPG value is \$2,640 and the Collectors Universe value is listed at \$2,500. RARE finer, this is a fine specimen for the collector.

SOLE FINEST GRADED for the designation! This coin calls to mind the saying coined by Elliot Goldman (a coin dealer colleague who has since passed) who would often be heard saying, "This coin has headlights, baby!" When referring to an ASTONISHINGLY beautiful, blast white coin, like this presently offered piece. The strike precision and thick blanket of mint frost typically seen on a Proof coin. With a strong glass, a tiny break in luster is seen to the left of the base of the rock as well as a couple tiny areas in the right obverse field.

PCGS 0, NGC 1. A scant mintage of 8,000 coins were struck for circulation. One of only 3 coins to receive a Prooflike designation and this coin is the finest! The other two are graded NGC MS61 and NGC MS64. There are no auction appearances for any of these 3 coins, so therefore no auction price records, either. Sure to cause quite the stir when it comes up for sale. Don't miss out on this amazing opportunity to add a rare piece to your collection! Congratulations in advance to the new owner!

This totally untuned example is brilliant silver with a touch of reflectivity in the fields. The devices are sharply struck and fully frosted. There are some minor hairlines noted, but none detract from the decent eye appeal.

PCGS 18, NGC 18. The most recent example to sell in auction brought \$3,120 in September 2020. The current Collectors Universe value is listed at \$3,750. Rare finer, so bid accordingly.

Just the teeniest bit of strike weakness is noted at the very top of Liberty's head. Strong magnification reveals a couple of very small ticks in the fields.

PCGS 0, NGC 2. Just two pieces grade finer and both are NGC MS67PL. A mere 5,000 business strikes were coined this year. Although there are no auction records or retail prices available on the PCGS Price Guide, we note that a comparable PCGS MS66PL is currently being offered for sale for over \$13,000! 50C 1840 SMALL LETTERS. NGC PF65

Ex Pittman Collection, as noted on the holder.

A very important and famous rarity, the **FINEST KNOWN** of a mintage of only six pieces.

Watery, mirrored reflection beams from nearly **PRISTINE** fields. Twirl the coin in a light, and let the mirrors really flash through the rich azure, pearly-pewter, and tangerine-rose toning--it really sparkles like a mountain lake at sunset. The devices are sharply struck up and have full definition throughout. You can look for hours to try and find a single flaw worthy of mention and you will come up short. The eye appeal is excellent.

Ex. James Kelly, via private sale in 1946 to John J. Pittman; John J. PCGS 1, NGC 2. This coin sold for \$49,350 in a weaker market--prior to that it sold for \$109,250 in 2007. Only one other example is thought to have real claims to a GEM grade, the Lichtenfels-Norweb piece, which may be the PCGS PR65 listed. This is an important opportunity for any advanced collector who understands just how rare these early Seated Proofs are. We anticipate very strong bidding when this one crosses the block. Good luck!

PCGS# 6384 | EST: \$65,000+

LOT 113

50C 1841 NGC PF65+

SOLE FINEST GRADED! An exceedingly rare Proof half dollar of which it is estimated that just 8 coins are known! The exact mintage remains a mystery, as the Mint did not keep records of Proof production of the Seated halves in the 1840s. In fact, the delivery of these rarities was extremely limited as they were produced for inclusion in specialty presentation Proof sets.

Radiant fields are deeply reflective and richly toned in steel gray hues with accents of gold and eggplant on the obverse and a lighter reverse with an array of dusty rose, eggplant and gunmetal blue. There are a few very faint hairlines seen when tilted in the light and are commensurate with the grade and only noticeable with strong magnification. This piece looks like it was coined yesterday, not almost 200 years ago, as the design elements are as crisp and fully rendered as you could possibly hope for!

Any pre-1858 Seated half dollars are classic rarities in their own right, but the 1841 is remarkably so and is seldom offered for sale either at public auction or privately unless it is a part of an important collection.

Provenance: From the illustrious, Eugene H. Gardner Collection, Part III, May 2015, lot 98500.

PCGS 0, NGC 3. This is the only piece which has received the + designation. There is no PCGS Price Guide for this coin. This exact coin sold for \$30,550 in March 2016 (a much weaker market). With an estimated mintage of just 10 coins, and two of those permanently impounded in the Smithsonian Institution and the American Numismatic Society, a mere 8 coins remain for private collections. This is the FINEST SPECIMEN graded at both PCGS and NGC, and represents a possible once in a lifetime opportunity for the astute collector. Worthy of a world class collection! Good luck!

LOT 114

50C 1844 PCGS PR62

Like all Proof coinage from the 1840s, this piece is **EXTREMELY RARE** and very under appreciated in the marketplace. The mintage listed by PCGS CoinFacts is 8, with perhaps as many as a half dozen thought to survive. This is the **ONLY** one graded by PCGS in the non-Cameo designation, and there is only one finer, a PCGS PR65 CAM. The present coin is **RARER** than an 1804 dollar, 1894-S dime, 1884 Trade dollar, 1876-CC 20 cent piece, and countless other classic rarities in the U.S. series that bring six and seven figures. The issue is so rare, that the Eliasberg and Norweb collections lacked an example, as did famed collections like David Queller, Garrett Family, James Pryor, Reed Hawn, and Floyd Starr.

The present Brilliant Proof is the former George "Buddy" Byers coin last sold in October 2006. Its watery mirrored fields have a somewhat subdued reflection, marred by numerous minor hairlines from an ancient wiping. The surfaces are toned in a pearly-golden gray patina that is generally quite pleasing to the eye. There are a couple of minor marks seen but these do not detract from the nearly **CHOICE** quality surfaces. The overall eye appeal is very nice for the modest assigned grade and this coin offers a wonderful provenance.

Ex. Stack's Winter Collection Sale, January/February 1974, lot 1437; George "Buddy" Byers Collection, Stack's October 2006, lot 1130 (sold raw as Brilliant Proof); unknown intermediaries; Boylston Collection--the present coin. Some catalogers have suggested that this coin is also the unplated Brand-Lichendfels coin in the February 1961 Kreisberg-Shulman sale.

PCGS 1, NGC 1. The only PR62 to sell in auction, was the Gene Gardner duplicate, graded by NGC and sold for \$17,625 back in October 2015. The current PCGS Price Guide value is listed at \$18,500. The only other certified example is the PCGS PR65 CAM CAC, which has an extensive pedigree including Pittman, Kaufman, Greensboro, and Gene Gardner Collections, which most recently sold in excess of \$75,000! 50C 1846 MEDIUM DATE. PCGS PR63

This is an important early Proof Seated Liberty half dollar. Only 15 examples are thought to be produced in Proof Sets prepared for collectors. Today, about 12 are estimated by PCGS CoinFacts to survive in all grades with this PR63 being about average quality for those known.

Richly toned surfaces are enlivened by a bold watery reflection on both sides. The devices are razor sharp, exquisitely rendered from a forceful blow from the dies. Rich blue and bronze patina cover the surfaces. The surfaces are generally without serious flaw, the eye appeal is quite nice, and the surfaces are CHOICE.

PCGS 3, NGC 2. Only 15 are estimated struck. The most recent example to sell in auction was CAC approved, selling for \$23,500 in the 2014 FUN auction. Needless to say, this issue is VERY RARE finer, and do not appear in auction with much frequency. A real prize for the advanced collector; this coin is rarer than many rarities that sell for six and seven figures. Good luck.

A MAJOR rarity! Truly a very special coin, that is totally underrated in today's market. The mintage is said to be just five. Think about all the six and seven figure rarities that have higher mintages and survival rates. Then consider for a moment just how undervalued these are in the marketplace. This piece is tied for second highest graded across both services.

This coin displays flashy mirrored fields with pleasing watery texture on both sides. The grade is limited by some minor lines and ticks, evidence of long ago mishandling and perhaps an old wipe, but they have retoned with a dappled, multicolored patina. Obviously the devices are razor sharp from a precise blow of the dies.

PCGS 1, NGC 2. Only 5 Proofs were struck for collectors. This coin last sold in auction back in July 2009 for \$20,125--that seems like forever ago. The Collectors Universe value is listed at \$30,000. Just a single NGC PR66 is graded finer, the Pittman-Kaufman piece. A major rarity that is missing from many of even the most advanced collections. 50C 1862 NGC PF64 CAMEO

Blazing, highly reflective mirrored fields are flashy and extremely brilliant. Lightly dipped ages ago, the surfaces are untuned and lacking of color save for two toning spots at the upper obverse rim. Frosty, razor sharp devices stand out in stark contrast to the fields. There are some minor lines and a hairline scratch or two which account for the assigned grade. A popular Civil War date.

PCGS 14, NGC 9. Only 550 Proofs were struck. The last NGC-graded PR64 CAM sold for \$3,105 a decade ago! The current Collectors Universe value is \$3,500. Good luck.

EYE APPEAL EXTRAORDINAIRE!

What a honey of a coin! Resplendent surfaces are remarkably devoid of lines, lint marks or distractions of any kind! The needle sharp design elements are accentuated by swaths of thick mint bloom and frost. The periphery is toned in the most lovely blend of vibrant, electric blue, fiery orange and gold hues. WOW, what a beauty!

PCGS 2, NGC 4. Just 3 coins grade finer, all are PR-67. PCGS Price

Guide is \$20,000 and we could see this coin fetching close to that on eye appeal alone. This exact coin last sold at auction in August 2016 where it traded for \$10,024. A scant 550 Proofs were struck. Factor in the scarcity in this lofty state of preservation and we should have a bidding war on our hands!

50C 1864 PCGS PR64 CAM

SLEEPER ISSUE and popular as the final date of the Civil War era. Bordering in a Deep Cameo with stark contrast between radiant, mirrored fields and precision struck, richly frosted design elements. A light right obverse field break in the radiance and a few swirly reverse hairlines above the eagles head keep this coin from a higher grade. A whisper of electric amber and tangerine border toning add to the overall aesthetics.

PCGS 22, NGC 16. 13 coins grade finer, most of which are PR65 and a sole PR-67. PCGS Price Guide is \$3,500. A hard date to obtain in Gem status, especially with the tiny mintage of just 470 coins in Proof. It's been 10 long years since a non-CAC example sold in a major auction where it brought \$3,220. We expect some spirited bidding when this tough date crosses the block.

TOP POP! Pristine surfaces are a lovely accent to exceptionally well struck motifs which are slathered in thick, frosty luster. The radiance of the mirrors is ever so slightly diminished due to some light golden toning throughout. This coin looks like it could be in a PR-67 holder, but we make no promises. All we can say is the coin is clean as a whistle and super high end for the grade.

PCGS 11, NGC 7. Just 1 with a + designation, this coin. The finest

is a PR-67 of which three have been graded--one PCGS and 2 NGC. A mere 500 Proofs were coined. PCGS Price Guide is \$22,500. An example sold in January 2020 for \$10,500, but the coin was not attractive and had mottled toning. With so many examples of this date being mishandled and cleaned throughout the years, exceptional coins like this piece fetch a strong price when offered for sale. If not for one bagmark in the right obverse field this coin would be a gem (no guarantees, but you decide).

PCGS 12, NGC 9. A coin sold in February 2018 for \$1,680, but more recent sales of NGC examples have far exceeded the PCGS Price Guide with trades of \$4,080 and \$3,840 respectively both in 2019. Just 725 Proofs were coined. PCGS Price Guide \$2,550. We anticipate this coin will sell much closer to the \$3,000+ range than \$1,680, as it is just too high end and pretty to do otherwise. Tied for FINEST graded at NGC in the Cameo designation.

A blazingly reflective mirrored finish to the fields beams boldly from all over. The mirrors are deep, but there is a pale silver-white patina that is gently dusted on the surfaces. The surfaces have a creamy frosted texture that stands out in stark contrast to the surrounding reflective fields. A couple of lines are found scattered about in the fields, but you need a strong glass to locate them. The eye appeal is nice overall and you will be hard pressed to find a finer example.

PCGS 7, NGC 5. The last NGC coin sold over eight years ago for \$5,500; clearly they don't appear in auction with frequency. The current Collectors Universe value is listed at \$11,500. OOH LA LA! No wonder this coin received the coveted CAC designation! The fields are so deeply mirrored and dazzling white, there is a fabulous black and white cameo contrast that is screaming DEEP CAMEO and potential upgrade! (in our opinion). Virtually flawless surfaces save for one tiny pin point mark in the field at star 12. Precision struck motifs are enhanced by rich mint frost.

PCGS 48, NGC 22, CAC 8. Low mintage with just 1,039 Proofs struck. The last CAC example was sold by us in December 2018 where it fetched \$1,540. That piece was toned and nowhere near the quality and eye appeal of this example. Expect to pay up if you want to take this beauty home!

THE FINEST KNOWN example of this Rarity-7- "transitional pattern." Always popular these were struck for collectors, featuring the regular issue Proof obverse and a reverse with the motto GOD OUR TRUST in a ribbon above the eagle. Struck on a bronzed copper planchet with a reeded edge.

The uspatterns.com website states that the bronzed copper examples are restrikes.

The surfaces are AMAZING quality, ultra clean and free of any kind of marks, lines, discolorations, or anything that would have an impact on the eye appeal, mint made or otherwise. The fields are incredible and the devices are very sharply struck up. The entire coin is evenly toned in a reddish brown, common for any mint product that was bronzed. The eye appeal is great.

Ex Lemus Collection, as noted on the insert.

One of the “transitional” patterns struck dated 1861 to 1865 featuring a regular Proof obverse die, paired with a reverse that bears the motto GOD OUR TRUST in the field above the eagle. This is likely the **FINEST KNOWN** of this Rarity-7- issue, struck in copper with a reeded edge.

A glorious **SUPERB GEM!** Ultra smooth mirrors in the fields are a brick red with violet, teal and blue overtones. The flash is nearly blinding and the contrast between the razor sharp devices and the liquid mercury like fields is bold. The definition looks like a medal, not a coin. **WOW!** The surfaces are essentially without flaw and even with a powerful glass, we cannot find any thing to point out as having an impact on the **OUTSTANDING** eye appeal.

A very popular “transitional” pattern, featuring the regular issue 1864 Proof obverse, paired with a Motto reverse, as adopted in 1866. Struck in silver with a reeded edge, this is considered Rarity-7-, with just a half dozen graded between PCGS and NGC total.

Housed in a first generation PCGS “rattler” holder, this coin has not appeared in auction since July 2010, and is tied for FINEST seen at PCGS. Richly toned with tangerine-peach, deep golden-amber, and light blue that come out in a light. The underlying mirrors are flashy and boldly reflective. Care was clearly taken in the striking of this piece, with razor sharp definition to the details. The surfaces are GEM quality defined!

These were likely struck as restrikes for collectors produced in the late 1860s and early 1870s for collectors. Tracing the provenance of this rarity is proving difficult, as the black and white half tone photos from Kagin’s and Stack’s catalogs of the 1960s and 1970s are hard to compare the toning pattern. Andrew Pollock enumerated perhaps a total of a half dozen pieces.

PCGS 2, NGC 0, CAC 1. This exceptional GEM sold back in July 2010 for a record \$20,700 and the current Collectors Universe value is listed at \$22,500. This is a stunning, SUPERB GEM example of this incredibly RARE Longacre Indian Princess half dollar pattern! Tied for FINEST GRADED, this is a Rarity-8 struck in Aluminum with a reeded edge. The obverse depicts James B. Longacre's beloved Seated Indian Princess holding a pole with Liberty Cap, supporting the globe, with flags behind, surrounded by 13 stars. The reverse is the regular issue Proof die.

Break out your sunglasses! These deep, beaming mirrors are the epitome of brilliance and reflectivity. There is no haze or any environmental issues that often plague aluminum patterns. Every detail is razor sharp in strike with full, thick, creamy frosting to the devices. The fields are icy smooth devoid of lines or any serious flaws. There is a tiny spot between the 8 and 7 in the date, identifying this SUPERB GEM as the Col. Green- Eric Newman coin.

Ryder 10-L, W-6280, With Period variety, which is considered to be Rarity-2+.

This is an AMAZING GEM example of this Colonial issue, one of the FINEST KNOWN of the entire 1788 series. Because the Ryder 10-L is one of the more available varieties, it is ideal for type purposes.

This magnificent example has a great provenance which includes lot 1016 of Stack's September 1988 sale of the Herbert Oechsner collection, where it was described in part:

"A magnificent coin...Frosty lustre under a uniform reddish tan from faded mint color. Other than some inconspicuous planchet flakes in the area of the bottom of the bow and the other under the arrow feathers, the coin is really perfect."

To that we will add that the surfaces have a lustrous, glossy sheen that is uninterrupted by contact or other issues.

The devices are well struck, with just the lightest trace of weakness in the centers. Aside from the minor flakes noted above, the planchet is hard and smooth. The eye appeal is exceptional in every way. VERY RARE so fine.

The Massachusetts copper half cents and cents of 1788 are, overall, the best made of the Confederation era coppers. The dies are attributed to engraver Joseph Callender.

Ex Richard Picker, privately in May 1964; Herbert M. Oechsner Collection, Stack's September 1988, lot 1016; Marvin Browder; Ed Milas; Stack's; Jon Hanson, privately August 1998; Donald Groves Partrick; Partrick Collection, Heritage, January 2015, lot 5724.

An impressive, high end GEM example, tied for FINEST in the BN category (and none are graded higher numerically in ANY color designation at PCGS!).

A very strong mint luster radiates brilliantly on both sides, bringing out the strong remnants of original mint red color that make this PQ GEM very close to a RB. Sharply struck devices on both sides show all details well defined from an exacting blow from the dies.

PCGS 3, NGC 6, CAC 1. This coin sold in our December 2019 Regency Auction for \$4,700. The current PCGS Price Guide value is listed at \$6,000 and the CAC CPG value is \$5,620. As tied for FINEST in the color category, and none are numerically finer in any color category, this exceptionally attractive coin will delight any type, two cent, or Civil War collector. Bidding will be strong for sure!

for circulation with the newly adopted motto IN GOD WE TRUST. In its first year of issue, 1864, these were struck with both a Large and Small motto on the banner, the latter is believed to have a mintage of only a few thousand and is therefore highly sought after by collectors.

Incredible RED surfaces are blazingly brilliant with an unbelievable quantity of cartwheel brilliance. Just a tiny tick on the reverse is what keeps this GEM from an even loftier state of preservation. The eye appeal is simply AMAZING for this issue.

PCGS 25, NGC 15, CAC 9. The last PCGS/CAC MS65 RD sold for \$16,800 in October 2020. The current CAC CPG value is listed at \$15,600 and it would not shock us if this remarkable GEM sold for more.

2C 1864 SMALL MOTTO. PCGS MS65 RD CAC

The Small Motto version of the 1864 two cent piece is one of the KEYS to this short lived series and is a MAJOR condition rarity in this grade. This odd denomination was struck to ease the shortage of coinage in circulation brought about by uncertainties of the Civil War. The 2-cent denomination was struck in bronze and was not subject to hoarding so it served a great purpose in day to day commerce. The two cent pieces were the first coins struck

LOT 196

2C 1872 PCGS MS66+ RD

The 1872 is the undisputed KEY to the series, and this one is the SECOND HIGHEST GRADED at PCGS, with just a single MS67 RD graded higher. The 1872 is the final date struck for circulation, and only 65,000 were struck. These are VERY RARE in GEM or finer grades, especially in the RD category.

Not only is this coin ultra high grade for the issue, but it is, from a visual standpoint, very pleasing. Full red surfaces boast a strong luster that radiates boldly across virtually perfect surfaces. The red has slightly mellowed, offering original soft coloration on both sides. The devices are well struck and stand out nicely. The eye appeal is great.

PCGS 1, NGC 0. The Simpson PCGS MS66 RD sold in September 2020 for \$72,000. In MS66+ RD the Collectors Universe value is listed at \$75,000. A coin that will bring your set to that next level. Bid aggressively to take home this GEM!

Ever since we laid eyes on this beast we have been madly in love. It is one of only a handful of TRUE CAMEO PR 2C pieces we have EVER seen (and yes, a few were also 1868)! The overall quality is extraordinary.

Outstanding crisp, crystal clear, ultra clean, and boldly reflective mirrors glow all over. There are a few tiny TONING dots and that's all we could find anywhere. The mirrors look like a freshly made perfect sheet of glass.

Every detail is crisp and has needle sharp strikes. The frosting is clearly above what you typically see. The eye appeal is **PHENOMENAL!**

PCGS 5, NGC 0, CAC 2. ONLY 600 were minted. The last PCGS CAC piece to sell in auction brought \$16,450 in June 2014. This coin will be a real treasure to add to any GEM set. Opportunity knocks loud here!

3CS 1866 PCGS MS65 GOLD CAC

What is not to love about this coin? First its housed in a second generation PCGS holder, the two-piece holder. Conservatively graded, this coin is blessed by a GOLD CAC bean. But even without the Gold CAC bean, a casual glance of this coin would be all that would be needed to see it is undergraded.

A bold frosty luster is seen on both sides enlivened by an underlying semi-Prooflike reflection. Sharply struck from clashed dies, the fields show the clashing and numerous die polish lines. An iridescent silver-white tone graces the surfaces attesting to the originality of this GEM survivor of an original mintage of 22,000.

PCGS 14, NGC 10, CAC GOLD 1. Scarce finer, in MS66 the Collectors Universe value is \$5,500. This wonderful coin is high end and has a lot to offer!

This high end, high grade SUPERB GEM PF67 trime is an old friend of ours, having last sold in our January 2018 Regency Auction, lot 86, where it was described as:

“This truly SUPERB GEM is one of the absolute FINEST graded for this scarce silver 3 cent. Extremely reflective icy mirrors dazzle the eye from below a layer of beautiful blue and rose tones--a classic toning combination seen on proofs of this era. Even under intense scrutiny with a strong glass we are unable to find a single distracting mark or hairline. The strike is also complete, which is not always the case, we do not see the typical weakness at the bow tying up the arrows on the reverse. The totally original and high end eye appeal is quite stunning and will delight the most persnickety of specialists!”

Only 600 Proofs were struck. PCGS 5, NGC 5. This coin sold for \$5,875 in 2018 and none have sold since in an NGC holder. There is a single NGC PF67+ finer, a coin that has yet to sell in auction. The current Collectors Universe value is \$10,000. Good luck.

5C 1898 PCGS MS65 GOLD CAC

This SUPERB GEM 1898 Liberty Head nickel has so much going for it, we don't really know where to begin! Just take a look at it for yourselves!

First it is very conservatively graded, while we make no guarantees, we have seen MS67 Liberty Head nickels that are not as clean as this impressive beauty. If it were to grade MS67, it would be tied for FINEST GRADED at PCGS. Clearly, CAC agrees, that it is under-graded, awarding it a coveted GOLD CAC bean.

Blazing mint luster is ultra brilliant, rolls vividly on both sides of this impressive example. The surfaces are especially high end and clean, virtually FLAWLESS. Every detail is razor sharp in definition. The eye appeal is truly awesome.

The conservative grade and awesome eye appeal is just a part of the story. This coin is housed in a generation 1.0 or 1.1 holder, used for just a couple of weeks in February 1986, at the very beginning of PCGS's infancy. For those who track the evolution of 3rd party certification, these "white label" rattler holders are very RARE in the market today. Even common coins bring multiples of market value. This coin, with its ultra conservative grade will not only see strong bidding for its early generation encapsulation, but for what could be, on resubmission a Set Registry caliber 1898 nickel!

PCGS 111, NGC 86, CAC GOLD 1. Don't let the POPs fool you, this SUPERB GEM could sell for a WORLD RECORD price when the hammer falls! Our consignor paid \$6,000 for it. Good luck!

Holy reflection! WOW this is about as pristine and mirrored brilliant as you can hope to find on a Proof Liberty nickel. This popular date is admittedly difficult to find with a rich CAMEO contrast and this coin has serious claims to a SUPERB grade and DCAM designation (no guarantees).

Intense and beaming reflection is blinding. The mirrors are the epitome and definition of deep, with bold clarity and ultra sleek, clean and icy surfaces. The devices are crisply rendered by an exacting, precision blow from the dies, with a thick, creamy frosted texture on them. The contrast is incredible and you can see it from across the room. Pristine surfaces are a delight to behold. The technical quality and stunning visual allure are virtually PERFECT and this is an AMAZING coin for a SUPERB Registry Set.

A very high end looking LM-1. Very pretty and essentially full CHOICE quality overall.

The devices are sharply struck up, with all details except for the eagle's breast feathers being fully struck. The definition is very strong for the issue. The strike is well centered on the planchet. A deep slate, dove, and russet patina is thickly patinated over satiny lustrous surfaces.

Though the Flowing Hair half dimes were prepped for coinage in 1794, it is evident that these 1794 dated examples were actually manufactured in early 1795. The dies were engraved by Robert Scot and the classic Flowing Hair design is always popular as a relic of the first federally issued silver design types.

PCGS 13, NGC 9, CAC 4. The last PCGS/CAC example sold over a decade ago--this coin. More recently a non-CAC coin sold in May 2019 for \$25,200 and the ex Simpson Collection coin, also not CAC sold for \$26,400 in March 2018. Distinctly Prooflike luster flashes a brilliant reflection in the fields of this CHOICE Carson City quarter. Richly toned in shades of rich champagne and lilac-pewter toning. 50C PCGS MS63 CAC

Ex Eliasberg, as noted on the old green insert.

A lovely, totally original CHOICE Carson City half from the most famous collection ever assembled. Distinctive reflective, Prooflike surfaces come from highly polished obverse and reverse dies. A lovely blend of toning, predominantly in gold and blue hues, come out when the light catches the underlying mirrors. The eye appeal is excellent.

PCGS 30, NGC 17, CAC 2. No CAC approved examples have sold in auction. This piece is Ex. Louis E. Eliasberg, Sr. Collection, Bowers & Merena/ Stack's, April 1997, lot 2039, where it realized \$1,650. The current Collectors Universe value is listed at \$2,500 and the CAC CPG value is listed at \$2,190.

LOT 223

10C 1798 JR-3. SMALL 8. PCGS MS65

Ex Eliasberg and Pogue Collections, as noted on the insert.

A world class example of this VERY IMPORTANT and scarce Rarity-5 dime variety. The pedigree line should tell you how great a coin this is--Eliasberg and Pogue--can it get much better than that?

This is the FINEST KNOWN example of the variety! Gleaming brilliant surfaces give this GEM a stunning look. The luster is very strong, ranging from a thick, frosty satiny texture on the obverse and distinctly reflective on the reverse. Sharply struck up on both sides, the definition is truly exceptional with razor sharp precision from an exacting blow from the screw press. The obverse shows multiple spidery die cracks that come in from the rim at star 3 and star 5. Hints of pale gold melds with deeper blue at the rims and gently caresses the sumptuously lustrous silver in the centers. Some minor ticks are seen scattered about the obverse with the aid of a strong glass. The reverse has a frame of brilliant blue and coppery-gold before yielding to silver in the center. Clearly this coin sat undisturbed in Mr. Eliasberg's collection where it could acquire the peripheral toning. There is a natural planchet streak across the reverse, which we note for full accuracy. The eye appeal is AMAZING!

Ex Louis E. Eliasberg Sr. Collection, Bowers & Merena/Stack's May 1996, lot 1044; Stuart Levine to Ed Price in July 2002; Ed Price Collection, Heritage, July 2008, lot 1419 (as NGC MS66); Stack's Bowers/Sotheby's sale of the D. Brent Pogue Collection, Part 1, May 2015, lot 1039; our present consignor.

PCGS 2, NGC 0. The current PCGS Price Guide value is listed at \$165,000, but keep in mind this coin realized a world record bid of \$253,000 in 2008 as an NGC MS66. The second finest is a PCGS MS64 CAC that is ex Garrett-Lovejoy-Bolen-Price-Gardner. This coin is shoulders above that one. Bid accordingly!

10C 1853 ARROWS. PCGS MS63

A charming CHOICE example of this short lived subtype with Arrows at the date. Deep teal-blue mingles with some subtle violet hues which frame a gorgeous tangerine-peach in the central devices. The design elements are sharp and the reverse die was broken when this coin was struck with a serious die crack at the top of AMER. The eye appeal is exceptional!

PCGS 148, NGC 134. While the current PCGS Price Guide value is listed at \$600, this beauty is going to see very strong bidding and we expect it to leave the PCGS Price in the dust.

10C 1863 PCGS PR64 CAM

A visually alluring near-GEM example of this scarce Civil War Proof dime, one of only 460 produced. The mirrors have a brilliant, watery reflection which contrasts nicely with the frosted, well struck devices. Framed on both sides with a hint of peripheral toning. We note some minor lines and a few ticks, which are only visible with a strong glass. The eye appeal is pleasing.

PCGS 13, NGC 6. Only 460 Proofs were struck. The most recent example was CAC approved selling for \$1,050 in January 2021 and that was the first sold in nearly seven years. The current Collectors Universe value is listed at \$850, clearly that number is too low.

Delightfully toned and wonderfully preserved, this is what a GEM Proof Seated dime should look like. Tied for FINEST in the designation at PCGS! Very flashy mirrored reflection has a glistening look when rotated in a light, bringing out the outstanding variation in the multicolored toning.

PCGS 9, NGC 10, CAC 4. Only 600 Proofs were struck. There are NONE FINER in the designation at PCGS or CAC. This coin is the most recent PCGS/CAC coin to sell in auction realizing \$2,115 back in April 2016. The current Collectors Universe value is \$2,800. We expect this coin will see very strong bidding when the hammer falls. Good luck.

10C 1920-D PCGS MS66 FB CAC

Despite a fairly large mintage of over 19 million pieces, the striking definition is usually poor. This PQ GEM is a great exception, and these are very rare in this state of preservation, extremely rare any finer.

This is a lightly toned example, showing delicate pastel iridescent hues dusted across the satiny lustrous surfaces. Sharply impressed, with bold, crisp details. The fields are satiny smooth and clean, free of distracting marks of any kind. The

reverse is rotated about 30 degrees clockwise. A gorgeous looking coin, worthy of a strong bid.

PCGS 23, NGC 9, CAC 5. There has not been a CAC-approved example sold since the 2015 ANA auction, realizing \$7,931; you have to then go back to March 2012 to find another! Clearly these do not appear in auction with frequency and the published prices do not reflect this. Only 10 are graded finer, and a MS67 FB CAC sold in our March 2019 Regency Auction for a record \$52,875. This impressive coin will see very strong bidding. Good luck.

A totally original and VERY CHOICE example of this overdate Mercury dime. This coin has medium silver toning with deeper gray toning spots mingled with iridescent pastel hues enlivened by a delicate satiny brilliance. Sharply struck in general, save for some minor weakness in the central band. The eye appeal is very nice.

PCGS 26, NGC 13, CAC 8. No CAC approved example in MS64 has ever sold in auction. The current CAC will fit nicely in any Mint State set.

One of the most beautifully toned Mercury dimes we have seen in quite some time! While not the highest graded 43-D dime, this one has a spectacular look. Both sides display a sultry blend of orange, red, pink, and lavender tones that are brought out by a bold satiny luster under the surfaces. We rate the obverse color a 9.5 and the reverse an 8.5 on our 10-point color scale. Sharply struck on both sides this coin's eye appeal is exceptional!

This is one of the most AMAZING Mercury Dime Proofs you will EVER see. It is also SUPER HIGH END!

Amazing deep mirrors border on ultra deep cameo. They are crystal clear, super clean, and have bold reflectivity. They sort of appear silver black (which is a term). The contrast is bold and can be seen from yards away. Miss Liberty and the details are thickly frosted with a bold silvery white and needle sharp in strike. The eye appeal is tremendous!

PCGS 6, NGC 14, CAC 5. PCGS has graded only 4 coins higher. The last PCGS CAC piece to sell at auction brought \$3,055 in December 2019. We assure you; this coin has full contrast and is VERY HIGH END for the grade! You're not going to find many more-ever! We expect intense bidding on this legit rarity. Good luck!

LOT 232
25C 1864 NGC MS62+

A lovely CHOICE Mint State example of this important, lower mintage Civil War year. Only 93,600 were struck and this is a very challenging date to find in Mint State. Clearly the present coin sat for ages in an ancient album, where both sides acquired rings of beautiful technicolor patina. Well struck up, the devices show bold definition on the obverse and reverse. A strong glass reveals some stray marks, but they are mostly hidden below the toning and the eye appeal is truly exceptional in every way.

PCGS 0, NGC 1. This coin sold in 2018 for \$1,725 and the current Collectors Universe value is listed at \$2,000. All the other Mint State pieces sold since 2015 have been MS64 or finer, so for the more budget minded collector, the options have been very few and opportunities far apart. PCGS 11, NGC 10. Only 600 Proofs were struck. We sold one for \$4,840 in January 2018. The current PCGS Price Guide value is \$8,000 and with NONE FINER, this coin will certainly delight anyone working on a Proof Seated quarter set.

No serious marks of any kind are visible to the naked eye, and the quality stands up to intense scrutiny.

PCGS 14, NGC 10. Only 540 Proofs were struck. None have sold in nearly five years, and this one sold five years ago for \$4,230 in April 2016. PCGS has graded only seven finer. This coin will see spirited competition when it crosses the block.

There are areas of untuned silver surfaces that stand out with a glittery reflection. Both sides show exacting definition from a precise blow from the dies, and there is moderate field/device contrast. The surfaces are essentially pristine and devoid of any flaws worthy of mention. The eye appeal is excellent.”

PCGS 3, NGC 4. Only 972 Proofs were minted. NGC has graded just four coins finer in the Cameo designation. This is the most recent one to sell, realizing \$2,291. A half point finer, and the value will jump to about \$5,000. A very pretty example that will delight any collector. Good luck.

Premium Quality all the way! This is a very high end GEM example with stunning eye appeal. A low mintage date with a total of only 545 proofs struck, and this era had very few that were struck with the cameo finish of the previous decade, making any CAMEO a very scarce and desirable coin, more so with such a high end look. Incredibly bold, ultra reflective mirrors beam with extreme clarity, providing a sharp contrast against the lovely frosted white devices. The devices are very well struck and the surfaces nicely preserved with only a subtle tone seen in the protected outlines of the design.

PCGS 2, NGC 1, CAC 2. The current PCGS Price Guide value is \$2,500. This coin has been off the market for three years, last selling for \$2,585 in our May 2018 Regency Auction. Just seven are graded finer at PCGS in the CAM designation. Bid accordingly!

This coin is the real deal as a PR66 Cameo! In fact, we consider it to be of VERY HIGH END quality.

1909 is not a date known to come fully cameo. This coin is FULLY cameo. The mirrors are deep, clear, clean, and have strong reflectivity. There is no toning. Miss Liberty and the details are fully struck and have thick creamy white frosting. The eye appeal is stunning!

PCGS 13, NGC 8, CAC 2. ONLY 650 pieces were ever minted. NO CAC pieces have ever sold in auction. The price guides are all wrong for this piece. You can't find many post 1900 Barber PR Cameos of any date or grade. Clearly, this coin is an under the radar rarity and stopper for the series. At today's levels, this is a great "put away" coin.

One of the most beautiful designs of the entire U.S. series, production of the Standing Liberty quarter series began in December 1916, and only 52,000 were struck. Hermon MacNeill's standing representation of Liberty holding a shield and olive branch, stepping through what looks like a boat's gangway portrays America stepping out on to the world stage and its readiness in times of war and peace.

This nearly-CHOICE Mint State specimen has a fantastic look. A soft, satiny glow radiates warmly from below a delicate dusting of the clearest gold tone. The devices are sharply impressed from an exacting blow from the dies. A few ancient traces of contact can be detected with a strong glass, which has little impact on the visual allure.

PCGS 24, NGC 35. The most recent example to sell in auction brought \$12,338 in our May 2020 Regency Auction, on an estimate of \$10,000 and up. Surpassing the other examples that have sold. 50C 1826 PCGS MS66
 This is a great looking GEM 1826 O-101a, clearly a CONDITION CENSUS level example, one of the FINEST survivors of this die marriage.

An easily identifiable die marriage. The die variety is identified by a short die crack at the bottom of the date on the obverse and a number of markers on the reverse including mostly solid shield lines, a small line on the upper left corner of the ribbon, and the spacing of AT and AM in STATES and AMERICA. A couple of die cracks at the lower reverse define the die state.

Both sides of this impressive Capped Bust half have a rich, brilliant mint luster with bold, swirling cartwheel luster. Lovely original toning, mostly in shades of blue and rose yield to brilliant pewter-silver tinged with gold. The luster enhances the razor sharp definition to the classic John Reich design and ultra smooth surface quality. We note a small mark in the obverse field, but it is not distracting to the overall quality and eye appeal of this beauty. We have looked this GEM over and over with a glass, and we are not sure why CAC chose not to sticker this one, the quality is all there!

PCGS 9, NGC 17. Just three are graded finer. Going back 1996, only seven PCGS MS66 examples without CAC approval have ever sold in auction, averaging nearly \$15,000. None of the three MS67s graded by PCGS have ever sold in auction, so if you are looking for a top tier GEM 1826 half dollar, do not let this opportunity pass you by!

50C 1828 O-112. SQ. 2, SM 8, LG LET. PCGS MS65

Ex Link, as noted on the insert.

This is a **CONDITION CENSUS** level O-112, a somewhat scarce R-3 variety. Richly toned with copious original toning that graces both sides of this GEM. A bold, underlying luster brings out the greenish-gray, pale blue, russet-tan, and pale gold tone on both sides. Sharply struck overall, this coin is extremely charming in terms of eye appeal and would fit nicely into any set of GEM type coins or a specialized set of Capped Bust half dollars. We do not understand why CAC did not bean this wonderful GEM.

PCGS 12, NGC 9. The current PCGS Price Guide value is listed at \$6,500 but keep in mind this GEM sold for \$9,400 in the 2012 ANA auction and \$8,913 in our Regency Auction IV. Bid accordingly.

Ex Link Collection, as noted on the insert.

This near-GEM O-112a is likely within the low end of the Condition Census for the variety. Satiny surfaces gleam under a layer of pewter and slate tones with rose and pale blue accents. The devices are sharply impressed overall and the surfaces are generally clean, free of any serious marks or ticks and the eye appeal is great!

PCGS 48, NGC 37, CAC 15. The current PCGS Price Guide value is \$3,750 and the most recent example realized \$3,960 in February 2020 and before that one sold for \$3,600 in September 2019. PCGS has graded just 30 finer, making this an ideal example for most collectors looking for a high grade piece for a type set.

Ex Link, as noted on the insert.

A **CHOICE** and totally original toned example with an incredible look. First off, we do not know why CAC did not bean this coin, and we see no reason why its not a higher grade (no guarantees). You can be sure, in the old days someone would have called this coin a GEM. The toning is beautiful, rich, and deep, but not dark to the point of obscuring a bold cartwheel glow. An extensive die crack encircles most of the obverse, connecting the date, stars, etc. The eye appeal is great.

PCGS 110, NGC 84. While the current PCGS Price Guide value is \$2,000 and the most recent APRs are \$1,440 and \$1,750, it would not be a shock if this coin sold for more.

A lustrous, brilliant Mint State example of this Rarity-3 variety. The reverse die was not centered properly when this coin was struck, resulting in that side being struck slightly off center to 3:00, with little denticulation on the right side, and extra long dentils on the right. The reverse has a distinctive semi-reflective brilliance while the obverse is frosty. Sharply struck up, this coin has a great look, despite some minor contact.

PCGS 136, NGC 110. The most recent example sold in October 2020 for \$1,020. The current PCGS Price Guide value is listed at \$1,600. A neat coin for the type or date collector.

This is a particularly lustrous and vibrant Capped Bust half dollar with a brilliance usually not seen on CHOICE graded pieces. Well struck with complete, crisp definition on both sides. Perhaps dipped ages ago, there is a blush of gold at the peripheries. The eye appeal is very pleasing and there are no serious marks, lines, or discolorations worthy of mention on this nice example.

PCGS 151, NGC 80. The most recent example to sell in auction realized \$2,160 in March 2021 and the current PCGS Price Guide value is listed at \$1,800. We think this vividly brilliant example will see strong bidding. A neat type coin for any collector.

This Condition Census O-112 has a fantastic pedigree! While PCGS's insert notes Link and Queller, it is also ex Hain Family Collection, which was also a classic sale of the early 21st century. This piece has a distinctive velvety texture to the lustrous fields. Well struck with bold definition throughout. Both sides are toned with a blend of mauve-gray and golden-olive tan patina. Easily identifiable by a toning streak between stars 6 and 7. Ex Link, as noted on the insert.

A visually impressive CHOICE example of the last year of the Lettered Edge Capped Bust halves and this is a low condition census specimen of this Rarity-3 variety. Fully original with very pretty toning on high end surfaces for the grade. Dappled, multicolored toning at the rims, lighter pewter-gold near the centers. Sharply struck with luster glowing in the fields and on the devices.

PCGS 91, NGC 55, CAC 14. There are just two in MS63+, neither of which have sold in auction. The last PCGS/CAC MS63 sold for \$4,130 in January 2018 and before that, one sold for \$3,760 in August 2016. Clearly the published prices for CAC approved coins are not correct. 50C 1842 SMALL DATE. REV. OF 1842. PCGS MS64 CAC

A lovely near-GEM early Seated Liberty half dollar, certainly in the Condition Census. Not only is this coin high grade, but very high end quality for the grade and boasts ultra originality. A bold underlying luster glows vividly through the rich, dappled toning. The cartwheels roll boldly over minimally marked surfaces. Generous colorful toning in varied, dappled shades come to life when the underlying lustrous surfaces are rotated in a light. A few minor contact marks are visible using a strong glass, but are invisible to the naked eye.

PCGS 7, NGC 1, CAC 2. There has not been one sold since July 2016, which realized \$7,250. The current Collectors Universe value is \$5,500, which seems cheap. Only two are finer.

A beautiful and totally original near-GEM that ranks at the TOP OF THE POP at PCGS for this year. Despite a mintage of 1,766,000, and its reputation as a "common" date in lower grades, it is quite elusive in any Mint State grade, and unknown finer at PCGS.

This mottled, iridescent toned borderline GEM is totally original with a classic old time collection look. Well struck devices have a razor sharp definition. There are a few very minor contact marks seen under close magnification that keeps this from a full GEM grade.

PCGS 14, NGC 5, CAC 4. The most recent example to sell in auction was not CAC approved and sold for \$6,300 in February 2020. Prior to that, we sold a PCGS/CAC piece back in May 2016 for \$5,640. 50C 1870-S PCGS MS64 CAC

Ex Dick Osburn Collection, as noted on the insert.

An incredible example of this KEY Condition Rarity! Despite a sizable mintage of over a million pieces, this date is VERY RARE in Mint State, extremely so MS64 or finer, unknown above MS65.

The present coin is among the FINEST KNOWN, ranking just behind the Eliasberg-Gardner-Boylston PCGS MS65 CAC and the Usibelli PCGS MS65 Gold CAC and is likely the third FINEST 70-S half dollar in existence. Intensely lustrous surfaces radiate boldly and brilliantly throughout the nearly GEM quality surfaces. The eye appeal is VERY CHOICE, further enhanced by a precision strike and splashes of wonderful golden highlights. Taking a close look with a strong glass reveals the ever so slight traces of contact, which fail to impact the outstanding visual allure of this impressive HIGH GRADE example.

PCGS 3, NGC 2, CAC 3. This coin sold for \$34,500 back in Stack's Bowers' sale of the Dick Osburn Collection, August 2011. Any other example of this grade is lack luster and cannot be compared to the AMAZING quality and eye appeal of this one, so disregard the other APRs and Price Guide values, they have ZERO bearing on this near-GEM! The Eliasberg-Gardner Boylston coin sold in our April 2021 Regency Auction for \$67,562. This 70-S will again see very strong bidding when it crosses the block. Good luck!

A conditionally rare date, this totally original MS66+ is tied for second highest graded at PCGS and this date is prohibitively RARE any finer!

Premium quality, satiny smooth surfaces are devoid of any kind of mark, tick, or trace of any kind of contact. A pearly sheen shimmers when the frosty surfaces are rotated in a light, amplifying the delicate hints of totally original toning. The generally sharp devices show a full outline of Liberty's thumb and most of her drapery folds. The luster is bold throughout and gives this nearly SUPERB example a stunning look overall.

PCGS 195, NGC 57, CAC 41. There are 19 graded MS66+, which we think includes some duplication. In the last twelve months, three examples have sold ranging from \$6,000 to \$7,200 and the current PCGS Price Guide value is listed at \$7,000. There are just four examples graded finer, all MS67, and none have sold in eight years, the most recent selling for \$41,125. This impressive, original GEM belongs in a WORLD CLASS collection.

50C 1942 PCGS MS65

One of the greatest pieces of numismatic advice has generally been to "buy the coin, not the holder." However, there are some times where the holder itself is a major rarity. Like with this GEM 1942 half. Housed in a generation 1.0 holder, this is one of the first coins graded in early to mid February 1986, when PCGS first began grading coins. Blazing, blast white silver luster booms around satiny smooth surfaces and sharply struck devices. There is a touch of iridescent white that comes out when rotated in a light.

These holders are VERY RARE, only used for a couple of months, before being switched to a green tag holder, which is the 1.2 generation holder, used from late February to September 1989. Most of these "white" label holders have disappeared, having been cracked out ages ago for upgrades. All "white label" rattlers have serial numbers beginning with 108. We have seen examples of other common coins sell for many multiples of their market values in these holders, including a 1962 PR65 Franklin half dollar that sold for \$3,612 in an online only auction in February 2021. We suspect that this coin will see very strong bidding from the collector looking for the few coins surviving in these rare, historic PCGS holders.

Ex Linda Gail Collection as noted on the insert.

This is the **WORLD FAMOUS, WORLD RECORD** holder Franklin half dollar. This **SUPERB GEM** is a historic coin, the first Franklin to bring a six-figure price in auction, realizing \$129,250 in our September 2018 Regency Auction. In that sale we declared:

“We unhesitatingly pronounce this the **BEST** and wildest 1958 Frankie in existence! **EVERYTHING** about this coin is mind boggling! **EVERYTHING!**”

1000% **PERFECT** surfaces adorn both sides. Use a neutron microscope and you will find **NO** flaws of any size, any where. An intense luster nearly blinds you from all over. The color rivals **ANY** of the **BEST** Northern Lights coins-really! Electric shades of killer neon like violet/pearl green/raw blue explode all over the obverse in a sparkly way. The reverse has a killer mix of iridescent reddish rims, with phenomenal nearly neon like greenish gold centers. We rank the colors a 10+ on our 1-10 color scale we used for our North Lights coins. Do not just take our word on wild colors-see this coin. Also, **ALL** of the details are sharply struck. The eye appeal is outrageous!”

The Pre-sale estimate was listed at \$15,000-\$17,500, and after multiple collectors drove bidding into the stratosphere, it realized a world record bid. The Linda Gail Collector added this coin to the **FINEST** of all time Franklin half dollar set. It is now your chance to “get the one that ran away.”

PCGS 35, NGC 19, CAC 20. There are only 4 in MS67+ FBL for the date, obviously **NONE** are finer. We expect the bidding will again be as intense as the colors that adorn the surfaces of this **AMAZING** coin! Good luck!

Having set record after record for SUPERB GEM and MONSTER TONED Franklin half dollars, we can say with 100% confidence that this 58-D is a beast, our second favorite that we have sold (behind the one in our December 2020 Regency Auction, which brought \$32,900 on an estimate of \$7,000-\$10,000).

This is a stunning Mint Set toner, with bands of color that radiate inward on the obverse, deeper at the

periphery and lighter toward the center. Magenta-rose and tangerine-peach color melts into lemon-yellow near the centers.

Traces of granny smith and clover hues blend nicely with the other colors giving the obverse a 9 out of 10 on our color scale. The reverse has a delicate dusting of pewter and olive tan that is evenly distributed across the surface. Every detail is crisply rendered by an exacting blow from the dies. Exceptionally clean, not even a powerful glass will locate anything of consequence. One glance and you can instantly tell this is TIED FOR FINEST!

50C 1951 PCGS PR67 CAM CAC

A lovely SUPERB GEM! These early Proof Franklin halves rarely come with such deep, clean, clear mirrors or bold contrast. This one is untuned and we cannot find a single flaw worthy of mention. The contrast is bold and the eye appeal bolder.

PCGS 33, NGC 43, CAC 17. The most recent example to sell in auction realized \$3,600 in November 2020. The current PCGS Price Guide value is \$4,200. There is just a single PR67+ graded finer at PCGS making this a great coin for any Registry Set.

50C 1954 PCGS PR67+ DCAM CAC

Ex Young-Dakota Collection, as noted on the insert.

From our October 2019 "Regency Event: Exclusively Legend" auction, lot 135, where it was described as:

"Infinitely deep and beaming mirrors are the most intense and reflective we have seen on an example of this date. The quicksilver like reflection of the mirrored fields amplify the stunning frost on the devices on both the obverse and reverse; both Franklin and the Liberty Bell stand out in full 3D like effect. Among the most visually impressive early Franklin Proofs of any date we have had the pleasure of selling."

PCGS 49, NGC 29, CAC 15. There are 3 in PR67+ DCAM and just 18 finer, all PR68 DCAM. This coin brought \$4,700, a very strong price. Other examples have sold in the \$2,600 range. A PR68 DCAM sold for \$7,200.

LOT 296

50C 1959 PCGS PR68+ CAM CAC

An incredible example! The depth and clarity of the mirrors have a wonderful glassiness to them, which contrasts brilliantly against frosted devices. Both sides are essentially flawless; we see no stray lines or anything that would impair the boldness of the eye appeal. This stunning SUPERB GEM Proof 1959 Franklin half is destined for any high end set!

PCGS 66, NGC 140, AC 35. This is the ONLY PR68+ CAM graded by PCGS, and there are just two in PR69 CAM finer. We sold one in our October 2019 Regency Event auction for \$4,348. In PR68+ CAM, the PCGS Price Guide lists a value of \$4,000. What a great coin, bound for a fantastic set.

LOT 298

\$1 1799 UNCENTERED BROADSTRIKE. PCGS F15

Errors on early dollars are VERY RARE, regardless of what type of error, and usually are only seen when old time collections assembled by very dedicated specialists come to market. Broadstruck coins are struck outside of the collar. Since coins struck on a screw press were technically struck without collar, this is basically struck off center to 9:00 with no dentils on the left side of both sides and the obverse stars and reverse legend at those points being very close to the rim. The dentils on the right are extended.

The coin itself is a B-8, BB-165, a common variety, in a well worn collector grade. The details are nicely defined, despite the wear. The surfaces are not seriously marked or hacked up, just a few tiny marks that came from honest circulation.

PCGS 282, NGC 74 (non errors). The current non-error PCGS Price Guide value is \$2,000. Who knows what this VERY RARE error coin will bring, we feel our estimate is fair, but only time will tell. Good luck.

50C 1960 PCGS PR68+ DCAM CAC

The quality is AMAZING! This is clearly one of the FINEST examples that exists. Thickly frosted devices seem to float on the highly reflective, deeply beaming mirrored fields. Even with the aid of a strong glass, the surfaces appear to be without flaw, totally PRISTINE and untuned. The eye appeal is SUPERB.

PCGS 107, NGC 80, CAC 38. None have sold since August 2018, when two sold in the ANA auction, one at \$2,400 and the other at \$3,120. Before that, we sold one for \$3,760 back in September 2016. The current Collectors Universe value is \$3,750. This is a great coin, remember only 11 are graded higher in the designation (all are five figure pieces). Good luck.

\$1 1860-O PCGS MS61

For the grade, this is a beauty! An intense luster booms on the surfaces of this popular hoard date. The radiant brilliance is quite flashy and bold. Well struck with frosted devices that do stand out boldly from the fields, which have a distinctive semi-reflective flash. The eye appeal is excellent for the modest MS61 grade.

PCGS 285, NGC 160. The most recent example brought \$1,880 in our December 2020 Regency Auction. The current PCGS Price Guide value is listed at \$2,250. The 1860-O is a great story coin, and this one is very pleasing visually. Worthy of a strong bid.

\$1 1863 PCGS PR65+ CAC

An unbelievably high end GEM quality example of this very popular Civil War date Proof dollar. Only 460 Proofs were struck, and this one ranks high up on the PCGS Population rankings with just a mere 10 examples graded finer.

Sharply struck on both sides, the devices are frosted and the mirrored fields have a flashy watery type reflection. The mirrors are bold and really make the colors, rosy-slate, lilac, violet, sky-blue, and light gold pop when rotated in a light. The colors are mottled and totally original and add to the spectacular eye appeal. Sharply struck with every device possessing razor sharp definition on both sides. The eye appeal is great and the quality is unquestionably high end.

PCGS 9, NGC 15, CAC 2. Only 460 Proofs were struck. PCGS has graded just 2 in PR65+, and we sold the other PCGS PR65+ for \$14,688 in March 2019. The current PCGS Price Guide value is \$19,000. What a great looking example and with just 10 finer in the designation (we sold a PR66 CAC for \$28,200 in February 2021) these do get quite pricey in higher grade. We think this coin represents a great value.

\$1 1878-S NGC MS66 DPL

An incredible Deep Prooflike GEM, and at this lofty state of preservation, this coin is TIED FOR FINEST GRADED! While the 78-S dollar is common in MS66, it is ULTRA RARE so fine.

The lustrous fields possess a vivid mint brilliance that comes to life in the light, and a deep, watery reflection. The crispness of the striking details imparted a thick frostiness on the devices, creating a bold contrast that gives this coin, at

first glance, the appearance of a Proof. The peripheries are framed by a narrow ring of deep gold and light blue which gives the shimmering silver brilliance of the surfaces an even bolder visual impact.

PCGS 3, NGC 2. This is the ONLY MS66 DMPL graded by either service to sell in auction, bringing a record \$15,275 in our May 2020 Regency Auction. The current Collectors Universe value is \$22,500. This marvelous DPL GEM is a great coin bound for inclusion in a superb set.

To call this MS68 SUPERB does not totally capture the visual impact this coin has!

Blazing, untuned surfaces are bold and totally brilliant, with each side offering totally distinctive looks. The obverse fields are deeply reflective and the sharply struck, frosty devices stand out in nearly DMPL contrast. The reverse is satiny with a radiant, glowing brilliance. Devoid of any distracting marks, lines, or toning, the eye appeal is excellent.

PCGS 151, NGC 183. The two most recent examples sold for \$3,240 and \$3,360 in February 2021 and November 2020 respectively. The current Collectors Universe value is listed at \$5,500. NGC has graded a mere four in MS68+ finer. This is a great looking SUPERB GEM, bid accordingly.

\$1 1880-O PCGS MS64 CAC

The 1880-O had a sizable mintage of more than 5.3 million pieces, but they are VERY RARE in GEM grade. As such, MS64s as offered here are always in high demand, and we think the Population data is full of duplicate submissions trying for that illusive MS65 grade. The present MS64 is worthy of its grade and CAC designation. Brilliant, untuned silver surfaces are highly lustrous and vivid with a decent strike for an O-mint Morgan. The eye appeal is quite nice.

PCGS 1485, NGC 935, CAC 217. The PCGS Price Guide and CAC CPG value are both listed at \$1,500 and the two most recent examples to sell in auction brought \$1,320 and \$1,680. In MS64+, the PCGS Price Guide jumps to \$3,750. We think this great looking VERY CHOICE example will delight anyone working on a carefully selected Morgan dollar set.

Intensely brilliant, rolling cartwheel luster booms all over this stunning SUPERB GEM. The silver surfaces are blazing! Sharply struck design types stand out boldly with a thick, creamy frost. Hints of peripheral tone can be seen, mostly on the reverse, framing that side. There are, as to be expected of a GEM in this lofty state of preservation, few contact marks, none of which justify mentioning on their own. The eye appeal is quite nice.

PCGS 271, NGC 346. The current Collectors Universe value is listed at \$4,500. Recent examples to sell realized generally in the \$3,000-\$4,000 range, with the most recent selling for \$3,840 in October 2020. Truly rare finer with fewer than 20 graded higher by NGC.

\$1 1881-S PCGS MS68 CAC

A spectacular MS68 81-S. The word SUPERB barely conveys the outstanding visual allure and technical quality is off the charts!

Boldly lustrous, displaying the swirling, blazing S-mint luster that glows in the fields. The luster picks up the varied blood-red and deep violet purple and brilliant azure tones that cover about 40% of the right side of the obverse. The reverse is delicately dusted by a hint of golden and peach patina. The devices are sharply struck up and very thickly frosted, with Liberty's cheek excessively smooth and clean.

PCGS 196, NGC 325, CAC 121. The most recent example to sell in this lofty state of preservation with CAC approval sold for \$5,520 in March 2021. The CAC CPG value is \$4,750 and the Collectors Universe value is \$4,850. Keep in mind that a 68+ is a five-figure coin. A great type coin or piece for a SUPERB Registry set. The eye appeal will vault it to a strong bid. Good luck!

\$1 1883-O PCGS MS67+ CAC

An impressive SUPERB GEM 83-O that is among the HIGHEST GRADED (just a single MS68 is graded higher). Despite its common date status, in MS67 this is a very scarce issue, and is downright RARE any finer.

An intense frosty mint luster booms boldly all over. Sharply struck devices show an incredible depth of details for a date that can often come with shallow strikes. A crescent of deeper teal and blue frames the

back of Liberty's head and a hint of peripheral tone frames the left side. The brilliant silver center looks like a spotlight is shining on Liberty's smooth, frosty cheek. The reverse has just the faintest blush of the clearest gold. The surfaces are free of distracting marks or ticks of any kind that are worthy of mention, the eye appeal and technical qualities are off the chart.

PCGS 105, NGC 47, CAC 26. PCGS have graded 20 in MS67+ and just a single MS68 finer. We sold the most recent example, a beautifully toned example from the Roadrunner Collection that realized \$9,988 in October 2020. The current Collectors Universe value is listed at \$8,500, and it jumps to \$65,000 in MS68. With a spread like that, this coin could easily make it into the five figures. Good luck.

Brilliant and flashy, the mirrors are deep and contrast wonderfully against the sharply struck, thickly frosted devices. We love when the dies are so fresh, the reflection is seen in the recesses of Liberty's hair curls. A few very minor, scattered ticks are seen, none of which have an impact on the visual allure. A great example of a DMPL that won't break the bank.

PCGS 822, NGC 556, CAC 80. The last one sold in January 2021 for \$504. The current CAC CPG value is \$488, and it more than doubles in MS65 DMPL.

A monster reverse toner! We can say if this coin had the same colorful toning on the obverse as the reverse does, we would have had to add a zero to our estimates! The colors are that intense, that bold, that beautiful! Green, blue, purple, pink, orange, and gold tones swirl together on the reverse, and we rate the color a 9 on our 10 point color scale. There is a blush of more subtle tone on the obverse with a satiny frost throughout. The reverse toning is sensational!

Unbelievable quality! Truly a wonderful GEM DMPL 85-O dollar that is VERY RARE any finer. The deeply mirrored fields show some light silver white toning. The sharply struck devices are bright and frosty and contrast against the watery mirrors that surround them. The cheek is very clean and will please any old timer. The reverse reveals a tiny planchet flake under close magnification, which is mint made. The eye appeal is very high end overall and will delight the collector.

PCGS 52, NGC 20. We have sold three non-CAC examples over the years, realizing between \$1,763 and \$2,990. The current Collectors Universe value is \$2,400. Just 9 examples are graded finer and the Price Guide value jumps to \$5,750. Bound for a great set.

\$1 1887-O PCGS MS65 PL CAC

Ex PCGS Tour, as noted on the old green tag.

This is a well struck example of this notoriously weakly struck date. While the frosted reliefs do show some minor weakness they are sharper than usually encountered. The highly lustrous fields have a distinctive Prooflike flash. Mostly untoned there is a tiny blush of peripheral gold that delightfully frames both sides. The eye appeal is excellent.

The PCGS Tour Set was a very popular display at coin shows around the country. You will clearly see that with a coin like this in the set, why it would be such a popular draw among collectors.

PCGS 20, NGC 2, CAC 5. The most recent example realized \$8,700 in the November 2020 sale of the Larry H. Miller Collection. This coin has sold three times previously in the last decade, realizing between \$6,500 and \$10,500. The Collectors Universe value is limited by non-CAC coins and does not reflect CAC coins of this quality. Just three coins are graded finer at PCGS, one each in MS65+ PL, MS66 PL, and MS66+ PL. A great PL coin for a great set. Good luck.

A fantastic, delicate pastel toned GEM that is tied for SECOND HIGHEST graded at PCGS. Like many New Orleans mint dollars, the 91-O is common in lower grades and up to Choice BU, but are incredibly rare in MS65 or finer grades.

A mellow, lilac and rose hue dominates with hints of pale pastel green and gold tone toward the rims. The surfaces are satiny lustrous, the underlying glowing brilliance brings out all the varied subtle hues. The

surfaces are very clean overall with few if any breaks in the frost and devoid of any serious contact marks. The strike is exceptional for the date. The eye appeal is quite nice.

PCGS 17, NGC 3. The most recent non-CAC coin to sell in auction realized \$10,800 in March 2019. The current Collectors Universe value is listed at \$12,500. Keep in mind the only one finer is a MS66 that sold for \$108,688 in our March 2019 Regency Auction. If you are collecting toned dollars by date, do not overlook this GEM.

Tied for second HIGHEST graded at PCGS, there are just three examples graded finer, all at the PR68 CAM level. This is a gorgeous example! The technical quality is all there, and the visual allure is spectacular.

Incredible, watery mirrored fields are icy smooth and impeccably sleek and flawless. The reflection really comes out in a strong, flashy mode when rotated in a light. The underlying brilliance enhances the rich, iridescent toning that covers both sides. Shades of blue, rose, silver, gold, russet, tan, and olive all meld together over the incredibly flawless surfaces. The devices are crisply defined and have a thick frosty texture, creating a bold CAMEO contrast. The eye appeal is spectacular!

PCGS 8, NGC 23, CAC 3. Only 972 Proofs were struck. There are three graded PR67+ CAM at PCGS and just three PR68 CAMs graded higher. This is the most recent PCGS/CAC example to sell in auction, realizing \$28,800 in the 2018 FUN auction. Prior to that, one sold in April 2013 for \$44,063. NONE of the PR68s have sold in auction, making this one of the FINEST examples available to collectors. Do not let this important opportunity pass you by! We expect that in this market, the Collectors Universe value of \$35,000 will prove low when the hammer falls. Good luck.

Legend Rare Coin Auctions is glad to offer yet another one of the 15 HIGHEST graded 1921 High Relief Peace dollars at PCGS and it is a truly magnificent example! WOW! WOW! WOW!

Anthony DeFrancisci's classic high relief design is incredibly well struck up is fully defined and sculpted with complete 3-D effect. The obverse fields are "dished" with a convex depth that makes the details stand out even higher. Unbelievably thick mint frost blooms all over the surfaces with a pearly vibrance. We have looked this monster SUPERB GEM up and down with a strong glass and can locate ZERO marks or traces of contact worthy of mention anywhere. The eye appeal is AMAZING.

Struck to commemorate the end of World War I, various artists were invited to submit designs. Anthony DeFrancisci, a famed artist won the contest, and late in the year, over a million examples of his high relief Peace dollars were struck. While available in grades up to MS65, they are scarce in MS66 and VERY RARE any finer. As 2021 marks the centennial of this issue, the U.S. mint plans to strike 2021 dated Peace dollars for collectors and demand for these are VERY HIGH today in all grades.

PCGS 209, NGC 148, CAC 39. There are just 8 in MS66+ and only 7 are graded MS67 finer. The most recent example to sell realized \$31,200 in September 2020 and we sold one in December 2019 for \$32,900. The current PCGS Price Guide value is listed at \$34,500. Keep in mind that any MS67 is a six-figure coin. This gorgeous coin is worthy of a very strong bid. Good luck.

\$1 1922-S PCGS MS65

Despite a huge mintage of nearly 17.5 million pieces, the 22-S dollar is surprisingly RARE in GEM and higher grades. Not only is this a GEM but it also boasts a wonderful golden-russet and tangerine-rose patina dappled across the obverse. Boldly struck, the luster blooms through the colorful tones enlivening the eye appeal.

PCGS 434, NGC 257. The current Collectors Universe value is \$1,150, but a colorful coin like this will bring a strong bid, considering how difficult it is to find toned Peace dollars.

\$1 1924 PCGS MS66+

The 1924 Peace dollar is one of the most common U.S. silver dollar issued, even in GEM grade. What sets this MS66+ apart is its marvelous, multicolored toning that graces both sides.

A coppery-orange-gold color dominates with accents of deep blue-violet, olive, tan, and russet that comes out in a light. For a Peace dollar, the obverse is an 8.5++ on our color scale. There are a few tiny ticks hidden under the color, but they do not detract from the overall outstanding eye appeal, which is generally spectacular for the type. This is a marvelous coin for the toned Peace dollar collector, and this is a rare opportunity. Be sure to view this GEM in hand to fully appreciate its visual allure!

Ex Jack Lee Collection, as noted on the insert.

That right there is really all you need to know about this coin's quality! The name Jack Lee is always associated with SPECTACULAR silver dollars. That this SUPERB GEM was in his world famous set screams quality!

Blazing silver luster booms all over the incredibly clean surfaces. The radiating cartwheel luster rolls unimpeded over untuned surfaces.

Blast white save for the slightest blush of the palest gold on the reverse, this SUPERB MS67 is devoid of marks and is sharply struck up. The eye appeal is simply AMAZING!

PCGS 58, NGC 100, CAC 30. The current CAC CPG value is listed at \$9,750. Two other examples sold this year, one bringing \$8,400 and the other \$33,600. Just five coins are graded higher, the only one of those to sell was a PCGS MS68 that sold ages ago and today, would likely sell for six figures if it would come up for auction.

A sensational mint luster radiates boldly on both sides of this SUPERB 1925 Peace dollar. Razor sharp in strike, the devices show complete, crisp definition. The surfaces are smooth, devoid of any flaws worthy of mention, anywhere. Obverse and reverse show a delicate champagne-gold iridescent tone that is truly a delight to behold.

PCGS 163, NGC 111, CAC 52. The most recent example sold for \$6,000 in November 2020, and the most recent example we sold brought \$5,053 in July 2020. The current CAC CPG value is listed at \$5,000. This SUPERB GEM is worthy of a very strong bid for sure. Good luck.

A gorgeous, near GEM example of this KEY DATE Peace dollar. Only 360,649 examples came off the dies, and are scarce in all grades. In this grade there is a lot of duplication in hopes of a full Gem grade. Quite scarce finer. A fully lustrous example shows off a blush of iridescent gold. Sharply struck the devices are frosty and bold, and the surfaces are generally free from serious contact. The most serious mark is a small one in the field below the L in LIBERTY; everything else is generally hidden and visible only with a glass. The eye appeal is very “gemmy!”

PCGS 2263, NGC 1055, CAC 318. PCGS has graded 137 in MS64+. The most recent PCGS/CAC MS64+s sold in 2020 for \$1,260, but more recently a PCGS/CAC MS64 (not “+”) sold for \$2,040 in March 2021. The current Collectors Universe value is \$1,600 and it jumps to \$3,000 in MS65. A great coin for a CHOICE to GEM set of Peace dollars.

\$1 1934-S PCGS MS66

A delicately toned GEM example of this conditionally RARE late date Peace dollar. With just over a million examples struck, the 34-S is a key issue, especially so in such a lofty state of preservation.

Brilliant silver luster radiates all over the surfaces of this high grade GEM specimen. Premium Quality for the issue, the surfaces show off delicate pastel iridescent hues. Shades of gold, lilac, and the palest of green come to life under a light. Sharply struck and especially clean, the eye appeal is excellent. This coin has a great look and will fit nicely in any GEM set.

PCGS 35, NGC 14. The last three examples have sold in the \$21,000 to \$28,800 range and the current Collectors Universe value is listed at \$33,500. Only seven coins are graded finer, all in MS66+ and two have sold in our auctions, one for \$70,500 and the other for \$79,313. Essentially Mint State, this is a lovely, original example. Sharply struck devices stand out against frosty golden surfaces. The eye appeal is very nice and nothing more than a few trivial ticks are seen with the aid of a strong glass.

PCGS 24, NGC 65. The current Collectors Universe value is \$2,200 and the most recent example sold for \$1,560 in December 2018. G\$1 1855 PCGS MS66+ CAC

What a gorgeous SUPERB quality GEM Type II gold dollar. This short lived series lasted three years, 1854 to 1856. There were 758,269 struck and the presently offered MS66+ is among the TOP TEN HIGHEST GRADED example of the date (only five are graded higher).

Every aspect of this coin screams quality, originality, and status as a very special GEM survivor for the gold type collector. The entirety of the surfaces on both sides are wonderfully lustrous, boasting a rich frosty golden satin-like sheen that glimmers boldly throughout. The luster aids in bringing out a seductive rose and orange gold patina that is clearly totally original and the surfaces have clearly never been messed with. The devices are sharply struck up from clashed and cracked dies, the only marks you see on the coins are the mint made die cracks and clash marks. The eye appeal is exceptional in every way!

PCGS 17, NGC 8, CAC 11. PCGS has graded four examples in MS66+ and just five finer. NO MS66+ has ever sold in auction, but examples of the 1854 Type II gold dollar have sold in the \$76,000-\$87,000 range. The current Collectors Universe value is listed at \$90,000. Keep in mind that it has been more than a decade since a PCGS MS67 has sold in auction, making this a VERY IMPORTANT opportunity for the gold type collector. The mintage of 168,244 would suggest a date that is relatively available, even in high grade, however that is not the case with the 1859 gold dollar. This date is **VERY RARE** in MS66 and finer grades. The color and luster are both very bold and lovely. The surfaces have a gleaming satiny brilliance on both sides. Struck from clashed dies, and there is some die rust in the central reverse which is interesting. Well struck for the date, this coin is nicely preserved and has a great eye appeal.

PCGS 9, NGC 4, CAC 8. The last PCGS/CAC MS66 sold in August 2011 for \$5,463 and the current PCGS Price Guide value is listed at \$5,250. Fewer than 10 examples have graded finer at PCGS, making this a great example for a carefully selected set. Good luck.

An important gold dollar and an important opportunity for the advanced collector. Only 3,000 examples of this last San Francisco mintage of gold dollars. One of the higher graded examples, this date is **RARE** in all grades, especially so in CHOICE and GEM Mint State grades.

A full satin gold luster swirls on both sides with accents of semi prooflike reflection in the fields. Close inspection with a loupe reveals only

one superficial scuff on the left obverse; the rest of the surfaces are very clean overall. Both sides have an intensely brilliant yellow gold hue and Miss Liberty and the details are super frosty and are sharply struck. The eye appeal is great!

PCGS 7, NGC 2, CAC 3. This is the **ONLY** MS64+ at either service. We had the honor of selling this coin in January 2020 for \$15,275. The Collectors Universe value is listed at \$15,000. There are just seven finer at PCGS, and note: the last PCGS/CAC MS65 was the Duckor coin that brought \$37,600 in August 2015. G\$1 1880 PCGS MS68 CAC

An amazing SUPERB GEM gold dollar. That a coin can survive in such a PRISTINE state of preservation always boggles our mind. We love these late date Type 3 gold dollars, but the 1880 is one of our favorites.

This date began as a rarity, only 1,600 were struck for circulation, but some dealers and collectors had the foresight to save some, thankfully.

This spectacular coin has deep, beaming, fully Prooflike luster that is broadcast all over the fields. The

sharply struck devices are thickly frosted with a bold, creamy frost that imparts a wonderful CAMEO-like contrast against the deep mirror fields. Aside from some delicate toning and a few minor imperceptible mint made ticks, this coin is AS STRUCK! Virtually pristine and the eye appeal is simply STUNNING!

PCGS 27, NGC 27, CAC 22. This coin sold for \$11,750 in our March 2020 Regency Auction, but before that, one sold for \$13,200 in March 2019. The CAC CPG and Collectors Universe values are listed at \$12,600 and \$12,500 respectively. VERY RARE finer, PCGS has graded 3 in MS68+ and a single (believe it or not) MS69 higher. An important Civil War era date. Despite a decent sized mintage of over 98,000, the 1862 quarter eagle is scarce in all grades, and RARE in Mint State.

Just a touch of light circulation is seen on the high points and fields, but there is a wealth of original mint luster and the definition on both sides is crisp and bold from an exacting blow from the dies. Totally original, and with good color throughout, the surfaces are toned in a khaki-gold with honey hues near the periphery. The eye appeal is very nice.

PCGS 32, NGC 69, CAC 9. You have to go back to May 2017 to find the ONLY PCGS/CAC coin to sell in auction, a coin that realized \$2,800 in an internet only auction. SUPERB, wonderful, glorious, incredible, stunning, immaculate, pristine, PQ, exceptional, amazing, how many other ways do you want us to describe this TIED FOR FINEST example of this lower mintage date. Only 10,960 circulation strikes were produced and survivors in the GEM or finer grades are EXTREMELY RARE!

Glowing, satiny mint brilliance highlights virtually PERFECT surfaces. Gleaming luster booms throughout the fields. The coloration is rich with a beautiful rose-red patination that comes to the fore when the silky sheen catches the light. The quality of the surfaces and luster further enhances the razor sharp definition of the design elements. The eye appeal is very high end.

PCGS 2, NGC 0, CAC 2. This coin last sold over a decade ago, sans "+" for a world record price of \$35,075. Today the Collectors Universe value is listed at \$42,500. We fully agree with the Proof 66 Deep Cameo designation. We do not know what CAC's hang up is and why no bean.

Incredibly deep mirrors beam boldly from all over. The mirrors are the ultimate in cleanliness and clarity (zero haze). When you twirl the coin, the mirrors look like a freshly formed sheet of ice. The flash of the coin is nearly blinding. Miss Liberty and the details are pinpoint sharp in strike and have thick yellow frost. This coin looks like it was carved from a block of frosted gold. The eye appeal is jaw dropping!

PCGS 1, NGC 1. Only 39 pieces of this Civil War era date were minted. There are no auction records for any ever selling in PR66 DC. The only Collectors Universe Value for the date is \$100,000 for a PR65 DC (a PR65 DC brought \$93,000 in January 2020). A decent AU55 BD-1. This example, housed in an old green tag holder, has a warm orange and green hue over the golden surfaces. Tinges of original luster are aglow in the protected areas. With a strong glass we note some minor marks and some microscopic, wispy lines. The strike is a touch weak in the centers while being quite sharp at the peripheries.

Only 9,676 half eagles were struck of the Pointed 6 varieties. (Note that the

1806 Rounded 6 half eagles had a mintage of 54,417). Though five die pairs were used to strike them BD-1 is R-4, BD-2 is R-5+, BD-3 is R-7, BD-4 is R-5+, and BD-5 is R-7. This easily identified die marriage is the most “common” and pairs 1806 obverse 1 (stars 1 and 2 are nearly touching at two points) with 1805 reverse B, with the right base of the Ts broken off.

A very high grade survivor of this early No Motto date. The 340,330 mintage figure allows this date to be available to collectors in circulated grades, but Mint State survivors are quite scarce indeed (despite the fact that the Bass Collection had six). The presently offered CHOICE and ORIGINAL MS63 ranks to the lower end of the Condition Census with PCGS grading just seven coins finer.

The devices are sharply impressed with pinpoint precision. The surfaces are richly toned, clearly, this really choice piece sat unmolested in a paper envelope which left a layer of original toning over the satiny frosted luster. The eye appeal is exceptional.

PCGS 6, NGC 9, CAC 4. The most recent example sold in February 2019 for \$10,800 and prior to that, one sold for \$12,000. Only a few trivial ticks and marks can be seen and they do not stand out-you really need a glass to see them. Indeed, they only show up because the surfaces are fully prooflike, and no, the prooflike mirrors are not from the conservation. Obviously several of these pieces were early strikes and there actually is a touch of contrast. Miss Liberty and the details have thick frosting and are sharply struck. The eye appeal is fabulous!

Despite a generous mintage of 770,200 struck, the 1910-S half eagle is a MAJOR condition rarity in this challenging 20th century series. It is an honor to offer this Condition Census, near GEM caliber example, one that ranks among the top 10 examples graded by PCGS--a perfect Registry Set coin.

The first thing that catches your eye is the stunning, rich, multicolored golden patina. Depending on the angle, the color ranges from deep orange to pale honey-wheat. There is a tiny tick noted in front of the Indian's nose, and there are some minor traces of contact in the dreaded right field, but nothing serious--indeed, in the old days, we think this coin would have been described as a GEM BU--and to the naked eye, this coin has serious claims to that lofty designation. The strike is razor sharp and every detail was deeply embossed by the precision blow from the dies. The eye appeal is truly spectacular!

PCGS 23, NGC 18, CAC 8. There are three graded PCGS MS66+ and just seven finer. The only PCGS MS64+ sold four years ago for \$39,950. The current Collectors Universe value is listed at \$48,500. Note: There has NOT been a PCGS-graded GEM sold in nearly five years! They are just not around and a PCGS/CAC MS65 will likely approach a six-figure price tag. Bid aggressively to bring home this exceptional 1910-S five!

LOT 360

\$10 1847 PCGS MS61 CAC

A gorgeous Mint State example of this conditionally challenging date. Despite a mintage of 862,258, this date saw extensive circulation. PCGS-graded Mint State coins are quite rare; most Mint State graded coins are graded by NGC; of the 113 total graded between MS60 and MS64 combined between the two major services, 46 are graded by PCGS (and only ten examples across all Mint State grades have been “beaned” by CAC).

This BU 1847 ten has a warm honey gold coloration that is enlivened by a graceful, radiant luster. Every detail is sharply struck and crisply rendered by a bold, exacting blow from the dies. The minor, scattered contact marks are barely visible to the unaided eye and no doubt the initial visual impact is that of a higher grade.

PCGS 12, NGC 34, CAC 4. NO CAC approved example has ever sold via auction, graded by either PCGS or NGC. Only two PCGS-graded examples have ever sold in auction, one in 2017 and the other in 2000. These do not appear with any frequency. A comparative example, a PCGS MS62 CAC sold for \$12,000 in the 2018 ANA auction. This excessively high end Lib is a wonderful example of this popular No Motto Liberty \$10. Bound for a great set.

\$10 1852-O PCGS AU55

A very pleasing example of this very scarce New Orleans date eagle. Only 18,000 examples were struck, and in his latest revision of his work on New Orleans, Doug Winter estimates that 125-150 survive in all grades, 28-37 in the AU range, and just 2-3 finer.

Copious quantities of original luster survives in the fields of this CHOICE AU 52-O. A generally well struck Winter-1 variety, with the O mint mark centered between EN of states. The surfaces are minimally

abraded, displaying just minor traces of contact. The eye appeal is excellent for an example of this date, and we really don't understand why CAC did not bean this one. We really like it.

PCGS 18, NGC 25. Two examples sold in 2020, one in February for \$8,700 and one in November for \$7,800. The current PCGS Price Guide value is \$10,000. Just half a dozen have graded finer and the most recent AU58 sold for \$20,400 in November 2020 and PCGS has graded just a single MS60 finer, the former Byron Reed coin, which is now impounded in the D.L. Hansen Collection. This is a very rare opportunity for the collector. Good luck.

\$10 1915 PCGS MS65 CAC

Intense, VIBRANT, GEM Mint luster BOOMS all over this spectacular quality 1915 eagle. AMAZING surfaces have a strong, billowing cartwheel luster. The fields are incredibly smooth and free of distracting marks, lines, hits, or any serious contact at all. The brilliance radiates all over this sharply struck coin. It is MAGNIFICENT!

PCGS 84, NGC 93, CAC 24. The most recent PCGS/CAC coin sold for \$13,200 in March 2021 and before

that, one sold in October 2015 for \$10,575. The current CAC CPG value is \$10,700. Clearly RARE any finer, this GEM will delight any advanced collector working on a set of this beautiful series.

\$10 1926 NGC MS66

This 1926 is oh so close to being a SUPERB GEM. All that holds it back from an even higher grade are a couple of well hidden ticks on the reverse. The luster is exceptionally vibrant. The golden brilliance radiates boldly across smooth surfaces and sharply struck devices. The color is rich, with a soft tangerine and rose patina on both sides. The eye appeal is quite nice. Though common in grades up to MS65, it is truly scarce in MS66, and VERY RARE finer.

PCGS 27, NGC 51. In the last six years, just two non-CAC NGC coins have sold in auction, one in July 2015 for \$7,638 and the other in March 2019 for \$6,000. The current Collectors Universe value is listed at \$17,500. Just a single MS66+ is graded finer at NGC, making this a great choice for any gold bug looking to own one of the highest graded examples.

Ex S.S. Central America.

It is AMAZING that this Condition Census level fully CHOICE PLUS example sat for a century and a half under the depths of the Atlantic Ocean off the Carolina Coast.

A brilliant, satiny, vividly lustrous Type I twenty that glows with an unbelievably VIBRANT finish. Despite being at the bottom of the ocean, the surfaces are only lightly abraded with the most minor scattered traces of contact. The devices are incredibly crisp in strike with a bold definition on both sides. The eye appeal is truly exceptional, and you would easily mistake this one for one of the way more common 1857-S \$20s that are famous from the S.S. Central America shipwreck.

PCGS 16, NGC 7, CAC 1. (all 1852 double eagles). This is the SINGLE FINEST 1852 \$20 from the second recovery of the S.S. Central America. The PCGS Price Guide value is \$55,000 for the shipwreck issue. Good luck!

LOT 366

\$20 1857-S SPIKED SHIELD. S.S.C.A PCGS MS66+ CAC
Ex. S.S. Central America.

A fabulous borderline SUPERB GEM example, an example that we have had the honor of offering once before.

Described as follows in our March 2020 Regency Auction, lot 408:

“What an unbelievably superb 57-S! We absolutely rank this coin an MS66.9+! Considering this was covered with muck, the conservators did an incredible job. If it was not in a Ship Wreck holder we assure you, it would be impossible to know it was under the sea for 155+ years.

The surfaces shame all other coins; they are borderline perfect. Only when you use a strong glass can you find a minor frost break or tiny tick. You’d still expect that on a huge coin like this. A full booming intense luster can guide in the Space Shuttle! Both sides are a GEM Yellow gold color. There are NO spots or discolorations. Miss Liberty and the details are sharply struck and offer generous frost. The eye appeal is spectacular!

The Shipwreck pop for this coins is 9 with only four higher. The regular NON Shipwreck pop in MS66+ 0! CAC has beamed a total of 53 pieces in MS66. (They do not separate out + graded coins or Ship Wreck coins.) If you are building a GEM Type set, you know until this wreck surfaced, there was no such thing as a choice or GEM \$20 1857-S. In MS66+ and MS67, its pretty much still that way. We can not stress enough the MONSTER quality of this SUPERB GEM. It is also \$110,000 less than the MS67, even though it is that close to being one! In the 2014 dive (the final dive) 3154 coins were salvaged. All the coins are now graded and accounted for. This is a magnificent \$20 as well as being a genuine historical piece of treasure!”

This coin realized \$61,688 and the current Collectors Universe value is listed at \$65,000. The eye appeal of this coin is off the charts and it should bring a very strong price today.

LOT 367

\$20 1893-CC PCGS MS63

This cataloger absolutely LOVES this coin! Tied for FINEST graded at PCGS, this coin is proudly making its modern auction debut in our Regency Auction, and it is an honor to have been selected to sell it.

The final mintage of coinage at the Carson City mint came off the presses in 1893, and due to the deep recession known as the Panic of 1893, the mintages of gold and silver coins for circulation dropped. Only 18,402 double eagles came off the dies in 1893. While a number of lower Mint State grade coins have been repatriated from European and Latin American holdings, CHOICE Mint State examples, like the MS63 offered here are VERY RARE and PCGS has never graded anything finer than MS63 in 35 years of grading coins.

Vividly lustrous surfaces beam boldly all over. The satiny brilliance offers sweeping, rolling cartwheels on both sides. The color is amazing and original, offering a rich orange-gold coloration that blends with highlights of honey, amber, rose, and wheat gold patina. The surfaces have scattered traces of contact, but nothing is worthy of individual mention; the surfaces are not at all hacked up, choppy, or have serious cuts or digs. The brilliance of the fields flash and the sharply struck devices have a wonderful, thick frost that is a real delight. We are so glad that this coin has not been messed with. We see no signs of any kind of conservation or other process to try and “improve” the eye appeal—it cannot be done, this coin is tops! Tops in terms of placement on the PCGS Population Report, and tops in terms of quality and visual allure! This one is a head scratcher as to why CAC did not bean it!

PCGS 25, NGC 18. While the last one may have sold for \$40,800, the one before that sold for \$48,000. The current Collectors Universe value is listed at \$52,500 and with NONE FINER at PCGS, this is a world class CC mint double eagle that belongs in a world class set! We would not be shocked if this CHOICE BU example brought a world record price. Good luck.

\$20 1924 PCGS MS67

What a magnificent quality Saint! Truly scarce in this lofty state of preservation; and clearly excessively RARE any finer.

Bold, vivid, vibrant, billowing cartwheel luster rolls smoothly along essentially flawless surfaces. The absolutely stunning brilliance enlivens the rich, spectacular golden coloration. The devices are sharply struck up with full, crisply rendered details and the surfaces are clean and virtually PRISTINE. The eye appeal is exceptional!

PCGS 120, NGC 216. The most recent examples to sell in auction brought \$12,000 in September 2020 and the PCGS Price Guide value is \$13,500. It is amazing that CAC-approved examples carry a 2.5x premium. This coin is very high end and should sell for a premium over the typical MS67. A great SUPERB GEM for any gold bug.

\$1 1900 LAFAYETTE. PCGS MS65

Only 36,026 Lafayette dollars were struck, the only silver dollar issue in the entire classic commemorative series. Struck to honor the young French Marquis who famously aided the American Revolutionary cause by lobbying the French Royal Family and coming over to the colonies to help organize and lead the Continental Army. This is a richly toned GEM example, lustrous and well struck. Both sides display a dappled, earthy patina with hints of blue in areas. We have looked this coin over and again, and find no serious marks or lines of any kind.

PCGS 309, NGC 186. In the last six months, three examples have sold, ranging from \$3,360 to \$4,000, and the current Collectors Universe value is listed at \$4,750. RARE finer this is a great coin for any Classic Commemorative set.

50C 1924 HUGUENOT. PCGS MS67+

With just five coins ever grading higher, this gorgeous MS67+ is about as high a grade Huguenot half dollar anyone could ever hope to add to their SUPERB set. The surfaces are free of distracting marks. The frosty lustrous surfaces show a satiny sheen that glows through the wonderful, original colorful toning that adorns both obverse and reverse. Shades of blue, gold, and orange toning blends with pastel iridescent toning.

PCGS 25, NGC 11. Just five are finer at PCGS. This is not the coin that sold in April 2020, the only non-CAC PCGS graded MS67+ to sell in auction. The current Collectors Universe value is listed at \$7,250. Just five examples are graded finer, none of which have ever sold in auction. 50C 1946 IOWA. PCGS MS65 GOLD CAC

A lovely GEM Iowa, a marvelous coin encapsulated in a generation 1.1 holder, which was only utilized for a few weeks. A strong frosty luster has a warm underlying satin glow. A touch of peripheral tone is original and pleasing. A rarity thanks to its holder from the earliest days of PCGS' grading and represents one of the most important events in numismatic history--3rd party certification and encapsulation of rare coins.

These white label rattler, generation 1.0 and 1.1 holders are extremely desirable and very rare. This is one of those times you buy the holder (though this coin is also really nice for the grade, and clearly undergraded)! Good luck.

50C 1936 NORFOLK. PCGS MS68 CAC

The Norfolk half dollar has a design that while it lacks in artistic merit, left little free space in the fields for it to become hacked up, that is why there are so many SUPERB survivors. That said, many of them have been stripped of all originality. Sharply struck, this lovely MS68 is a wonderful soft silver with delicate iridescent pastel hues at the periphery. The eye appeal of this satiny GEM is exceptional.

PCGS 215, NGC 117, CAC 89. The most recent example realized \$1,560 and the current CAC CPG value is listed at \$1,600. VERY RARE finer, this SUPERB GEM belongs in a great set.

This GEM Roanoke is housed in a first generation "white" label rattler, another from this small consignment of these VERY RARE early holders. Thickly frosted, sharply struck, and ultra clean surfaces are enhanced by a swirling, bold cartwheel luster. The eye appeal is spectacular for the grade.

We are impressed that this coin remains in its original PCGS encapsulation from 35 years ago. Generation 1.1 holder, which was used prior to the adoption of the green tag. These white label holders are VERY RARE in today's market, most were cracked out and resubmitted for higher grades ages ago. 1C 1850 J-120. RESTRIKE. PCGS PR64 CAC

A lovely, borderline GEM example of this VERY RARE Restrike pattern cent. Representing the first of many efforts to reduce the size of the large cent, these "perforated" cent patterns are VERY POPULAR. The simple design shows CENT and 1850 around a central circle flanked by two eight pointed rosettes on the obverse and U.S.A. ONE TENTH SILVER on the reverse. Struck in billon (an alloy of 90% copper and 10% silver) with a plain edge. Listed as a high Rarity-7+, there are only three graded at PCGS, this one tied for finest.

Deep silver gray patina melds with golden and soft rose hues. The reverse was shattered when this piece was struck. An incredibly charming little example, this coin has a lot to offer the pattern specialist. Housed in an old green tag holder.

PCGS 2, NGC 0, CAC 1. This coin has sold twice in the last six years, most recently for \$5,040, before being CAC approved. The current PCGS Price Guide value is listed at \$6,500. NONE ARE FINER, this is an important opportunity.

10C 1868 J-648. PCGS PR64 BN CAC
Ex Simpson Collection as noted on the insert.

What a neat pattern dime! The design is almost an exact reproduction of the late date large cents (1843-1857). A coronet head of Liberty faces left stars around, 1868 below. The reverse has TEN CENTS in a wreath. Struck in copper with a plain edge, J-648 is a very tough Rarity-6+ pattern. A pale greenish patina graces both sides of this sharply struck near-GEM. The fields are more medallionic in appearance than that of a Proof. The devices look like they were carved with a knife, they are exquisitely sharp and defined. This is a really cool piece!

PCGS 7, NGC 2, CAC 2. This coin has a distinctive look when compared to the PR65 BN CAC piece we sold in July 2018. The current Collectors Universe value is \$3,500 and for such a cool piece we just think that is too cheap! Bid accordingly.

50C 1870 J-994. PCGS PR65 CAC

This is an incredibly RARE Pattern Seated half dollar, struck from the regular Proof dies, in aluminum with a reeded edge. These “off-metal die trials” were struck for collectors and sold in off-metal sets.

Absolutely brilliant with outstanding contrast, this coin has long been off the market and housed in a first generation PCGS encapsulation. Incredibly flashy and reflective, the fields show a bold depth of clarity to the mirrors. The surfaces are devoid of any of the flaws that are often seen on aluminum planchets. Sharply struck with thickly frosted devices that stand out in stark contrast to the fields, giving this GEM a bold CAMEO like appearance.

PCGS 2, NGC 1, CAC 1. This is NOT the coin that sold in January 2004 for \$15,525. The only other example to sell is the PCGS PR66 CAM ex Denali Collection. This is an IMPORTANT opportunity that cannot be taken for granted!

\$1 1870 J-1011. PCGS PR64 RB CAC

Ex The New Millennium Collection, as noted on the insert.

A GORGEOUS Longacre Indian Princess pattern dollar. The design, featuring Lady Liberty seated with an Indian headdress, holding a pole with a Liberty cap, supporting a globe with 13 stars around on the obverse and the Standard Silver reverse with the denomination inside of an agricultural wreath. Struck in copper with a plain edge. This is a VERY RARE low R-7 issue with less than a dozen known. The strike is bold, nearly in high relief. Every detail is razor sharp. More than 50% original RED blends with a mellow violet and azure patina. Both sides show a smattering of very minor carbon spots, attesting to the originality of this GEM, and they have no impact on the outstanding visual allure of this piece.

PCGS 3, NGC 1, CAC 2. The most recent example to sell realized \$21,600 in the 2019 ANA auction, as part of the E. Horatio Morgan Collection. There is just a single RB finer. This lovely coin has been off the market for a decade and will certainly entice strong bidding from the pattern specialist! Good luck.

A gorgeous GEM Liberty Head nickel pattern. Barber's portrait of Liberty surrounded by UNITED STATES OF AMERICA, date below. Reverse has an agricultural wreath surrounding 33 N. 67 C. in two lines, with FIVE above, CENTS below, 7 stars left, 6 stars right. Struck in a nickel alloy with a plain edge, this is a popular Rarity-6- pattern.

Incredible flash is seen in the fields, accenting the sharply struck frosted devices. Housed in an old NGC "fatty" holder, this GEM is fresh and totally original. Some delicate streaks of iridescent toning add to the eye appeal.

PCGS 7, NGC 2, CAC 1. None have sold since 2013, where a CAM example sold for \$4,700. This coin may be the one that sold in the August 1998 Bowers and Merena Rarities Sale, thought it is hard to tell from the black and white photo. While the 1oz 24k Gold Buffalo has been in production since 2006, the Uncirculated Burnished variety was a single year run in 2008. Highly popular with modern, bullion and classic collectors alike due to the esteemed James Earle Fraser design. This coin is unquestionably impeccable, a superb SP70 example.

PCGS 507, NGC 1338. With a Collectors Universe value of \$4000 and average auction prices realized of \$3223, these really appear only occasionally in auction. This is a great opportunity for the gold bug!

DAY 2

THURSDAY MAY 27

THE LARRY SHAPIRO 3CS COLLECTION

The Larry Shapiro Three Cent Silver Collection
If you have attended any major coin show in the last 20 plus years, chances are you have encountered Larry Shapiro. A well known dealer specializing in Morgan and Peace dollars. Less well known is that he has a "secret obsession" with Three Cent Silvers, also known as "trimes". In fact, he has been collecting and dealing in trimes throughout his career. As any of our long time customers are aware, our founder, Laura Sperber, shares this fondness for three cent silvers making Legend Rare Coin Auctions the perfect choice to present this collection. Larry's passion for collecting "these little guys" is apparent in this phenomenal collection. His focus has not just been on the highest grades, but coins with stellar eye appeal. A tough competitor, he relishes the battle for the best. "Most of the time I win what I am after, but sometimes there is another guy or two that also has to have it, and then the fun begins!"

Over the course of this journey, he has bought and sold more than his fair share of three cent silvers, and typically has dozens in stock ranging from blast white, totally original and of course, the mind blowing toners. Naturally,

there are some conflicts when a dealer is also a collector. Most obviously, he is tempted to keep the best coins for himself, which isn't necessarily a benefit to his collector customers, but it surely cuts both ways. As Larry explains, "Much as I have tried, and as many fantastic coins as I have handled, I've never been able to complete my own set. It seems like every time I get close, a good customer begs me to sell something that's really, really not for sale, and I have trouble saying no." At the end of the day, these coins belong in beloved collections. We agree, and like Larry, our bidders have strong affections for intense toners and a soft spot for the trimes.

Take a look at a PCGS Trueview image of a wildly toned three-cent silver on your 27-inch monitor, or in this spectacularly illustrated catalog, and no doubt, you will be as hooked as he is. As Larry says, "So much beautiful color packed into such a small coin!"

We at Legend Rare Coin Auctions hope you enjoy perusing this collection as much as we've enjoyed cataloging it. What a great opportunity for all of us!

LOT 389

3CS 1853 PCGS MS67+ CAC

A sensational SUPERB GEM Mint State example, tied for FINEST seen at PCGS. Boasting a mint fresh look, this coin has eye appeal for days and a technical quality that cannot be beat.

To the naked eye, the frosty silver surfaces are virtually untuned, it is only under close inspection that the blush of totally original gold comes out. Generally well struck from a late die state with the obverse rims crumbling into the lettering. A very

cool die crack impales the numerals of the date which adds character to this very charming, generally pristine example.

PCGS 21, NGC 13, CAC 15. There are a half dozen graded at the top of the population. The most recent example brought \$7,800 November 2020, Prior to that, we sold one for \$10,281 in May 2018. The PCGS Price Guide lists a value of \$10,000.

With none finer, anyone working on the FINEST KNOWN set, needs to have this marvelous coin. Bid accordingly.

PCGS# 667 | EST: \$7,000+

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 390

3CS 1862 PCGS MS67+ CAC

An exceptionally high end, high grade, beautiful **SUPERB GEM** specimen of this important Civil War date. Tied for **FINEST KNOWN**, the eye appeal and technical quality for this 1862 trime are off the charts. Really to call this coin's state of preservation **SUPERB** is an understatement and does it no justice.

The surfaces are **MARVELOUS** in their cleanliness, the only thing you will find, mind you under careful scrutiny with a very strong loupe are a tiny planchet flake (mint made), and some die clashing (also mint made and very common on this denomination). The surfaces have a thick, satiny textured mint frost. The luster glows boldly from below a soft, totally original, sparkling iridescent gold, antique silver, teal, and sky blue tones. The visual allure of this Civil War date is incredible, and it is certainly deserving of its lofty assigned grade. It is a great coin, a prime contender for the **FINEST** of sets, and having helped build many of the finest sets, we have a history with this series!

PCGS 26, NGC 35, CAC 18. There are three graded MS67+ and **NONE FINER**. The only one to sell realized \$30,000 in May 2019 and the current Collectors Universe value is listed at \$30,000. We think this **SUPERB GEM** will bring a price that challenges that level. Good luck.

PCGS# 3680 | EST: \$22,000+

LOT 391

3CS 1863 PCGS MS66+ CAC

Everything about this SUPERB GEM is HIGH END and PQ all the way! Like many of the high grade survivors of this lower mintage Civil War date, only 21,000 were struck, while Chancellorsville, Gettysburg, Vicksburg, Chickamauga, and Chattanooga were being fought.

The fields show a boldly reflective, fully Prooflike reflection on both sides. The casual glance of this GEM, you might think its a Proof. Both sides are deeply toned, showing off

a wonderful blend of colors that come to life in a light, especially on the obverse. The devices are razor sharp and frosty, giving this GEM a nearly Cameo appearance. The eye appeal is simply AMAZING.

PCGS 25, NGC 111, CAC 11. There are three in MS66+ and just six finer. The most recent example sold in our February 2021 Regency Auction, realizing \$8,813. The current Collectors Universe value is listed at \$8,500 and this SUPERB coin will bring a very strong bid when it crosses the block. Good luck!

PCGS# 3682 | EST: \$7,250+

NOTES

LOT 392

3CS 1868 PCGS MS66+ CAC

As anyone who has studied this series knows, the 1868 is a stopper date for the series. The mintage was tiny, with only 3,500 struck, and precious few were saved in high grade. Any Mint State piece is RARE, and are prohibitively so this fine!

The surfaces are incredibly clean and smooth. Even if you are the most persnickety collector, you will find nothing to complain about and you will not be disappointed with the quality; this is true whether you are looking at it with the naked eye, a 5X glass, or something stronger. The luster gleams from below a deep melange of natural toning, a totally original blend of deeper olive, gold, and purple-blue on the obverse and the reverse has a dynamic blend of reddish gold, violet, blue, and green. The reverse has distinct Prooflike reflective tendencies that bring out the boldness of the color. The eye appeal is fabulous!

PCGS 6, NGC 2, CAC 6. There are 2 in MS66+ and just a single MS67+ finer. The last PCGS/CAC examples have sold for around \$30,000 and the MS67+ sold for \$66,000. The current PCGS Price Guide value is listed at \$42,500. If you are working on a world class collection of this obsolete denomination, this is your coin! Do not let it slip passed you! We anticipate very strong bidding for this borderline SUPERB GEM! Good luck.

PCGS# 3688 | EST: \$34,000+

LOT 393

3CS 1870 PCGS MS66+ CAC

An incredible example! An unquestionably high end GEM that borders on the SUPERB category. One of the FINEST graded examples. Only 3,000 three cent silvers were struck for circulation, and there are just three that have graded finer than this coin at PCGS.

The fields are distinctly semi-Prooflike with a bold reflection in the obverse. Both sides display a wonderful mix of deeper tones, a natural blend of slate, olive, and russet that is brought out by a lively underlying luster. This is NOT a dull or drab coin. Sharply struck, every details is crisp and fully rendered. The eye appeal is strong.

PCGS 9, NGC 4, CAC 5. There are just two graded MS66+ and there are just three finer. The PCGS Price Guide value is listed at \$10,000. A PCGS/CAC sold in our December 2018 Regency Auction for \$6,875 and we sold a MS67 CAC for \$27,025 in January 2018. This coin will certainly find itself at a level at or above the PCGS Price. Bound for a SUPERB SET and bidding will be intense. Good luck!

3CS 1860 PCGS PR65+ CAC

An incredible, wonderful, totally ORIGINAL GEM Proof 1860 three cent silver. The eye appeal is exceptional in every way!

Highly reflective watery mirrors are coated by a rich melange of blues, golds, and tangerine-rose that are a delight to behold, especially on the reverse. The surfaces show a few tiny ticks that preclude an even loftier grade, but do not detract from the outstanding visual allure of this impeccably preserved GEM.

Only 1,000 Proofs were struck. PCGS 11, NGC 10, CAC 5. This is the ONLY PR65+ graded at either services, and PCGS has graded just five coins higher. The PCGS Price Guide value is \$7,500 and keep in mind if you can find a PCGS/CAC PR66, it will likely cost into the five figures. This coin seems a good value. Good luck.

3CS 1861 PCGS PR66+ CAC

Among the 10 highest graded GEM Proof examples of this popular Civil War date three cent silver.

Vivid, watery mirrors are a true delight to behold. They are flashy and brilliant, enlivening the richly patinated surfaces.

Azure and peach hues blend with antique silver and pale gold to create an enchanting visual allure. The devices are sharply struck up with complete sharp detail. The surfaces are sleek and ultra clean. The eye appeal is tops.

PCGS 8, NGC 8, CAC 3. This is the ONLY PR66+ at PCGS and there are only six finer. The current PCGS Price Guide value is listed at \$7,500 and this coin is certainly closer to PR67 quality than PR66, and the last PCGS PR67 CAC sold for over \$15,000 nearly five years ago! This marvelous GEM will certainly sell for a strong bid to the specialist collector.

A glowing, watery mirrored GEM Proof. Iridescent blues, pale greens, pale orange, and rose gold comes out when rotated in a light. Sharply struck and frosted devices stand out. The eye appeal is great.

PCGS 21, NGC 17, CAC 10. Only 725 Proofs were struck.

There are just two in PR66+ and just two finer in the non-Cameo designation. Neither PCGS PR66+ has ever sold in auction. The current Collectors Universe value is listed at \$4,000 and keep in mind we sold the most recent PR67 for \$7,344 five years ago! Clearly these high grade pieces are impounded now. Good luck.

A very challenging date and very RARE so fine! Vivid, watery mirrors beam from all over the fields. The surfaces are flashy and icy sleek. Totally original patina graces both obverse and reverse, offering a dappled blending of teal blue and golden hues. The eye appeal is spectacular!

PCGS 30, NGC 27, CAC 9. Only 625 Proofs were struck. We sold the last three examples in auction, ranging from \$7,931 to \$9,988. Clearly the Collectors Universe value of \$6,500 is not accurate. Good luck!

3CS 1871 PCGS PR67

Among the **FINEST** examples extant, and a beautiful **SUPERB GEM** for sure--to say the least! **WOW!**

Blazing, brilliant, watery mirrored fields are beaming with a deep reflection. The flashy reflection bursts forth from below the patriotic toning which shows dappled blues and coppery reds that blend with accents of untuned, original silver. The surfaces are smooth and clean, free of any serious marks or ticks of any kind. The eye appeal is **SUPERB**. We are scratching our heads to see something that would have precluded CAC approval.

PCGS 5, NGC 8. Only 960 Proofs were struck. There has not been a PCGS PR67 sold in six years! Clearly these **RARELY** appear in auction. The current Collectors Universe value is listed at \$9,000. Just three are finer, this is a **SUPERB** coin for a **SUPERB** Registry Set. Bidding will be fierce for sure! Don't let this beauty get away.

LOT 399

3CS 1872 PCGS PR66+ CAM CAC

A magnificent borderline **SUPERB CAMEO GEM** that is among the absolute **FINEST** known examples of this late date three cent silver. This coin is **POP 1** with two finer in the designation (both PR67 CAM).

It is truly hard to imagine a better specimen than the one offered here.

Clearly Larry Shapiro did all the hard work for you in locating this **SPECTACULAR** example.

Deep beaming mirrors have a smooth, flashy, watery texture in the fields.

The surfaces are icy smooth and ultra clean--the definition of **PQ**! Sharply struck devices are thickly frosted and have a rich, creamy white patina. There is a blush of golden amber color that clings to the lower obverse periphery, otherwise this **AMAZING** coin is virtually untuned. A strong glass fails to reveal a single mark worthy of singling out, though we note some mint made lint marks and die polish lines with the aid of a strong glass. The eye appeal is simply stunning!

PCGS 12, NGC 3, CAC 10. Only 950 Proofs were struck. This is the **ONLY** PR66+ CAM graded at either service and only two PR67 CAMs have graded finer. There is a huge spread between PR66 and PR67 in auction prices and the price guide values. The last PCGS PR67 CAM sold in 2015, realizing \$9,400 in our February 2015 auction. We think this coin will bring very close to that amount when the hammer falls, as its quality is so much closer to PR67 CAM than PR66 CAM. Good luck.

Is there a better coin to use to cap off this impressive cabinet of Proof three cent silver pieces than this beautifully toned, PREMIUM QUALITY GEM?

Multicolored, totally original blending of colors from long term storage in an old collection really come to life in the light. The highly reflective fields catch the light and bring out the subtle hues in a vivid and vibrant brilliance. Rich cobalt blue, tangerine-peach, and champagne-gold colors grace the virtually perfect surfaces. The details are fully struck up and have a frosty finish, the obverse is nearly cameo. The eye appeal is exceptional!

PCGS 18, NGC 28, CAC 13. Only 600 Proofs were struck. Only three are graded PR66+ at PCGS and four are graded higher, all PR67. The current Collectors Universe value is listed at \$5,500. Tied with the Simpson coin for second highest graded, the value jumps to \$9,750 in PR67. A great coin worthy of capping off another spectacular collection of these tiny silver coins. Good luck.

WOW! They say lightning never strikes the same place twice, well this coin proves that wrong! WOW!

Another GORGEOUS 1873 trime that is among the FINEST KNOWN of this final date! It is amazing that The Shapiro Collection has two examples of this date in a superb state of preservation.

Incredibly colorful and highly reflective, this Premium Quality GEM has it all! Rich pink and rose hues caress the centers, ringed by purple and blue tones that frame the peripheries. Thick, creamy mint frost covers the sharply struck devices, which contrast wonderfully against the colorfully toned reflective mirrored fields. The eye appeal cannot be beat! This is one of the most beautiful examples we have seen--and you know our (and our sister firm, Legend Numismatics) track record with AMAZING examples of this series.

Only 600 Proofs were struck, and this is a Proof only issue. A hoard of these were auctioned off by Stack's a couple of decades ago, and it is possible that this coin came from that source.

PCGS 15, NGC 11, CAC 12. There are three graded PR66+ CAM and just five graded finer. We sold the ONLY PR66+ CAM to sell in auction, a lovely coin in our March 2019 Regency Auction, which realized \$8,519. THE SOMMELIER COLLECTION

Legend Rare Coin Auctions is honored to offer the exquisite Sommelier Collection of United States Coins. Each coin was meticulously chosen by our consignor, a good friend, lifelong collector, and true connoisseur. If you have been following Legend Auctions, you will remember The Sommelier Collection of Walking Liberty Half Dollars we sold in Regency Auction 28. This installment of type coins is the vintage release you've been eagerly anticipating.

The consignor began collecting from modest roots as a young boy pulling Lincoln Cents from circulation in the 50's, later flowering to silver half dollars. He then took a break from collecting to pursue a B.S. in Petroleum Engineering at the University of Pittsburgh even partially funding his education by the sale of his boyhood collection. The sacrifice paid off leading to the veraison of a successful career, a series of productive oil wells, and

- most importantly – full bodied multi-dimensional coin collections!

Delight your visual palate with the following distinguished highlights; 1793 Large Cent Wreath Vine and Bars in PCGS XF40 CAC, 1795 50c in PCGS AU53 CAC, 1839 \$1 J-104 Restrike in PCGS PR63+, 1854 Type 2 G\$1 in PCGS MS65+ CAC, 1796/5 \$5 in PCGS AU50 CAC, and 1796 \$10 in PCGS AU55 CAC. While diverse, the coins mingle well together for a well-structured and versatile collection. Currently focused on Capped Bust dollars, this Sommelier is still adding to his cellar, but we are pleased to share a tasting with our fellow aficionados.

The Sommelier is drinking in his second career “drilling for wine” in Oregon, we trust you will find The Sommelier Collection delectable, robust, and the perfect blend of quality and value! Let's all raise our glasses and toast the Sommelier, our shared hobby, and the soon-to-be lucky bidders!

LOT 402
1/2C 1793 COHEN-1. PCGS VF35
BN

Ex Missouri Cabinet Collection, as noted on the insert.

A very pleasing late die state example of this highly collectible first year of issue half cent. A perfect “collector grade” specimen. Generally well struck up, with mostly bold definition (some typical weakness is seen in the central reverse). The surfaces are generally very pleasing with a couple of mint made flan flaws noted. There is some minor roughness seen in places, but overall the quality is nice for the issue, which often has heavily corroded surfaces. The color ranges from olive-tan to deeper copper-brown.

The Manley die state 3, featuring a prominent die cud above F AME on the reverse is quite scarce, and Walter Breen noted in his Half Cent Encyclopedia, rarely appears in high grade. While not visible in the PCGS encapsulation, it was noted in the Missouri Cabinet Collection catalog that the edge lettering is blundered, a problem that is often associated with Capped Bust half dollars, where the Castasing machine failed to bring the edge lettering device back to its proper starting position. The result shows the edge reading DOLLATWO HUNDRED FOR A.

PCGS 20, NGC 7. This coin sold as lot 2 in Goldberg’s January 2014 sale of the Missouri Cabinet Collection, earlier ex R. Tettenhorst and James McGuigan. It realized \$13,800. The current Collectors Universe value is \$17,000. This is a wonderful example offering a rare die state that will entice the advanced collector, and of wonderful quality that will appeal to any collector. Good luck!

1/2C 1794 C-5A. SMALL EDGE
LETTERS. PCGS AU55

An early die state of this VERY SCARCE Rarity-4+ die marriage. The striking definition is bold with wonderful depth of detail. To the naked eye, the surfaces are smooth and the coloration is even medium brown. On closer inspection there is a touch of microporosity, which is very common on these early copper pieces especially since the planchet stock was stored in barrels in the humid Philadelphia environment. Overall there is little wear on the highest points and the eye appeal is quite nice.

PCGS 3, NGC 4. The last two AU55s that have sold were both in the January 2014 sale of the Missouri Cabinet Collection (both different die marriages than the current C-5a). We have not been able to locate this one in a previous auction appearance. The current PCGS Price Guide value is listed at \$14,500. Prior to the Missouri Cabinet, the only AU55 sold back in 2005.

PCGS VF25 BN CAC

Here is a very pleasing C-6a, B-6c half cent, struck over a 1794 Talbot, Allum, and Lee cent token. Despite the moderate wear, the undertype is easily visible on the obverse. The wear is even, and generally problem free. We note a few scattered ticks and some very minor verdigris on the reverse, but the overall eye appeal is great for the assigned grade.

PCGS 24, NGC 4, CAC 3. The only CAC-approved VF25 sold back in October 2011, realizing \$2,530. This coin sold more recently, as a non-CAC coin, for \$3,173 in August 2012. The current Collectors Universe value is listed at \$2,400, but this coin will easily surpass that level. Good luck.

PCGS 152, NGC 1, CAC 23. The most recent sold nearly three years ago for \$700 in an internet only auction. The current Collectors Universe value is listed at \$565, and this one could well sell for more. A lovely, affordable, and popular early half cent in a very popular grade.

1/2C 1804 CROSSLET 4. STEMS. PCGS MS63 BN CAC

Lustrous and original, this CHOICE C-10 is a great collector coin! Vivid luster blooms with sweeping cartwheel bloom on both sides. Boldly struck the details are bold on both sides, save for the dentils on the reverse, which lack definition due to the die state. The eye appeal is unmarred by any distracting marks, and we note a single darker toning spot at about 2:00 on the obverse. The eye appeal is great.

PCGS 27, NGC 31, CAC 8. This is more attractive than most examples, and we suggest that this lustrous brown example should be seen in person to really appreciate its eye appeal. The current Collectors Universe value is listed at \$4,150 and the most recent two examples sold for \$3,120 and \$5,040. We know this coin will bring a strong bid. Whether a type or date collector, this coin will certainly tickle your fancy.

All 130,000 half cents were struck from a single pair of dies, Cohen-1. This is a truly spectacular GEM example. Bold luster blooms with swirling cartwheels on satiny smooth surfaces. The strike is exceptionally bold on both sides. The surfaces are very colorful, with a rich medium brown that has highlights of lilac and rose, with ample tinges of original orange-red that pops out when rotated in a light. The eye appeal is spectacular!

PCGS 33, NGC 37, CAC 17. The most recent example sold in our July 2020 Regency Auction for \$1,939. Just eight examples have ever graded higher in the BN designation. This one will bring serious bidders from type collectors, it is very high end!

Only a single die pair was used to strike the entire mintage of 55,358 half cents in 1854. This is a very pleasing, near-GEM example housed in an old green tag holder. Copious ORIGINAL RED color clings around the peripheral devices and in the recesses of the sharply struck design elements. A brilliant luster booms through the mellow violet-brown toning. We note two flecks at the date, noted only for accuracy. The eye appeal is great.

PCGS 82, NGC 52, CAC 24. The current CAC CPG value is listed at \$1,020 and the PCGS Price Guide value is \$975. Recent examples have sold in the \$720 to \$930 range. A great type coin housed in a popular OGH. Good luck.

LOT 409

L1C 1793 WREATH. VINE AND BARS. PCGS XF40 CAC

This is an incredibly high end XF Sheldon-8. We may be somewhat jaded, handling Mint State examples over the years, but when a “perfect” collector grade Wreath cent crosses our desks, we remember how truly special these early coppers are, and how rare they are when they are nice.

This one is better than “nice.” Generally smooth surfaces show some natural planchet flaws on the obverse. These flaws came when the planchet stock was rolled out, and impurities in the metal led to the creation of some minor fissures. These generally blend into the smoothness of the surrounding areas. The medium, milk chocolate brown patina of the surfaces is a delight--there are no signs of corrosion, verdigris, or discoloration anywhere, which commonly plagues these early large cents. The planchet was well centered on the dies in the press, and the strike was bold, with crisp definition on both sides. The eye appeal is exceptional in every way.

Any 1790s-dated coin is a direct tangible link to our country’s founders. When these early large cents were struck, our country was in the midst of the second term of George Washington’s presidency, and the economy was so fledgling that the mint officials had not been able to secure the funds to pay the security bonds that were required by the Coinage Act of 1792 in order to strike silver or gold coins. When we look back over the two and a quarter centuries since, this is a tangible link to a time when the United States was not the economic powerhouse it is now.

PCGS 35, NGC 10, CAC 9. The current Collectors Universe value is \$19,750 and the CAC CPG value is \$21,600. There is a wide range of APRs, which vary with each coin’s individual quality in the grade. We think this really eye appealing coin is worthy of a very strong bid and placement in a fantastic collection.

LOT 410**L1C 1794 S-43. HEAD OF 1794. PCGS XF40**

Ex. Boka Collection, as noted on the insert.

An attractive example of this R-2 variety that ranks in the condition census as tied for 14th finest. Struck from Die State III, this lovely

XF has a die crack that goes from the rim diagonally through 17 and into the hair curls and the reverse has one from the rim through the U in UNITED. Well centered and well struck, the surfaces are generally smooth. Warm chestnut brown, olive, and steel toning is blended evenly on both sides. A strong

glass finds some microscopic roughness in the planchet (some of which is mint made) and some very minor contact from circulation. None of these minor flaws have any impact on the eye appeal. The eye appeal is way above average for the date and grade.

PCGS 126, NGC 81. This coin sold in Heritage's September 2016 sale of the Jon Alan Boka Collection, lot 5328 for \$7,638. Earlier ex Heritage; Heritage's 1993 ANA auction, lot 5912; James L. Moore; Chris Victor McCawley (sold to Jon Boka in January 2005). This attractive example will make a great addition to a type set or variety collection. Good luck.

PCGS XF45

Ex Wurtzbach-Rasmussen-Boka, as noted on the insert.

Right there, that partial, extensive pedigree, shows how important this example of this Rarity-3 die marriage is. But that is just part of the provenance, and just part of what makes this CHOICE XF example important. Tied for 5th Finest in the Census. The S-54 is one of the so-called closed wreath varieties, and they are very difficult to find in high grade. The Del Bland Census lists just 2 in AU and 2 in XF grades.

Medium, generally even brown surfaces have a wonderful look on both sides. Generally well struck, there is a touch of weakness at the right reverse periphery. A late die state has a die crack coming in from the obverse rim at about 9:00 and goes into the hair below Liberty's cap and there are die clashes seen. Some minor traces of contact can be seen, but they don't detract from the great eye appeal of this important coin.

Sharply defined devices identify this S-22. Even, hard, steely brown surfaces do not display any serious marks or environmental factors that often plague these early large cents. We see, under close magnification, some die flow lines on the obverse and a few minor ticks from its brief stay in circulation during the Washington administration. The obverse shows some gloss on the surfaces and the eye appeal is well above average for the issue.

PCGS 66, NGC 26. The current Collectors Universe value is listed at \$12,500 and the most recent examples sold for \$11,100 and \$13,200 in January 2021 and September 2020 respectively. A great EAC type coin, one that will please any specialist collector.

STEMS. PCGS MS64 BN
 Ex Gerrie Collection, as noted on the insert.

An incredible near-GEM example of this early large cent. Though a common variety, listed as Rarity-1, this piece is clearly in the Condition Census, listed in Walter Breen's Large Cent Encyclopedia as #2, and boasts a very impressive provenance, including such large cent luminaries as: Dr. William Sheldon, Dorothy Paschal, John Adams, Dennis Loring, and Ted Naftzger. Right there, you should instantly know how impressive this S-140 is.

Sharply struck from a late die state, Breen's state VII. As noted on the accompanying collector envelope, "Very late dies; heavy swelling and clashing." Breen notes that it has three obverse planchet defects, noted on the envelope as being "cracked and flaking. The surfaces are deeply toned in a dark brown with a brilliant glossiness on both sides. The visual appeal is excellent.

Choice, and we mean CHOICE AU!
 Wonderful surfaces are an even medium brown with reddish accents that are bought out by remnants of original luster. Only the slightest trace of high point friction can be seen on the surfaces, which is all that keeps this coin from a Mint State grade. Tied for CC#7 in the Noyes Census, this piece is well struck from a late state of the dies.

A fantastic example, fully CHOICE and lustrous and boasting a provenance that goes back well over a century! Tied for seventh place in the Breen/Bland census and tied for 10th in the Noyes census, this is an important coin for the early copper collector.

Boldly lustrous steely brown surfaces have a wonderful blush of the palest bluish iridescent hue in the protected areas. The only identifiable "flaws" we see are a couple of mint made planchet flaws, including a pair of flakes at stars 5 and 6. A closer look with a strong glass will find a scattered tick or two, but none that are too distracting. The eye appeal is exceptional overall, what a great type coin!

The classic variety from the famed Randall Hoard, the N-10 is one of the more plentiful examples in high grade, making it PERFECT for type. Wonderful, lustrous surfaces are brilliant, showing off a wealth of ORIGINAL red in the protected areas. The design elements are sharply struck, despite the state of the obverse die, which has a circular die crack that connects all the stars and the date. The surfaces are undisturbed by any serious marks or flecks, and the eye appeal is exceptional for this popular large cent.

PCGS 90, NGC 13, CAC 9. The current PCGS Price Guide is \$1,150 and the CAC CPG value is \$1,220. We love the look of this one, and believe that once viewed, it will see bidding easily surpass the published guide values.

The amount of luster on this N-13 is INSANE! Honestly this PQ GEM has the rolling cartwheel brilliance of an 1880-S Morgan dollar! WOW! Even, rich brown surfaces have a delicate overcast of steely blue that is brought out by the luster. Sharply struck on both sides, the surfaces are about as close to perfection as you could hope to find on this Randall Hoard issue. We note a couple of the most insignificant ticks, seen only with the aid of a strong glass and intense scrutiny. The eye appeal is SUPERB!

This is the FINEST N-12 graded in the BN category at PCGS, Pop 1, none finer. This is a very impressive example with ample, original mint red color that clings to the protected areas of the design types. The surfaces are mellowing, with soft violet tone over the classic, light brown patina. The design elements are struck crisply on both obverse and reverse. Finer than the Twin Leaf and Naftzger coins, this is an important coin for the advanced EAC collector.

PCGS 17, NGC 18, CAC 9. There are three APRs for PCGS/CAC examples ranging from \$1,560 for the extensively pedigreed ESM N-10 (August 2020) to \$4,994 for the Naftzger-Cardinal N-10 in January 2019. This coin is a scarcer (Rarity-3) variety, and much nicer with much more RED than those two. The current PCGS Price Guide value is listed at \$3,650 and we think this coin will surpass that level when the hammer finally falls. Clearly, like this collection's name implies, this is a coin for the connoisseur. It will fit right at home in any WORLD CLASS large cent collection.

L1C 1855 UPRIGHT 55. PCGS MS64 RD

Lustrous, original RED surfaces are just beginning to fade, but the color is complete. Some minor ticks and flecks are noted, but they do not detract from a strong eye appeal.

PCGS 86, NGC 50. The most recent example to sell realized \$900 in February 2020, and before that, one sold in June 2017 for \$1,645. The current PCGS Price Guide value is \$1,800. A great type coin with a very pleasing look.

PCGS# 1909 | EST: \$900+

LOT 441

L1C 1856 SLANTED 5. PCGS MS65 RB CAC

A lovely N-14, a GEM example with a ton of original RED color. Mellowing to a violet tinged brown, the surfaces are of exceptional quality, free of any carbon and are essentially mark free. The eye appeal is excellent.

PCGS 26, NGC 14, CAC 12. The APRs are all over the place. But the current CAC CPG value is \$1,280 and the PCGS Price Guide value is \$1,650. RARE finer in the RB category, this CAC GEM has a great look and will delight any large cent collector.

PCGS# 1923 | EST: \$1,200+

LOT 442

L1C 1857 SMALL DATE. PCGS MS65 BN CAC

Tied for FINEST in the BN category at PCGS, this N-2 is quite nice for the final year of the large cent series. Accents of original mint red color grace the brown and rose tinged surfaces. Well struck, this GEM has a great look and clean surfaces.

PCGS 8, NGC 13, CAC 6. The most recent example sold in our June 2019 Regency Auction for \$2,820. The current PCGS Price Guide is \$3,200 and the CAC CPG is \$3,250. NONE are finer in BN, this is a great looking GEM for the collector.

PCGS# 1931 | EST: \$2,500+

LOT 443

1C 1858 LARGE LETTERS. PCGS MS65 CAC

A very attractive, original, GEM quality Flying Eagle cent. Incredible colorful surfaces are a delight to behold with a warm, glowing, satiny sheen. Generally well struck devices stand out boldly. The surfaces are devoid of all but the most minute ticks, none of which impact the amazing visual quality of this GEM. Taking a close look at this coin with a powerful glass you will see bold doubling on the 58 in the date.

PCGS 197, NGC 133, CAC 50. The most recent sold in February 2021 for \$3,960 and the current CAC CPG value is listed at \$3,620. VERY SCARCE finer, despite a mintage of 24.6 million. Good luck.

PCGS# 2019 | EST: \$3,000+

LOT 444

1C 1863 PCGS MS65+ CAC

A gorgeous, sharply struck GEM from this important Civil War year. Brilliantly lustrous golden-tan coloration. The reverse die was shattered when this beauty was struck, two large die cracks that probably would turn into major die breaks on later strikes. The surfaces are extremely clean and free of all but the tiniest ticks. The eye appeal is great.

PCGS 335, NGC 233, CAC 92. There are 14 in MS65+. The last one sold for \$1,880 over six years ago. Civil War coinage in GEM grade is always very popular, rare finer. Bidding will be fierce for this.

PCGS# 2067 | EST: \$1,250+

LOT 445

1C 1903 PCGS PR66+ RD CAC

Incredible color and brilliance! WOW! This is an AMAZING RED Proof Indian cent with a bold flashy, reflection. Struck from a later state of the dies, the mirrors are brilliant and nearly of SUPERB quality, but they are somewhat shallow and have a cartwheel brilliance that comes to life in the light. Sharply struck and nearly flawless.

PCGS 41, NGC 18, CAC 8. There are half a dozen PR66+ RDs graded but none have sold. This coin has been off the market since 2001, when it sold as part of the Joshua Collection as a PCGS PR66 RD for \$3,220. That was two decades ago! Keep in mind that the PCGS Price Guide value in PR67 RD is \$8,500. An exceptional coin that will bring a strong bid! Good luck.

PCGS# 2398 | EST: \$3,000+

LOT 446

1C 1909 VDB. LINCOLN. PCGS MS66 RD CAC

Blazing red surfaces beam with a shimmering GEM brilliance. Sharply struck up with FULL definition on both sides. A strong glass fails to reveal anything more than a tiny tick or two, well hidden, and out of the way as to not impact the visual allure, which is EXCELLENT.

PCGS 2756, NGC 1376, CAC 347. The current CAC CPG value is \$455 and this nearly SUPERB GEM will bring a strong bid!

PCGS# 2425 | EST: \$300+

LOT 447

1C 1910 PCGS PR65 RB CAC

Mellow red color melds with light iridescent toning, particularly on the reverse on this GEM RB Matte Proof cent. A gleaming, satiny brilliance enlivens the surfaces, bringing out the depth of the strike and the subtle shades in the toning. The eye appeal is excellent!

PCGS 74, NGC 44, CAC 27. The most recent one sold for \$990 in October 2020. The CAC CPG value is \$1,090 and the PCGS Price Guide value is listed at \$1,200. A totally original GEM that will delight any one working on this short, ever popular set.

PCGS# 3307 | EST: \$900+

LOT 448

2C 1864 LARGE MOTTO. PCGS MS65+ RD CAC

This is a wonderfully lustrous GEM example with a bold, brilliance and rich golden red coloration. Sharply struck devices stand out and the eye appeal is great; there are no flecks, discolorations, or any marks of consequence on either side.

PCGS 297, NGC 119, CAC 60. There are 11 in MS65+ RED, and the last one sold in our December 2018 Final Premier Session, realizing \$1,073. Today, the market is stronger and the PCGS Price Guide value is listed at \$1,600. A great example for the type or date collector.

PCGS# 3578 | EST: \$1,000+

LOT 449

2C 1865 PCGS MS66 BN CAC

With just a single MS66+ BN graded finer at PCGS for finest in the designation, this is a great coin for the Civil War collector. Flashy semi-Prooflike reflective luster booms all over the icy smooth surfaces. The devices are sharply struck up with crisp definition. Ample orange-golden red blends with iridescent hues and soft brown patina. The eye appeal is amazing.

PCGS 10, NGC 21, CAC 12. There has not been a PCGS/CAC coin sold in auction since September 2017, where one sold for \$900--before that no PCGS MS66 BN sold in auction since April 2007. These are indeed quite scarce. Bid accordingly.

PCGS# 3582 | EST: \$1,000+

LOT 450

2C 1867 PCGS MS65 RB CAC

A wonderful GEM example, which features way more red than any other color. A few minor flecks are found around the sharply struck devices. Housed in an old green tag holder, this GEM has a great look.

PCGS 88, NGC 77, CAC 37. The current CAC CPG value is listed at \$845, and the PCGS Price Guide value is \$750. Fewer than 20 are graded higher in the RB designation. A lovely, original GEM.

PCGS# 3592 | EST: \$650+

LOT 451

2C 1873 CLOSED 3. PCGS PR66 RB CAC

Flashy and colorful! WOW! This coin has a spectacular look!

Incredibly watery reflective fields catch the light at the right angle and the colors really POP! A wealth of underlying red has splashes of violet and blue that float on the surfaces. The strike is incredibly bold and the surfaces clean, devoid of any serious marks, lines, or any flaws that would impact the outstanding visual allure of this GEM.

Only 600 Proofs were struck. PCGS 33, NGC 40, CAC 19. The most recent PCGS/CAC sold in the March 2017 sale of the Blue Moon Collection, where it realized \$9,400. The current Collectors Universe value is \$6,500 and note we sold a PCGS PR66+ RB CAC sold in our August 2020 Regency Auction for \$12,925. This GEM is an excellent capstone to this short lived, obsolete denomination set.

PCGS# 3652 | EST: \$6,000+

LOT 452

3CS 1853 PCGS MS67 CAC

A magnificent early "trime"! Everything about this SUPERB GEM is awesome and it is one of the FINEST specimens extant. A wirling luster that combines a bold cartwheeling effect over a frosty surface. Save for a touch of champagne toning, the coin is untuned. The exceptional strike is crisp and all the details boldly defined. This coin is really world-class and we really love the look!

Our sister firm, Legend Numismatics, has built the top three sets of 3CS on the PCGS Registry, so we know how each date comes, having handled the top known specimens, and this is an old friend of ours, last selling in our December 2016 Premier Session.

PCGS 15, NGC 12, CAC 15. This coin brought \$4,510 in the above mentioned auction, which is about the PCGS Price Guide value of \$4,500. We expect this SUPERB GEM will fit right into any great type set or world class cabinet of this obsolete denomination.

PCGS# 3667 | EST: \$4,000+

LOT 453

3CS 1862 PCGS MS67 CAC

An incredible survivor from this important Civil War year. Thickly frosted and boldly lustrous with gleaming, beaming shimmering silvery brilliance. The surfaces are flawless! Indeed, the only thing we see are the mint made die clashing that is bold on both sides. The devices are remarkably well struck, and the eye appeal is excellent in every way.

PCGS 23, NGC 31, CAC 18. The average APR for the last 10 PCGS/CAC examples to sell in auction is \$4,034, which is higher than the published prices in the PCGS and CAC Price Guides. We anticipate this coin, with its great look will sell for a very strong bid. There are just a trio graded MS67+ finer, and the value jumps to \$30,000! This tiny jewel seems to hold a lot of value in comparison! Good luck.

PCGS# 3680 | EST: \$3,000+

LOT 455

3CN 1883 PCGS PR67 CAM CAC

Intense mirrored reflection beams from all over this SUPERB three cent nickel Proof. Bold contrast is seen between the frosted devices and highly flashy mirrored reflective fields. The surfaces are the epitome of cleanliness and are superior to the vast majority of examples we see in the market. The eye appeal is great.

PCGS 47, NGC 22, CAC 41. The last one sold for \$960 in August 2019. The PCGS Price Guide value is \$1,250 and the CAC CPG is nearly identical at \$1,220. VERY RARE finer with just 15 graded higher.

PCGS# 83779 | EST: \$900+

LOT 454

3CN 1874 PCGS PR66 CAM CAC

A sublime GEM Cameo Proof. One of the finer examples graded at PCGS in the designation, this untuned 3 cent nickel has a bold mirrored reflection in the fields and a nice frost on the devices, creating a stark contrast. The fields are flashy and show heavy die polish lines on the obverse. The eye appeal is awesome.

Only 700 Proofs were struck. PCGS 35, NGC 31, CAC 28. We sold one in October 2018 for \$1,155 and the current Collectors Universe value is listed at \$1,250. This coin has been off the market for over eight years, and is housed in an older generation PCGS blue tag holder. Only 7 are finer in the CAM designation. Good luck.

PCGS# 83770 | EST: \$900+

LOT 456

3CN 1888 PCGS PR67 CAM CAC

Incredible quality! An impressive SUPERB GEM three cent nickel Proof. Full cameo contrast between the deeply reflective fields and wonderfully frosted devices. The surfaces are nearly flawless with an intense brilliance, the eye appeal is amazing.

PCGS 20, NGC 16, CAC 24. There are just five graded finer at PCGS, all PR67+ CAM. The last one sold in November 2019 for \$1,560 and one sold in October 2019 for \$1,800. The current PCGS Price Guide is \$1,500 and the CAC CPG is \$1,560. A strong bid will be required to take this beautiful SUPERB GEM home.

PCGS# 83785 | EST: \$1,300+

LOT 457

5C 1866 RAYS. PCGS PR65 CAC

A lovely, high end GEM example of this first year of issue. Delicately toned over strong, nickel flashy brilliance in the fields. Totally original, this example has boldly struck devices and glassy smooth fields. The eye appeal is great.

PCGS 88, NGC 57, CAC 13. Only 600 Proofs were struck. The most recent example sold for \$2,400 in March 2021 and this one sold for \$2,880 in the 2018 FUN Auction. The PCGS and CAC Price guides are between those two APRs, \$2,600 and \$2,750 respectively. This is a high end beauty that will delight the collector of Proof Shield nickels or type coins.

PCGS# 3817 | EST: \$2,200+

LOT 458

5C 1880 PCGS PR67 CAM CAC

Exceptionally PQ! Clearly this SUPERB GEM is above average quality for the assigned grade with a true contrast, you do not have to use your imagination to see it. Flashy mirrored fields are smooth and icy, standing out against the sharply struck frosted devices. The eye appeal is great.

PCGS 26, NGC 23, CAC 12. We sold the most recent example in our September 2019 Regency Auction for \$2,585 and the one before that sold for \$2,880. Clearly published prices are no accurate for PCGS/CAC coins. VERY RARE finer, we anticipate very strong bidding when this highly contrasted SUPERB GEM crosses the block.

PCGS# 383835 | EST: \$2,000+

LOT 459

5C 1883 NO CENTS. PCGS PR66 DCAM CAC

A borderline SUPERB DCAM GEM No Cents nickel. The fields are intensely reflective and brilliant, with bold, deep, clarity that contrasts boldly against the thickly frosted reliefs. A delicate blush of iridescent toning attests to the originality of the surfaces. The eye appeal is stupendous!

PCGS 8, NGC 6, CAC 8. This is the most recent PCGS/CAC example to sell in auction, realizing \$4,230 back in our February 2015 Regency Auction XI, lot 60. The current PCGS Price Guide value is listed at \$3,700. Just five have graded finer in the DCAM category. Bid accordingly.

PCGS# 93878 | EST: \$3,000+

LOT 460

5C 1909 PCGS PR67+ CAM CAC

A STUNNING SUPERB GEM! Insanely vivid, flashy mirrors have a bold depth of clarity and the reflection beams from all over. Intense CAMEO contrast borders on DCAM on the obverse with ultra thick mint frost on the devices contrasting boldly against the the deeply mirrored fields. The eye appeal is truly SUPERB!

PCGS 59, NGC 31, CAC 41. PCGS has graded 23 in PR67+ CAM and six finer. We sold one of these in May 2020 for \$3,878 as part of the Ogden Avenue Ladies Collection. This one is nicer! The current Collectors Universe value is listed at \$5,000. In PR68 CAM, these are worth over \$22,000; this beautiful example will see very strong bidding when it crosses the block. Good luck if you are building a world class set.

PCGS# 83907 | EST: \$3,200+

LOT 461

5C 1913 TYPE 1. PCGS MS65 CAC

A pastel Easter egg toning adorns both sides of this GEM, original first year of issue Buffalo nickel. Nicely struck and offering a frosty glow, this coin has the eye appeal of a much higher grade.

PCGS 4134, NGC 2781, CAC 198. This is one of those coins you just have to let your heart guide your bidding, it is that nice. Don't bother consulting APRs or Price Guides. It will realize a very strong bid.

PCGS# 3915 | EST: \$150+

LOT 462

5C 1913 TYPE 1. PCGS MS66 CAC

Here is another BEAUTIFULLY toned GEM Type 1 Buffalo. Like the MS65 offered in this collection, the pastel iridescent color is wonderful and is brought out by a glowing mint luster. WOW!

PCGS 2260, NGC 1481, CAC 339. Go with your gut on this one, its eye appeal is very high end and it will appeal to anyone working on a GEM toned set. The APRs and published levels will not help, the bidding will be intense.

PCGS# 3915 | EST: \$250+

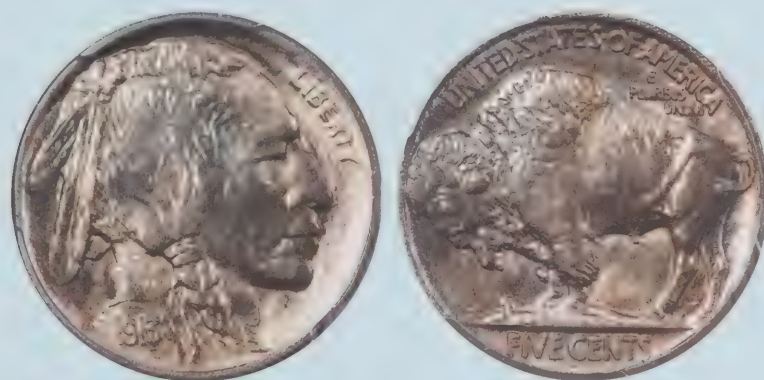

LOT 463

5C 1913-D TYPE 1. PCGS MS66 CAC

An unimpeachable Premium GEM Type 1 nickel. Sharply impressed from an exacting blow from the dies, this totally original 13-D has full definition in the design elements that are enlivened by a bold satiny luster. The surfaces have a totally original look. Housed in an old green tag holder.

PCGS 482, NGC 179, CAC 137. The CAC CPG lists a value of \$684 and the PCGS Price Guide value is listed at \$600. The most recent example brought \$564 in April 2021. This GEM is fresh, housed in an old holder and has a great look that will inspire strong bidding.

PCGS# 3916 | EST: \$550+

LOT 464

5C 1913 TYPE 2. PCGS MS65 CAC

A lovely, satiny GEM of the first order. Brilliant frosted surfaces grace both sides of this well struck and nicely preserved example.

PCGS 705, NGC 348, CAC 62. The most recent example sold for \$312 in September and March 2019. The current CAC CPG value is \$377 and we think this fresh GEM will fetch a strong bid.

PCGS# 3921 | EST: \$300+

LOT 465

5C 1916 PCGS MS65+ CAC

A truly delightful GEM. We love the look of this coin and would not have flinched if it was in an MS66 holder (no guarantees). The luster is satiny and brilliant with a soft pewter-silver iridescent sheen that is wonderful. The strike is bold throughout and the surfaces are of excellent quality and preservation.

PCGS 664, NGC 321, CAC 63. PCGS has graded eight in MS65, and the only one to sell in auction realized \$330 in September 2017. While the current Collectors Universe value is listed at \$350, we think this one deserves to be valued higher, its eye appeal and technical quality justify it.

PCGS# 3930 | EST: \$350+

LOT 466

5C 1919 PCGS MS65 CAC

Brilliant and shimmering this is the definition of a GEM Buffalo nickel. The surfaces have a strong satiny luster. Just the most delicate trace of golden iridescent tone can be seen when the coin is rotated in a light. Sharply struck, the eye appeal is great.

PCGS 511, NGC 195, CAC 44. The most recent example sold for \$500 and in May 2020, we sold one for \$940. The CAC CPG value is listed at \$507. We expect this GEM will bring a strong bid when the hammer falls.

PCGS# 3941 | EST: \$500+

LOT 467

5C 1935 PCGS MS66 CAC

Bold luster highlights the steely blue patina. Uber GEM quality surfaces accent the bold strike. The eye appeal is wonderful.

PCGS 793, NGC 407, CAC 85. The last one sold for \$180 and the current CAC CPG value is listed at \$208. This one will bring more.

PCGS# 3974 | EST: \$175+

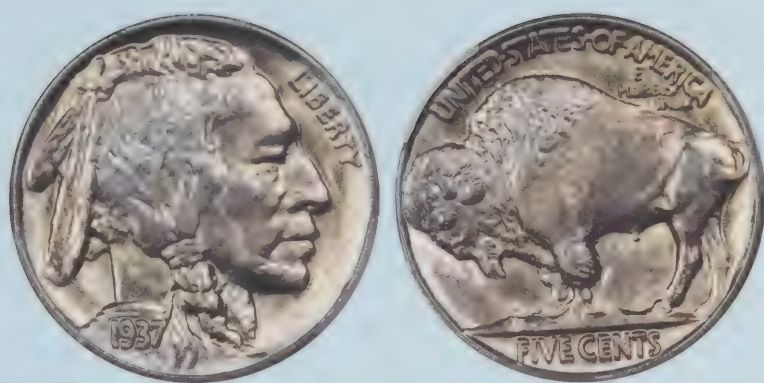

LOT 468

5C 1936-S PCGS MS66 CAC

Incredibly flashy luster gives off an ultra strong brilliance in the fields, surrounding the sharply struck design. The fields have a somewhat reflective flash. Icy and chrome like, this GEM has a stunning look for the assigned grade. Housed in an old green tag holder.

PCGS 860, NGC 457, CAC 75. Again, don't let the population figures fool you, the last PCGS/CAC example sold four years ago. The average of the last 10 is \$264 and the CAC CPG value is \$247. Scarce finer. Good luck.

PCGS# 3979 | EST: \$250+

LOT 469

5C 1937 PCGS MS67 CAC

A delectable SUPERB GEM example. High end in every way. Silvery lustrous surfaces are a delight to behold and virtually untuned. Well struck and pristine, this coin is very visually alluring.

PCGS 565, NGC 565, CAC 169. The CAC CPG value is listed at \$299 and this one should bring a strong bid when the hammer falls.

PCGS# 3980 | EST: \$300+

LOT 470

5C 1938-D BUFFALO. PCGS MS66 CAC

A very attractive GEM! Everything about this coin is special and high end for the assigned grade: sharply struck, lustrous, and original.

PCGS and NGC combined have graded over 57,000 examples in MS66, only 524 have been endorsed by CAC. This highly attractive example will bring more than the published prices. It is that nice!

PCGS# 3984 | EST: \$100+

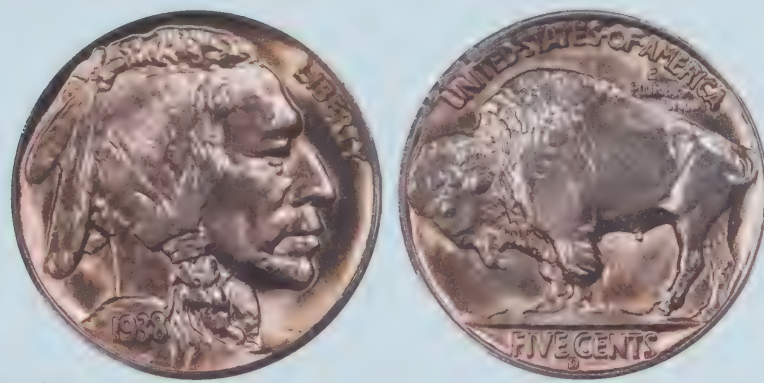

LOT 471

5C 1938-D BUFFALO. PCGS MS66 CAC

A beautifully lustrous PQ GEM housed in an old green tag holder. Nearly SUPERB, this one has a great look, bold strike, and vibrant luster.

PCGS and NGC combined have graded over 57,000 examples in MS66, only 524 have been endorsed by CAC. This highly attractive example will bring more than the published prices. It is that nice!

5C 1938-D/S BUFFALO. PCGS MS66 CAC

Inspiring luster blooms vividly in the GEM quality fields. The strike is sharp and there is a blush of iridescent toning. The underlying S is seen with a glass under the D.

PCGS 2078, NGC 971, CAC 175. Don't let the population fool you, only 10 PCGS/CAC coins have sold going back to November 2016 and the average APR is \$238. The current CAC CPG value is \$292. A lovely GEM.

PCGS# 3985 | EST: \$250+

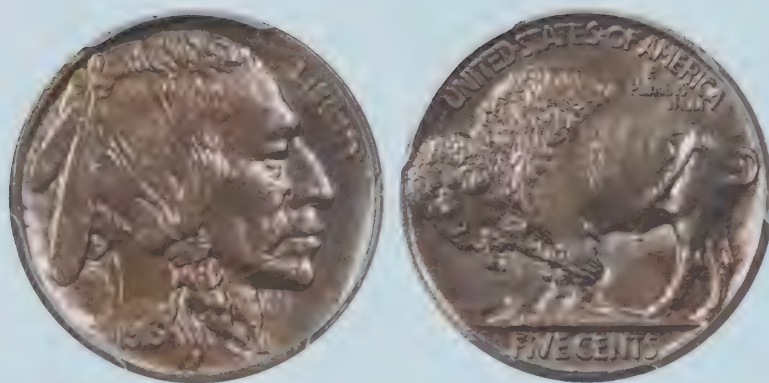

LOT 473

5C 1913 TYPE 1. PCGS PR66 CAC

Frosty matte surfaces are satiny smooth and virtually without flaw. There are zero imperfections seen with the naked eye, and that quality holds up to intense scrutiny. Soft pewter-gray silver surfaces display soft iridescent toning. What a great way to start a set of GEM Proof Buffalo nickels.

PCGS 142, NGC 98, CAC 45. The current PCGS Price Guide value is listed at \$4,500 and the CAC CPG value is listed at \$4,880. The last PCGS/CAC coin sold in June 2019 and the average APR for a PCGS/CAC coin is over \$4,200. Bid accordingly.

PCGS# 3988 | EST: \$3,500+

LOT 474

5C 1913 TYPE 2. PCGS PR66 CAC

This is an old friend, having been sold in our Regency Auction XIV, lot 233, where it was described as:

“Handsome teal and gold tinges dance over the reflective surfaces. Free of specks and a coin of splendid quality. First year of issue, but the second type style where the bison is now standing on a more defined patch of ground. Scarce this nice!”

PCGS 118, NGC 74, CAC 34. The most recent example sold for \$2,640 in October 2020. The current CAC CPG value is listed at \$2,560 and the Collectors Universe value is \$2,500. This is a really nice 1913 Type 2 and a coin that will delight anyone working on a set of Proof Buffalo nickels.

PCGS# 3990 | EST: \$2,000+

LOT 475

5C 1914 PCGS PR67 CAC

A gorgeous, pristine SUPERB GEM 1914 Proof nickel housed in an old green tag holder. Exceptionally well struck, all the details are crisp and sharp which stand out against the satiny Proof surfaces. A delicate blush of tone can be seen in a light, but this CAC-approved beauty would fit into an untuned set.

PCGS 96, NGC 66, CAC 54. The latest example to sell realized \$4,800 in March 2021 and prior to that, one fetched \$5,520 in October 2020. The current CAC CPG value is \$5,000 and this old holdered example could easily bring that. RARE finer.

PCGS# 3991 | EST: \$4,000+

LOT 476

5C 1915 PCGS PR66 CAC

A delicately toned GEM example that is Premium Quality personified! Sharply struck devices stand out nicely against the matte surfaces. A soft golden and pastel rose tone glitters in a light when viewed in a light. Every detail is crisply rendered, and the eye appeal is very high end.

PCGS 160, NGC 94, CAC 49. The last PCGS/CAC example brought \$2,640 in March 2020 and both PCGS and the CAC Price Guides are listed at \$2,750. These Matte Proof Buffaloes are one of our favorite short series and demand is always strong for attractive examples. Bid accordingly.

PCGS# 3992 | EST: \$2,400+

LOT 477

5C 1916 PCGS PR66+ CAC

The final issue of the Matte Proof Buffalo nickels and the last year any Proofs were struck for collectors for 20 years. The present coin borders on the SUPERB classification and is beautiful in this lofty state of preservation. The most delicate of pastel iridescent toning can be seen on both sides. Frosty with razor sharp details, the eye appeal is exquisite!

PCGS 112, NGC 51, CAC 24. Only 600 Proofs were struck. PCGS has graded a mere 6 in PR66+ and this date is indeed very scarce finer. The only PR66+ sold for \$4,700 in our May 2017 Regency Auction. Today the Collectors Universe value is listed at \$6,250 and keep in mind a marginally finer PR67 CAC will have a price tag approaching five figures. Good luck.

5C 1936 BRILLIANT. PCGS PR67+ CAC

We really LOVE this SUPERB GEM. It's closer to PR68 than PR 67!!!

Deep and watery like mirrors roll around all over this coin. We actually love twirling it over and over. There are NO problems anywhere. The intensity of the mirrors show off some faint gold colors. Every detail is pinpoint sharp in strike. The eye appeal is terrific!

PCGS 179, NGC 99, CAC 100. PCGS has graded 66 in PR67+. The last PCGS CAC piece to sell in auction brought \$4,080 January 2021. In PR68 these are \$12,500 or so-IF you can find one. This coin is ever so close to PR68!

PCGS# 3995 | EST: \$3,500+

LOT 478

5C 1936 SATIN. PCGS PR67+ CAC

A truly GLORIOUS SUPERB GEM Satin Proof nickel! WOW! Flashy and lustrous, the surfaces are pristine and untuned, brilliantly silver and wonderfully preserved. The devices are sharply impressed. The eye appeal is fantastic!

PCGS 337, NGC 139, CAC 115. PCGS has graded 35 in PR67+. We sold the most recent example, which realized \$3,525 in February 2021. We delight in this SUPERB GEM and think it should bring a strong bid.

PCGS# 3994 | EST: \$2,000+

LOT 480

5C 1937 PCGS PR67+ CAC

AMAZING quality, completely worthy of its PCGS grade and CAC approval! Flashy, stunningly brilliant mirrored reflective fields give this SUPERB GEM a great, very high end look. The surfaces are pristine and the eye appeal is exceptional.

PCGS 610, NGC 357, CAC 294. There are 94 graded PR67+ (no doubt inclusive of duplications). The most recent example to sell was the Bob Simpson coin, not CAC and sold in February 2021 for \$3,360. The current Collectors Universe value is \$2,500 and this SUPERB example will see strong, spirited bidding.

PQ and FLASHY! Brilliant and reflective, this GEM offers essentially flawless surfaces. The eye appeal and technical quality is SUPERB.

PCGS 1734, NGC 1178, CAC 100. The current PCGS Price Guide value is listed at \$150. Worthy of a very strong bid.

PCGS# 4180 | EST: \$125+

LOT 482

H10C 1800 LIBEKTY. PCGS XF40 CAC

LM-3. One of the great Red Book varieties of the Draped Bust half dime series. This die was prepared with a broken R punch, so rather than read as LIBERTY, it reads as LIBEKTY.

This is an impressive old album toned example in a wonderful collector grade. Clearly this coin was lovingly stored in an old Wayne Raymond or Library of Coins album where it was able to acquire beautiful tones that are concentrated in a concentric pattern on both sides. The strike is generally bold, especially toward the centers, some of the peripheral denticulation is soft on the obverse. The wear is even and light and problem free, there are no distracting marks of consequence to be seen. This piece does not appear to match any certified examples sold. It could have been sold raw until now.

PCGS 8, NGC 2, CAC 2. No CAC approved example has sold in auction, the most recent examples have sold between \$3,840 and \$4,700. The current PCGS Price Guide value is listed at \$5,000 and the CAC CPG value is \$6,120. Scarce and popular, many survivors are damaged and otherwise not gradeable! This is a wonderful collector grade piece that will delight any collector. Good luck to you, the bidding will surpass previous records for the grade.

A wonderful, totally original GEM LM-1. Teal-blue and delicate violet surround amber-rose in the center of the obverse and tangerine in the center. The luster brings out the boldness of the toning, imparting a sensational visual allure. The devices are crisp and boldly struck with sharply defined details. A classic, old time collection look that will delight any collector.

PCGS 43, NGC 57, CAC 15. The last one sold in November 2020 for \$2,880 and in October 2020, one sold for \$2,760. The CAC CPG and PCGS Price Guides are very close, \$2,880 and \$2,850 respectively. With its great look, this GEM will bring a strong bid when the hammer falls. Good luck.

This is the SOLE FINEST circulated example graded by either grading service. Just the faintest trace of friction can be found, barely evidence of any time in commercial channels. Clearly stored in an ancient Wayte Raymond holder, the peripheries have a wonderful rich patina. The details are wonderfully impressed with full, crisp definition on both sides and there are no serious marks or contact to be found with the unaided eye.

PCGS 91, NGC 118, CAC 14. The PCGS Price Guide value is \$625, but the Everyman set coins always bring strong bids. We would not be surprised if this GEM AU saw very active bidding when it crosses the block.

This is a "GEM" AU JR-2, and it has a MONSTER, multicolored look.

Highly lustrous, there are very distinct claims to a full Mint State grade. It is only under magnification that the barest trace of circulation can be found. We believe this coin would have been described as Brilliant Uncirculated in the days before 3rd party grading. Vivid, multicolored album toning frames brilliant silvery centers on both sides. This coin has a stunning look for the issue, regardless of grade--certainly the nicest AU example we have seen.

PCGS 29, NGC 28, CAC 6. There are three in AU58+ and this coin sold for \$6,463 in October 2016 (a weaker market). The current CAC CPG value in AU58 is \$6,310 and \$6,940 in MS60. A SUPERB coin for an "Everyman" type set or date set of early dimes. Prepare for fierce bidding!

We love it when old friends come back! We had the pleasure of selling this really flashy and CHOICE Capped Bust dime in our October 2017 Regency Auction, when it was described in lot 171 as:

“Very high end quality! A beautiful, semi-prooflike JR-2. The fields are flashy and somewhat mirror-like on the obverse, while the reverse is a much frostier. Pleasing toning is relegated to the peripheries, framing the sharply struck devices. A few teeny lines can be seen under magnification, but they do not detract from the wonderful eye appeal.”

PCGS 3, NGC 0, CAC 2. This coin sold for \$3,173 in the above mentioned sale and the current Price Guides are \$3,350 and \$3,880 (PCGS and CAC CPG respectively). Less than a dozen are graded finer. A great type coin!

10C 1840 NO DRAPERY. PCGS MS65

This is one of those coins that will burn its impression in your mind and you won't be able to forget it! Its visual allure is truly spectacular. A strong, beaming luster radiates all over. Both sides are awash in a classic aqua-teal and cobalt blue tone with dazzling tangerine-gold in the centers. Every detail is sharply struck up from a late obverse die state. There is a major crack from the rim to the left of the date, riding up into the shield and there are a number of tiny rim cud along the periphery. The eye appeal is excellent.

PCGS 7, NGC 11. The most recent example to sell was CAC approved and realized \$4,465 in our November 2018 Regency Auction. The current PCGS Price Guide value is listed at \$4,000. This one has such a great look, we think it will sell for a very strong bid. Don't let this colorful GEM get away.

The obverse die was broken when this one was struck, the bold bisecting die crack is seen on that side. Just a hint of friction on the highest points. The eye appeal is neat.

PCGS 29, NGC 16, CAC 6. This is a great coin for an Everyman Registry set, as there are none in AU58+. Selling for \$1,175 in January 2017, this coin will sell for more than the published levels. Good luck.

LOT 495

20C 1876 PCGS MS65 CAC

A truly distinctive, gloriously Prooflike GEM!

Care was taken in preparation of the dies for circulation strike coinage during the centennial year and the result is that many coins from this year show flashy, reflective lustrous surfaces. This coin has nearly full Proof surfaces, wonderfully watery and flashy with bold mirrored luster. A delicate blush of golden russet toning clings to the periphery, framing the sharply struck, full and thickly frosted devices. The eye appeal has a nearly Cameo contrast. There is a small patch of contact to the right of Liberty's leg which is all that keeps this gorgeous coin from obtaining an even loftier GEM grade. We LOVE the look of this coin and with a mintage of under 15,000 it is much rarer than its more common 75-S counterpart.

PCGS 35, NGC 36, CAC 8. There has not been a PCGS MS65 CAC sold since the Douglas Kaselitz Collection sale (Stack's Bowers, July 2015), which realized \$5,581. This one is more attractive, flashier, and will see a stronger bid. RARE finer, a MS66 will have a five-figure price tag. What a great example of this short lived type.

LOT 496

25C 1805 BROWNING 4. PCGS XF45 CAC

The B-4 die pairing is a scarce one listed as a low Rarity-4, and the variety is easily attributed by the position of 5 and C in the denomination in relation to the arrow feathers and tail feathers respectively on the reverse. The engraver also used defective letter punches, with the T in LIBERTY missing its left foot, the I in AMERICA is missing its right foot. These mint made defects are relics of a time when dies were produced by hand, and because of the expense in die making, were overlooked. This piece has light wear, but central definition is soft from a typically weak strike. The surfaces are generally problem free for the grade, and the lightly worn surfaces are deeply toned with shades of sea-green and steely-blue. The eye appeal is quite nice.

PCGS 26, NGC 17, CAC 6. This is the ex Eric P. Newman Collection coin, which first sold in auction in November 2013 for nearly \$4,000 (plate matched)! The most recent PCGS/CAC piece sold for \$3,840 in October 2019. The CAC CPG value is \$4,440 and the PCGS Price Guide is listed at \$3,750. A neat type coin with a great pedigree.

Sharply struck and retaining a wealth of luster under the color, this coin really pops in a light. The wear is extremely minor. Slate and dove hues meld with extremely bold aqua teal and hints of antique gold. The eye appeal is excellent.

PCGS 41, NGC 32, CAC 9. The most recent PCGS/CAC example sold in our January 2019 Regency Sale of the Sand Hill Collection, which brought \$5,523. The current PCGS Price Guide value is listed at \$4,000 but that seems low for a PCGS/CAC coin (for some reason the CAC CPG value is even lower). A lovely and original Capped Bust quarter that is quite difficult to find with CAC approval.

25C 1831 SMALL LETTERS. PCGS AU58 CAC

B-1, which is actually a Small Letters reverse, mislabeled by PCGS as Large Letters. The reverse is identified by a die crack that connects the olive leaves to the eagle’s wing, up into the base of UNITED then through STAT, before going into the rim above E. Crusty and original, this piece has a delicate blue-gray tone overall with gold and sea-green that come out in a light. We note a light “A” formed from a couple of wispy scratches on the obverse, noted for accuracy. Obviously the eye appeal was not affected too badly to preclude grading or CAC approval.

PCGS 75, NGC 75, CAC 19. The last PCGS/CAC example sold for \$3,173 in June 2017. Prior to that one sold in April 2013. The current CAC CPG value is \$1,690. Scarce in Mint State, this will make a wonderful addition to a great “Everyman Type Set.”

LOT 499

25C 1853 ARROWS AND RAYS. PCGS MS65 CAC

A totally original, GEM quality example of this ONE YEAR ONLY type. Placement of the arrows at the date and rays around the eagle came after the Mint Act of 1853 which reduced the content of silver in the half dime through half dollar. One of the results of the flood of gold coming out of California was the ratio of gold to silver in circulation went out of balance, raising the price of silver to a point where the silver content was worth more than face value. Many older silver coins were exported and melted for a profit, creating a shortage in commercial channels. The 1853 Mint Act relieved this problem, but created another. The rays on the reverse proved to shorten the life of the dies, and after 15 million were produced, the design was changed, retaining the arrows at the date, but removing the rays creating a one year only type. The need in commerce for these coins resulted in a very large mintage, but low survival rate.

A rich satin sheen catches the light and provides a soft back lighting to the delicate pearly-dove-slate-golden tan. A wonderfully crisp strike has rendered every detail nicely on both sides. The fields are clean and free of any distracting marks.

PCGS 19, NGC 29, CAC 10. The most recent example to sell in auction brought \$8,700 in January 2019, however, it has sold for more than double that twice (in 2011 and 2013 for \$18,400). This one year type is RARE any finer, so this is a great example for your set.

25C 1895 PCGS PR65 CAC

What an sensational GEM Proof Barber quarter! First off, this coin is conservatively graded and while we make no guarantees, we would not be shocked if it came back graded PR66 CAM. However, this coin is housed in a very scarce second generation "doily" holder with the frame intact. These Generation 2.0 holders were used for just September and October 1989, and are extremely popular among "slab" collectors. Incredibly deep, flashy mirrors have a bold clarity and cleanliness. They are ultra clean for the assigned grade. There is a blush of peripheral toning that is a delight to behold, framing both sides. The sharply struck devices stand out boldly with a bold frosted texture and have a wonderful contrast. WOW!

Only 880 Proofs were struck. PCGS 33, NGC 43, CAC 3. DO NOT let the Population Reports fool you. A PCGS PR65 has not sold since January 2009--a coin that sold for \$1,995. Splendid, glassy smooth surfaces are flashy and have a great reflection. Both sides have a classic blend of antique gold, clear blue, and soft violet that frame the peripheries, creating a halo around brilliant, untuned centers. The eye appeal is amazing!

PCGS 13, NGC 16, CAC 6. The last time this coin appeared in auction was twelve years ago, selling for \$5,175 as an NGC/CAC PF67 in the 2009 FUN auction, before being crossed over to PCGS. O-105, T-25, listed as Rarity-3. This is a very high end and CHOICE example for the grade. Housed in an older blue tag holder, this coin has nearly full details, the wear is limited to the highest points and light friction in the fields. There are generous hints of original mint luster that peaks through the protected edges of the design elements. The peeks of brilliance accent the rich slate, pewter, and russet tones. The surfaces are devoid of all but the tiniest ticks, none of which are an anthem to the assigned grade.

50C 1837 REEDED EDGE. PCGS MS64 CAC

This is a gorgeously toned and totally original borderline GEM caliber example. The surfaces are gleaming with a rich underlying satiny glow. Both sides are awash in original patina, the peripheries have a wonderful teal-blue coloration, yielding to a tangerine-rose in the devices, particularly in the obverse. The strike is bold on both sides, with pinpoint precision to the details. GEM quality surfaces fail to reveal anything but the most insignificant contact, visible only with the aid of a powerful glass.

After the steam press was installed in 1836, the mint was able to streamline production, and create a closed collar for the half dollar, which ended the Lettered Edge used since 1794 and begin with the reeded edge that is still seen on coins today. William Kneass modified John Reich's classic Capped Bust design, removing the scroll on the reverse, sharpening certain details, etc. While this short lived series, struck 1836 to 1839, are usually collected by type collectors with a single coin, the truth is there are two very distinct reverse types struck: 1836 and 1837 maintain the denomination as 50C., while in 1838 and 1839 the design looks more like the Seated Liberty half dollar reverse, with the denomination spelled out HALF DOL.

PCGS 105, NGC 100, CAC 35. We sold the most recent PCGS/CAC example which realized a strong \$7,931 in our December 2020 Regency Auction, which was well above the published Price Guide values. We anticipate this VERY CHOICE example will bring a very strong bid!

The cartwheel luster blooms vividly on both sides, enlivening the color and sharply struck devices. There is just the slightest trace of weakness at the denomination and at the peak of Liberty's cap. The surfaces are totally clean and in the old days, this coin would have been called a GEM. We love the look of this outstanding coin!

An exceptionally example of this early No Motto Seated Liberty half dollar which is TIED FOR FINEST graded at PCGS. This marvelous coin is an old friend, one we sold five years ago in our May 2016 New Orleans Regency Auction XVII, where it was described as:

“A frosty, nearly gem quality example with light golden-russet toning. Only the most minute scuffs can be seen with effort. MS64 is the highest grade assigned at PCGS. Well struck and

quite attractive. Much scarcer in high grade than the mintage of 1,766,000 might suggest.”

PCGS 14, NGC 5, CAC 4. A non-CAC PCGS coin sold for \$6,300 in February 2020 and this coin sold for \$5,640 what seems like ages ago! Clearly the price guides are all wrong on this date/grade. An exceptional quality borderline GEM Proof example of this challenging Seated Liberty issue. Housed in a generation 1.2 holder, a classic rattler slab.

Wonderful watery mirrored fields bounce the light and are highly reflective. The colorful toning really pops boldly when you rotate the essentially GEM caliber surfaces in a light. The blues and golds really pop! We note a few minor lines under intense scrutiny, but these are invisible to the naked eye. The eye appeal is exceptional for the grade, and what a delight it is to see a classic coin like this still in the old PCGS holder.

PCGS 36, NGC 29, CAC 6. Only 600 Proofs were struck. The last example sold in December 2018--the market dynamics have changed since then. Stunning super deep, crystal clear, ultra clean, and intensely reflective mirrors beam from all over. They offer that incredible deep “watery/liquid mercury” look. We just love twirling this coin. A beautiful and totally original mix of purple/blue colors frame the peripheries on the obverse and totally cover the reverse. Miss Liberty and the details boldly stand out with thick brilliant frost and needle sharp strikes. The eye appeal is spectacular!

PCGS 18, NGC 17, CAC 4. ONLY 880 were minted. These are NOT common at all. The only auction record for any PCGS coin we could find was from 2010. The current Collectors Universe Value is \$4,250. This coin will be a tremendous addition to any GEM PR Cameo set. Good luck!

What a lovely, original GEM 1936 half dollar Proof! After a hiatus of 21 years, the mint resumed striking Proof coins for collectors in 1936; only 3,901 sets were struck. A delicate iridescent tone can be seen dusted across the obverse fields, but it is soft and does little to obscure the intense flashy and brilliance of the underlying reflection. The eye appeal is sweet!

PCGS 543, NGC 372, CAC 101. The most recent one sold for \$2,400 in the 2020 FUN auction, which is a little below the average of \$2,656 for the last 10 PCGS PR65 CAC examples sold in auction going back to February 2017. \$1 1795 3 LEAVES. PCGS AU53 CAC

B-5, BB-27. This is the most common die marriage for the 1795 Flowing Hair type and this really high end CHOICE AU example is PERFECT for the grade and PERFECT for a type set.

Both sides show a touch of wear and some retained satiny brilliance glows along the edges of the classic early design. The details also remain boldly defined, clearly the initial strike was precise and crisp. There are full separation in Liberty's tresses, stars, and eagle's facial features. Colorful peripheral toning yields to a golden-pewter-silver in the centers. There are some minor traces of contact and a few tiny marks from its brief time in early federal era circulation. The eye appeal is sensational for a type, date, and grade; we wish more 1795 dollars in AU looked like this!

PCGS 33, NGC 24, CAC 4. Clearly most pieces are NOT at all attractive, otherwise CAC would have stickered more pieces. This is the ONLY CAC-approved AU53 ever sold in auction, selling in the 2009 FUN auction, as part of the James Mossman Collection. Back then, this coin sold for \$25,300; today the CAC CPG value is \$26,400. We suspect that more than 12 years off the market let this coin's value mature, and will bring a similarly strong bid today. What a great type coin!

WOW! This is what we call a GEM XF45! This coin is all there and then some in terms of overall technical quality and eye appeal. Seriously, we really wish more looked like this! Did we say WOW! yet?

A very pleasing B-4, BB-61. Your first impression of this beauty is that it is undergraded, and while we make no guarantees, this coin certainly has multiple claims to an AU grade. Light, even, problem free

circulation is seen on the highest points and some light friction is seen in the fields. A generous amount of luster remains in the protected areas of the recessed areas of the design types. Rich peach-pewter, olive-russet, and olive-gold patina, totally original evenly blankets the exceptionally CHOICE surfaces, giving this modest collector grade coin a SUPERB look!

PCGS 48, NGC 69 (all varieties), CAC 12. There are four auction records for PCGS XF45 CAC graded coins, bringing \$9,800 in an April 2019 internet only auction. Prior to that, examples had brought as much as \$13,225. Both the CAC CPG and PCGS Price Guide values are listed at \$12,000. We think this coin is worth that, or more. Ex Hesselgesser Collection, as noted on the insert.

The present high end AU55 is tied for second highest graded for this Rarity-5 variety at PCGS, and clearly in the Condition Census for the variety. This Hesselgesser pedigreed coin is listed in Q. David Bowers' 2013 list of "Notable Specimens."

This is a very attractive, originally toned specimen. Impressive golden color melds with varied pewter, russet, subtle blue, delicate olive and tan patina pulls away from the legends and is generally evenly dusted over the abundant underlying mint brilliance. Exceptionally well struck, save for some minor softness at the eagle's breast feathers and on the shield; otherwise the strike is complete, bold, and crisp, with razor sharp precision. The short stay in commerce during the first Adams Administration failed to impart any unsightly marks, and its caretakers over these last 222 years kept it safe and secure, not venturing to "improve" it by cleaning or damaging it in any other manner. Struck from a late reverse die state with a strong die break passing between ED of UNITED and into the left corner of the shield, and another crack from the eagle's tail through ICA of AMERICA. Needless to say, the technical quality and aesthetic appeal of this GEM AU piece is exceptional!

PCGS 122, NGC 81, CAC 9. For the variety, PCGS has graded just three, with a single coin finer. Back in Goldberg's September 2011 auction, this coin brought \$10,925. The current CAC CPG value is listed at \$12,300. This is an important opportunity for the advanced early dollar die variety collector that should not, and cannot be taken lightly. \$1 1839 J-104. RESTRIKE. PCGS PR63+

A beautiful very CHOICE 1839 Gobrecht dollar. All Gobrechts are rare, especially in this lofty state of preservation. The 1836 J-60 and 1839 J-104 were both struck in enough quantity (and enough worn examples survive) to suggest that these were actually struck for commercial use. The 1839 Gobrecht dollar is, like every one of these dollars dated 1836, 1838, and 1839, enigmatic. After many years of theories and conjecture, noted numismatic scholars John Dannreuther, Saul Teichman, and Craig Sholley have created a very useful website to aid in proper attribution, www.gobrechtdollars.com. The 1839 J-104 was struck first in the final weeks of the year. Dies were stored away, and during the late 1850s to the 1870s, restrikes were struck for collectors. Restrikes have full Proof finish with highly reflective mirrored fields, while Originals have surfaces that are just semi-reflective.

The present example is struck in Die Alignment IV, as are most, the eagle flies straight across a plain field. The die rust suggests an early to middle restrike. There is evidence of die polishing around the legend on the reverse. The mirrors are ultra flashy and vividly brilliant. Every detail is sharply impressed, with precision crispness that shows every detail in its full advantage. Both sides have a dusting of the palest golden iridescent toning that deepens to tangerine, rose, hints of violet and blue. The surfaces show some minor, stray lines which account for the assigned grade. The initial visual impact is that of an even higher grade piece.

PCGS 1, NGC 0. The current Collectors Universe value is listed at \$42,000 and comparable examples are a PR63 that sold in March 2019 for \$36,000 and a PR64 sold in October 2018 for \$54,000. We think this VERY CHOICE 1839 Gobrecht dollar deserves to see very strong bidding and placement in a world class silver dollar collection. Good luck!

DO NOT let the modest MS61 grade fool you, this is NOT a lackluster AU58 that got pushed into a Mint State holder. This is a gloriously toned, vividly blue Brilliant Uncirculated early Seated Liberty dollar that will forever be memorable for its outstanding eye appeal. A rich underlying luster makes the aqua-teal, cobalt, and golden-clover toning that covers both sides really pop when rotated in a light. While a strong glass reveals a few minor traces of contact and some minor striking softness on the eagle's wing feathers, the eye appeal is really off the charts, especially for the assigned grade. WOW.

A truly spectacular CHOICE early No Motto Seated Liberty dollar! WOW! We have no doubt this coin sat for ages in an ancient Wayte Raymond or similar type of album where both sides could become imbued with a gorgeous toning pattern on both sides. Light gold mixes with deeper blue and aqua tones near the rims before fading into a lovely violet and rose-gold patina. The devices show sharp crispness and the luster is bold throughout. We note some very minor traces of contact, most notably in the field above the eagle's head, which account for the assigned grade.

PCGS 18, NGC 7, CAC 9. This amazing looking coin sold back in April 2015 for a very strong \$11,163. On a scale of 1-10 (10 being the coolest), we rank this coin an 11++!!!! It resembles a bag toned Morgan more than a rare Mint State Seated!

Save for a tiny reeding mark, this coin is super clean overall. The surfaces have a satiny texture. Unusual for the date, there is a strong glowing luster. Remarkably, the right obverse has deeper and totally original shades of navy/blue/violet/amber/pearl green that blend into off white/gold centers. \$1 1921 PEACE. HIGH RELIEF.
PCGS MS66 CAC

A majestic, Premium Quality GEM example of an always popular issue that is even more so this year, as we celebrate its 100th anniversary. The 1921 Peace dollar was struck to commemorate the end of World War I and hope for world peace. Anthony de Francisci took up the mantle of August St. Gaudens and created a marvelous high relief design. Like St. Gaudens design, the 1921 Peace dollar had difficulty in striking and often the central devices lacked

detail, so in 1922, the relief was lowered. Just over 1,000,000 1921 Peace dollars were struck and while many were saved in lower Mint State grades, MS66 and finer examples are decidedly rare.

The present GEM is beautiful both in terms of technical quality and visual allure. Sharply struck, even in the centers. A bold luster glows vividly all over with hints of pale golden tone attesting to the originality and adds to the eye appeal. There are no serious traces of contact anywhere and the eye appeal is AMAZING.

G\$1 1854 TYPE 2. PCGS MS65+ CAC

To look at this GEM is to fall instantly in love with it. We have had the pleasure of selling some amazing GEM Type 2 gold dollars in recent times, but this one has to be one of the most fabulous examples!

Incredible and HIGH END! We wish this is what all Gems looked like; not just is the eye appeal fantastic, but the technical grade is spot on! Deep orange golden coloration blends with delicate rose-gold patina which is brought to the fore with a vividly brilliant mint luster that blooms boldly all over. Sharply struck, the dies were not heavily clashed when this one was made. The surfaces are wonderfully preserved and the color gives this GEM a great look.

PCGS 56, NGC 26, CAC 20. Just half dozen grading events at MS65+ at PCGS. The most recent example to sell realized \$34,075 in our June 2019 Regency Auction. The current Collectors Universe value is listed at \$40,000. There are 16 pieces finer. A PCGS MS66 with CAC approval will cost nearly double--the last one sold for \$64,625. As a type, these are quite rare so fine and we know this one will tickle the fancy of any serious gold type collector.

G\$1 1874 PCGS MS67+ CAC

This is a common date in a very uncommon condition! Indeed, this SUPERB GEM is bested by just three coins. It is a marvel that it has survived in such a pristine state of preservation. A truly vibrant luster has a blend of textures, from partially reflective to satiny and frosted. The eye appeal is truly AMAZNG! A richer tangerine-honey gold patina graces both sides framing the sharply struck devices. The frosted texture on the design elements stand out nicely against the blazing brilliance, smoothness, and cleanliness of the devices.

PCGS 39, NGC 30, CAC 16. There are five in MS67+ and just a trio are graded finer. The most recent example sold in our July 2018 Regency Auction, from the Chester Roche Collection, realizing \$5,875 on an estimate of \$3,200-\$3,500. This one is nicer and should sell for more. Keep in mind that a PCGS/CAC MS68 will cost close to \$20,000!

\$2.50 1843-C LARGE DATE. PCGS XF45 CAC

Crusty and original, this is a very pleasing looking, unconserved example of this Charlotte mint issue. Greenish golden color is a delight, the way these should look. Light, problem free wear is seen on the high points and in the fields, but there are traces of original underlying luster in the protected areas of the design. The strike is bold for this issue, which is often weak at the centers. There are two major varieties for the 1843-C: the Large Date as seen here and the Small Date. The Large Date is more common of the two, with just 250-300 known in all grades.

PCGS 35, NGC 40, CAC 4. The only PCGS/CAC brought \$2,340 in April 2019. Seems too cheap to us. The current Collectors Universe value is listed at \$2,750 and the CAC CPG value is \$3,000. This totally original and high end CHOICE XF will bring a strong bid. Good luck.

\$2.50 1836 BLOCK 8. PCGS AU58 CAC

Ex Eric P. Newman Collection.

HM-1. This is a wonderful, totally original AU58, which was impounded for generations in the famed Eric P. Newman Numismatic Education Society Collection. A rich orange gold color has tinges of tan and olive that was slowly acquired thanks to years of benign neglect, where this coin sat unmolested in Newman's collector envelope. Generally well struck in the central portions of the design, and there is just a touch of weakness in some of the stars. Interesting die cracks are seen on the obverse. We note just the slightest trace of contact and friction from its brief time in commercial channels.

PCGS 32, NGC 72, CAC 7. As an NGC-graded coin in the sale of the Eric P. Newman Collection, Part V, this coin brought \$2,115 in November 2014. The last PCGS/CAC coin brought \$1,920 in December 2019. The current PCGS Price Guide value is \$2,100 and the CAC CPG value is listed at \$2,120. Surprisingly scarce in Mint State, despite its huge mintage. With its great pedigree, this awesome AU58 will delight any type or specialist collector of Classic gold.

A great looking coin! We love the look, with its thick, satiny mint brilliance and two-tone golden coloration. The surfaces are super clean and smooth for the grade, its quality exceptional for the assigned grade. Well struck and frosty devices, along with the luster and original color gives this nearly SUPERB GEM a stunning look.

PCGS 468, NGC 428, CAC 119. The current CAC CPG value is \$1,690 and the most recent example sold for \$1,320 in September 2020; since then the market has become stronger. A great coin for any gold coin collection.

A lovely GEM example of this common date quarter eagle, and a truly original, nicely preserved one that will delight any collector. Well struck and offering a brilliant satiny luster, this coin has boldly impressed, incuse design elements and the fields are generally clean, showing just a few minor contact marks. The eye appeal is excellent.

PCGS 697, NGC 1007, CAC 122.

The most recent example to sell in auction brought \$3,000 in September

2019. We have not sold one in three years! Clearly PCGS/CAC coins are in strong hands. The current CAC CPG value is listed at \$3,120. Very scarce finer, this is the optimal grade for collectors.

\$3 1879 PCGS MS65 CAC

A fantastic GEM survivor of this low mintage \$3 gold piece! Only 3,000 examples were struck, and needless to say, GEM and finer examples are quite scarce.

This coin is a blazer! Exceptionally brilliant surfaces boom with an incredible luster that rivals the brightest sunny day. Prooflike reflective accents in the field make the surfaces blinding. The devices are well struck and possess a decent frosty texture. Some very minor

contact is all that keeps this coin from a higher grade. The eye appeal is phenomenal!

PCGS 39, NGC 20, CAC 9. The most recent example sold in our February 2021 Regency Auction, which brought \$15,275.

The current CAC CPG value is \$15,600 and the PCGS Price Guide value is \$12,500. Just a dozen coins are graded finer. A great type coin for the advanced collector, or for the \$3 gold specialist.

LOT 557

\$5 1796/5 PCGS AU50 CAC

A lovely, totally original BD-1. A challenging Rarity-4+ with perhaps only 75-100 examples known to survive today. All 1796 half eagles are overdates, struck from this single pair of dies. Most known examples are either lower grade than the present piece, or have flaws that preclude third party grading.

Only light friction and wear is seen on this AU50.

Ample mint luster survives on the surfaces. A wonderful coppery-orange tone accents the sharply struck devices. A shallow mark on Liberty's neck and a tiny contact mark in front of Liberty's nose are the only noteworthy marks, and they serve as pedigree markers for this CHOICE example of this IMPORTANT RARITY. For an AU early gold piece, the eye appeal is spectacular.

PCGS 3, NGC 2, CAC 1. This coin has been off the auction market since June 2008, when it sold for \$69,000 in the Stack's sale of the Husky Collection. The current Collectors Universe value is \$60,000 and the CAC CPG value is \$60,600. RARE in all grades, especially so with CAC approval. What a great piece!

\$5 1800 PCGS AU55 CAC

A lovely, CHOICE AU BD-5, a Rarity-3+ variety featuring the blunt 1 punch in the date. Perhaps 175-250 examples of the BD-5 survive in all grades today.

Totally original! What an exceptional example! Only light wear is seen on either side, but the surfaces are barely worn. A glass reveals trivial contact, but this is natural given the assigned grade. Wonderfully rich, orange-gold patina is given a brilliant back light from much retained mint luster throughout the devices and fields. Extremely attractive!

PCGS 59, NGC 39, CAC 31. The most recent example to sell was a gold sticker CAC that brought \$18,000. The is the piece that sold for \$12,338 back in September 2014. The current Collectors Universe value is \$13,000 and the CAC CPG value is listed at \$12,300. What a great type coin for the collector! You almost never see these looking like this and we are sure in today's market it will sell for a very strong bid. Good luck.

LOT 559

\$5 1807 BUST LEFT. PCGS AU58 CAC

A wonderful AU58 example of this popular early type, the first year of issue for the John Reich designed Capped Bust Left type. This is a borderline Mint State piece with a beautiful satiny mint frost. There are some tiny, scattered traces of contact and the barest amount of friction on the surfaces, as expected for an AU58. The color and luster are bold and very attractive.

There are two die marriages of the new Capped Bust left type struck in 1807, BD-7 and BD-8; BD-7 is a very tough Rarity-5+ while the BD-2 offered here, is more common, listed as Rarity-2.

PCGS 38, NGC 63, CAC 13. The only CAC-approved examples to sell in auction were NGC-graded, and the most recent example sold for \$12,338 in the 2016 ANA auction. The current CAC CPG value is listed at \$12,000. What a great looking coin for any type collection. Since these rarely come up for sale, we anticipate very strong bidding. Good luck.

\$5 1809/8 PCGS AU55 CAC

Every half eagle struck from 1809-dated dies were struck from a single die pair, which was originally prepared for 1808 coinage. The large 9 was punched over the partially effaced 8.

Unlike many of the survivors of this type, the present coin is NOT conserved or cleaned. Both sides are original and crusty with some ancient “dirt” clinging to some of the recesses of the design. A radiating luster rolls with a bold cartwheel brilliance. In

general, the definition is crisply defined throughout and the wear is pretty much limited to the highest points of the design. There are no serious marks of any kind, visible to the naked eye or with the aid of a glass.

PCGS 35, NGC 25, CAC 6. The current CAC CPG value is listed at \$11,100 and the most recent PCGS/CAC piece sold in an internet auction in June 2014 for \$9,928. Attractive, original Capped Bust gold coins are quite rare in relation to their reported populations. Don't let this opportunity pass you by!

PCGS# 8104 | EST: \$8,500+

LOT 561

\$5 1813 PCGS MS62 CAC

A lovely CHOICE BD-1. The 1813 is the most available of the ever popular “Fat Head” fives, and as such is the most popularly collected date for type purposes. This type is particularly difficult to locate, as most of these old tenor gold pieces were exported in the 1820s as their bullion value surpassed their stated face value.

The present example is boldly struck and offers a bold satiny glow.

The brilliant luster glows boldly surrounding the sharply impressed design elements and the satiny smooth surfaces. The technical quality is all there, and this coin has an eye catching visual allure that is usually reserved for higher numerical grade examples.

PCGS 52, NGC 57, CAC 15. The most recent example to sell brought \$18,000 in October 2020 and the current Collectors Universe value is \$21,500. Keep in mind that we sold a PCGS MS63 CAC for \$30,550 in January 2020. This coin has a great look for the grade and will be a great addition to any set.

HM-2. A fully CHOICE AU Classic Head half eagle. Possessing a “dirty, crusty” original surface, this coin has a great look. Light friction in the fields and the faintest traces of contact are seen on the surfaces, acquired naturally during its brief stay in commercial channels. The definition is bold, with crisp, clean striking in the details.

PCGS 65, NGC 141, CAC 14. Do not let the Pops fool you, there has not been a CAC-approved AU55 sold in auction for nearly a decade, the ONLY one selling for \$2,820 way back in November 2012. The current Collectors Universe value is \$2,300. A great looking coin that will delight any collector of AU gold coins.

\$5 1845-D PCGS AU53 CAC

An incredible and totally original 45-D in an extremely popular collector grade. While so many examples have been dipped, stripped, and conserved (or worse) in an effort to make it look higher grade, the majority of these southern branch mint gold coins have lost so much of their charm. This excellent CHOICE AU piece has a warm honey and tangerine patina that is enlivened in places by some retained original luster. The devices were crisply struck and have bold definition on both sides. The surfaces show some minor scattered contact, but the tiny ticks do not detract from the great look.

PCGS 40, NGC 31, CAC 4. The dull, problematic, doctored coins have held these back. We believe that this coin will far surpass the published levels and APRs. Those in the know will easily recognize how lovely and impressive this coin is.

A generous mintage of 573,901 pieces makes the 1852 a popular No Motto half eagle for the collector. The present AU58 retains ample mint luster in the fields that highlight the surfaces. Some contact is noted with a strong glass, but this coin is not at all hacked up. A lovely honey gold coloration adds to the eye appeal.

PCGS 74, NGC 255, CAC 20. The current Collectors Universe value is \$1,000 and the CAC CPG value is \$1,010 and no PCGS/CAC coin has sold in auction in over four years! This date becomes quite scarce in Mint State.

True Gem quality \$5 Indians are quite difficult to find, especially with CAC approval. This is an exceptional quality GEM! Bold and beautiful! Anyone who has any experience with this series knows how difficult they are to find this nice!

This is a very high end first year of issue. Brilliant, lustrous surfaces have a rich satiny frost. The incuse design elements are sharply impressed into the planchet, giving this coin

razor sharp features. A strong glass fails to find any serious contact marks, lines or any distractions of any kind, even in the dreaded right field above the eagle. The eye appeal is GREAT!

PCGS 243, NGC 112, CAC 56. Do not let the pops fool you, there has not been a PCGS/CAC sold in auction since December 2016! The current CAC CPG value is listed at \$13,100. Fewer than 50 examples have graded finer at PCGS. A great type coin, especially if you collect first year of type.

NOTES

LOT 567

\$10 1796 PCGS AU55 CAC

Only 4,146 eagles were struck in 1796, all from a single pair of dies, of which 125-175 are estimated to survive in all conditions today. Rare in any grade, especially so with any traces of original, problem-free surfaces. The present "GEM" AU is extremely attractive, and just holding this coin transports you back to the final year of the Washington presidency.

Incredible multi-hued orange-gold patina caresses the lightly circulated surfaces. The fields are distinctly reflective, with ample, semi-Prooflike tendencies, particularly on the reverse. The obverse shows a dramatic die crack that bisects that side, crossing from 12:00 to the drapery just under the bust. Virtually all the details are boldly impressed from a robust blow from the dies. The light friction lines in the fields are amplified by their flashy nature. There are virtually no imperfections to be found and the eye appeal is superior to the vast majority of known examples!

PCGS 15, NGC 9, CAC 2. No CAC-approved AU55 has ever sold in auction. The most recent PCGS AU55 sold for \$66,000 in August 2020 and it did not have anywhere close to the SUPERB visual allure of this amazing coin! The current Collectors Universe value is \$85,000 and the CAC CPG value is \$84,000. Any AU58 approaches or surpasses the six-figure price range. Incredible quality and eye appeal, anyone who knows how the typical 1796 eagle looks, will instantly recognize how special this coin is! Good luck!

\$10 1853/2' PCGS AU53 CAC

The so-called overdate variety, discovered in 1960. The 1853/2 \$10 has, up until the creation of 3rd party grading, been considered a great rarity: David Akers wrote in 1980 that "it would appear to be very rare," and Walter Breen claimed, "possibly 8-10 known" in 1988. Today, PCGS and NGC have graded fewer than 300 examples (inclusive of duplicates). The 3/2 is faint, with some doubling seen at the curl of the 3 and part of the diagonal of the underlying 2 seen in the lower loop of the 3.

This is a totally original example, with choice surfaces, color and eye appeal for the grade. The rich golden color is back lit by a generous amount of retained mint luster. Just some minor contact and the slightest friction is seen from its short time in commerce. The eye appeal is excellent.

PCGS 20, NGC 35, CAC 7. This coin hammered for \$2,500 in our February 2017 Premier Session. The current Collectors Universe value is listed at \$2,750 and the CAC CPG value is listed at \$2,880. A wonderful variety for the Liberty Head eagle collector.

WOW! We really wish all \$10 Indians looked like this! What a spectacular coin; the quality is much closer to an MS66 than an MS65.

The luster SCREAMS off the surfaces of this GEM! Blazing cartwheels roll vividly over the fields and sharply struck up devices. Totally original and not messed with, this brilliance picks up varied golden shades when rotated in a light ranging from bright yellow gold to a deeper rose-tangerine hue. The surfaces

\$20 1908 NO MOTTO. PCGS MS66+ CAC

This is a high end No Motto Saint, bordering on full SUPERB quality! Well struck and boldly lustrous, this impressive coin has a fantastic look. The eye appeal is further enhanced by a bold two-tone golden color and bold, satiny surfaces.

PCGS 9529, NGC 4690, CAC 315. PCGS has graded 313 in MS66+. It appears that only 2.2% of the MS66 and MS66+s have been approved by CAC. Taking into account that there may be quite a bit of duplication in the Population and Census data at PCGS and NGC, and that not all coins have been submitted for approval, it is evident that the approval rate is still quite low. The most recent PCGS/CAC sold for \$4,750. In MS66, the CAC CPG value is listed at \$4,810. Gold is in very strong demand and we can see this piece easily exceeding that level. Good luck

\$20 1909/8 PCGS AU55 CAC

The Saint Gaudens series has very few varieties, mostly limited to minor doubled dies and repunched mintmarks. The 1909/8 is the only overdate in the series, and it is easily visible to the naked eye.

This is a “GEM” AU with virtually full mint luster on both sides. Barely perceptible friction is seen on the high points and in the fields with a glass, but the surfaces are not at all choppy or hacked up. The eye appeal is great for the grade.

PCGS 266, NGC 185, CAC 4. No CAC approved example has sold in auction, the most recent PCGS-graded coin sold for \$2,400 in January 2021. The current Collectors Universe value is listed at \$2,540 and the CAC CPG is \$2,410. Demand for this lovely 1909/8 will be strong. Good luck.

\$20 1927 PCGS MS64 CAC

Graded ages ago, this MS64 OGH looks pretty GEMMY to us, and compares nicely with many MS65s that have crossed our desks. A booming luster radiates all over the surfaces enlivening the well struck devices and PQ quality fields. The color, luster, and eye appeal are amazing for the MS64 level assigned between January 1990 and February 1993 when this coin was graded.

PCGS and NGC combined have graded more than 108,500 examples in MS64 (there is likely some duplication here), and only 2,068 have been approved by CAC. The last two sold for \$2,160 in February and March 2021 and the current CAC CPG value is listed at \$2,620. The eye appeal of this coin will boost its final price when the hammer falls.

\$20 1928 PCGS MS66

The 1928 is the last generic date Saint in the series; every date from 1929 to 1933 varies from Rare to Excessively Rare. The present Premium GEM has rich, original golden coloration that is enlivened by a thick, creamy luster. There are two contact marks visible to the naked eye in the central details of this sharply struck up example, the other minor contact is not worthy of mention. The eye appeal is excellent and we are not really sure why it didn't sticker at CAC.

PCGS 3263, NGC 1380. In the market today, even generics are strong. The last one sold for \$3,356 in December 2020 and the current Collectors Universe value is listed at \$3,940. A PQ coin worthy of a PQ bid.
